Kathy Bradbury

While I would love to stay & speak, I just realized I left my purse at home and I will run out of parking money in about 15 minutes.

I oppose SB 78. I am a native Texan, but a Michigander by choice. My husband and I have chosen to have our business here, raise our family here, and we will retire here. We just bought a second home in Oregon in the Pinckney State Rec Area - we will retire in that home.

In 2011, Michigan won the National Gold Medal for the best State Parks/National Areas in the US. The DNR does a great job and they need to be allowed to continue.

I've seen first hand what happens when our natural resources and bio-diversity are not protected. Please don't turn Michigan into another Texas. We have so much to lose here and once it's gone, you can't get it back. Kathy Bradbury
