VESCO OIL CORPORATION

September 29, 2015

To: Senate Natural Resources Committee

From: Eric Weiss, Vesco Oil Corporation

RE: 2015-SB-400 & 2015-SB-401

Dear Senate Natural Resources Committee Members,

As captioned above, my name is Eric Weiss, and I am writing on behalf of Vesco Oil Corporation. Unfortunately, I am unable to attend the Natural Resources Committee hearing being held on Wednesday, September 30th at 12:30 p.m. However, I am writing to express my support for the passage of SB-400 and SB-401.

I was a member of the work group that provided input into the language that has been incorporated into these bills. I truly believe that if passed, the revised regulation will greatly simplify and streamline the management of liquid industrial wastes, while preserving, and even enhancing the protection of human health and the environment. Thank you in advance for your consideration of this written testimony.

Respectfully submitted,

Eric Weiss
