
- The Deputy Sheriff's Association of Michigan, Fraternal Order of Police, Michigan Association of Police Organizations, Michigan Professional Fire Fighters Union, and the Police Officers Association Michigan represent more than 28,000 of Michigan's police and fire fighters.

- All of these organizations have been intensely following the various versions of House Bill 5002, as the job of public safety is inherently dangerous, and thus, more likely to cause injuries while in the workplace.

- Although we do not agree with certain provisions of this bill and its effects on all workers, if our organizations are exempted from this bill we will take a neutral position.
