

NPLEX

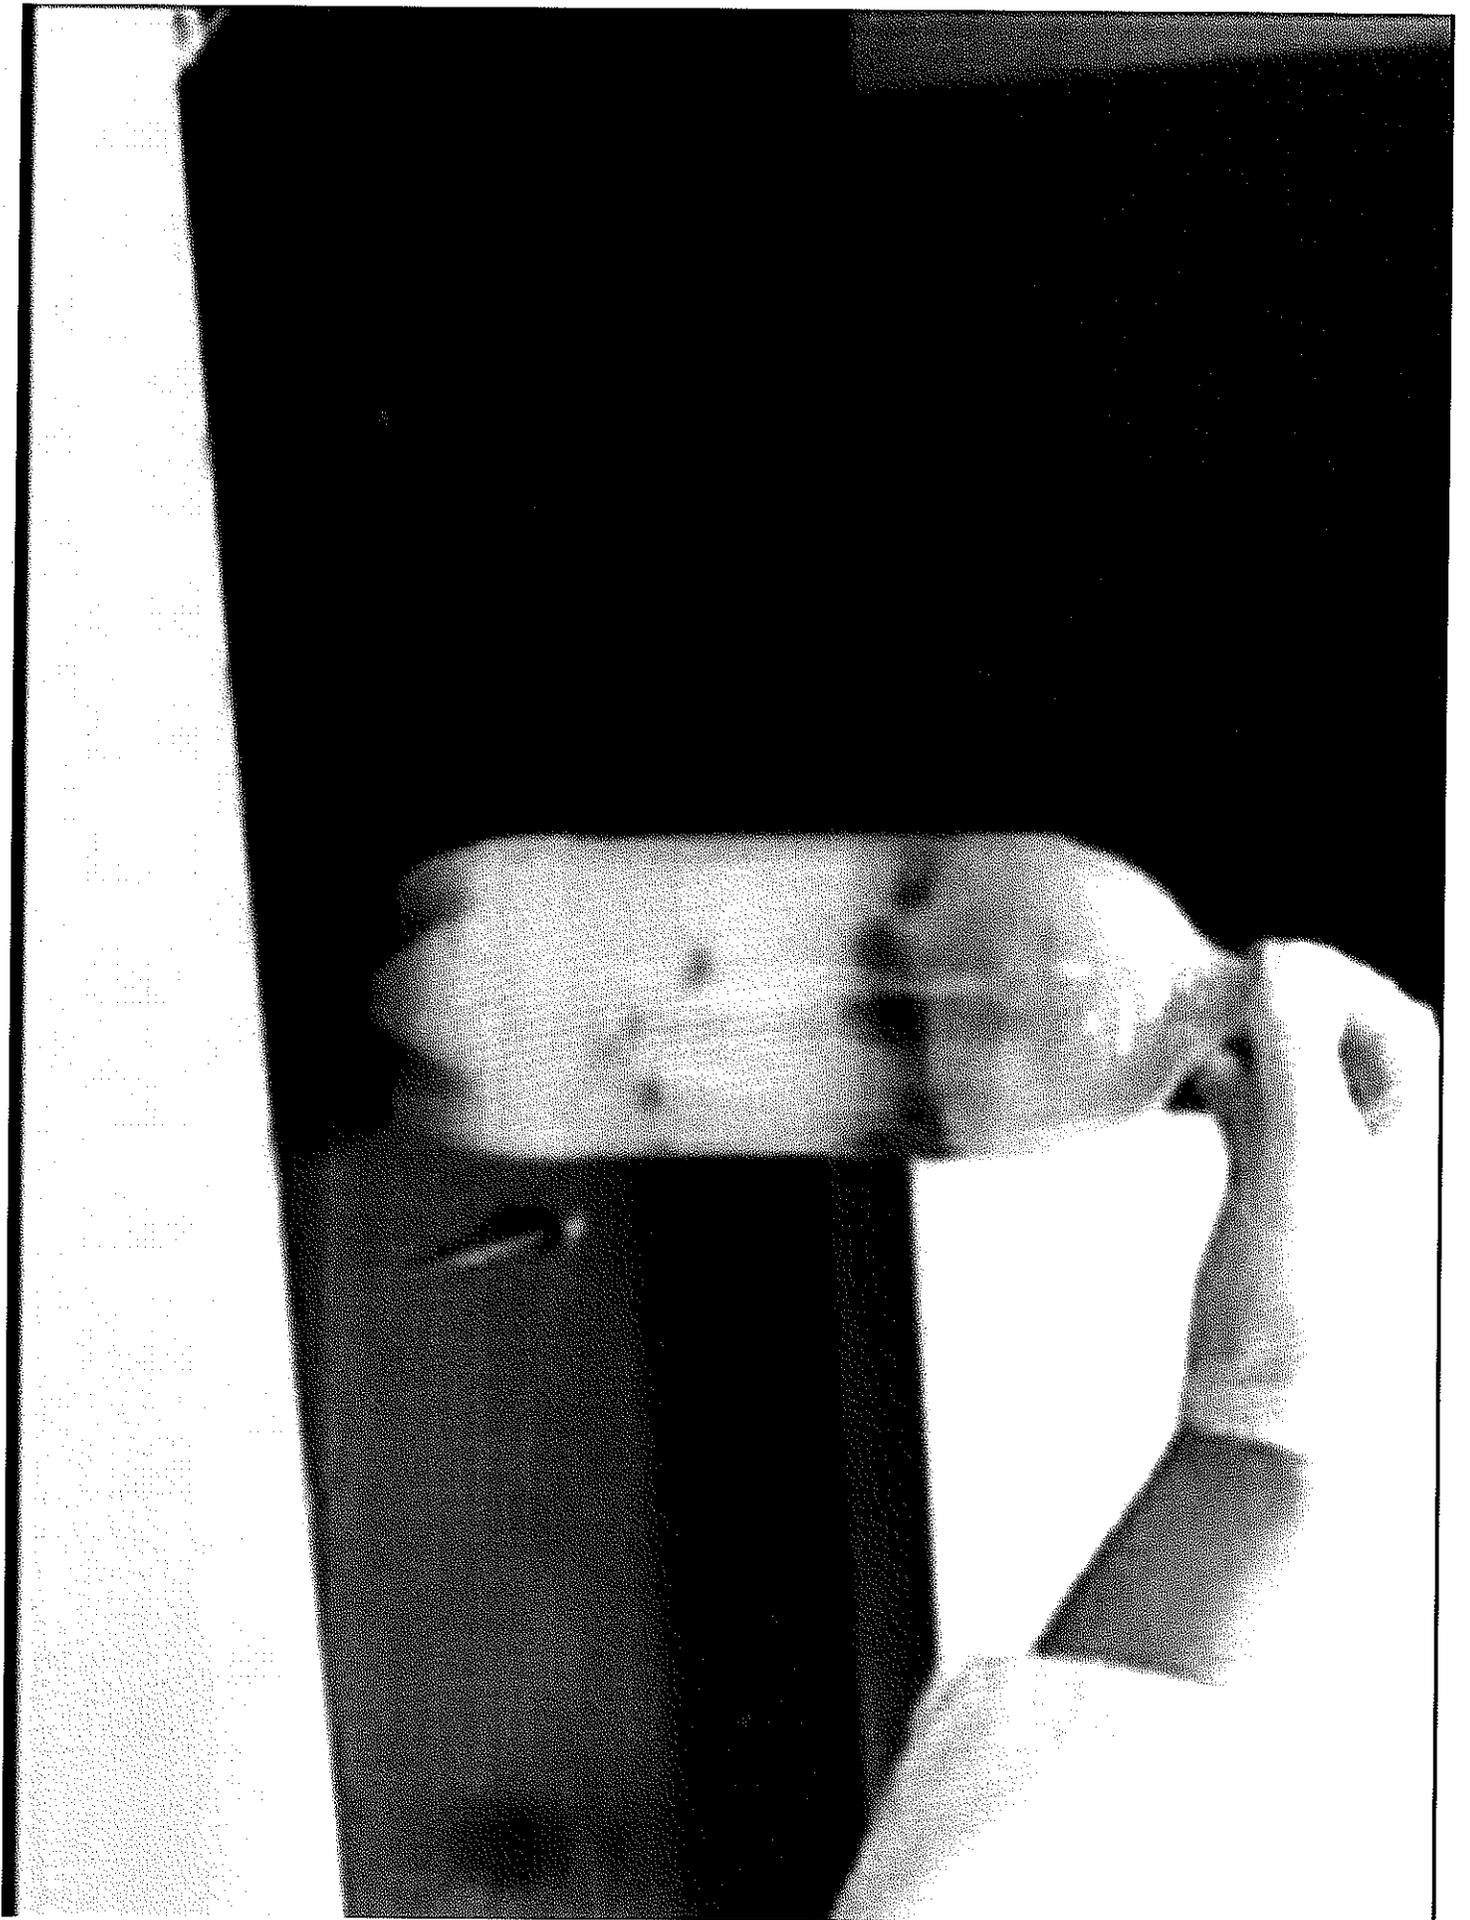

The National Precursor Log Exchange

Kentucky state record: 243,000 doses

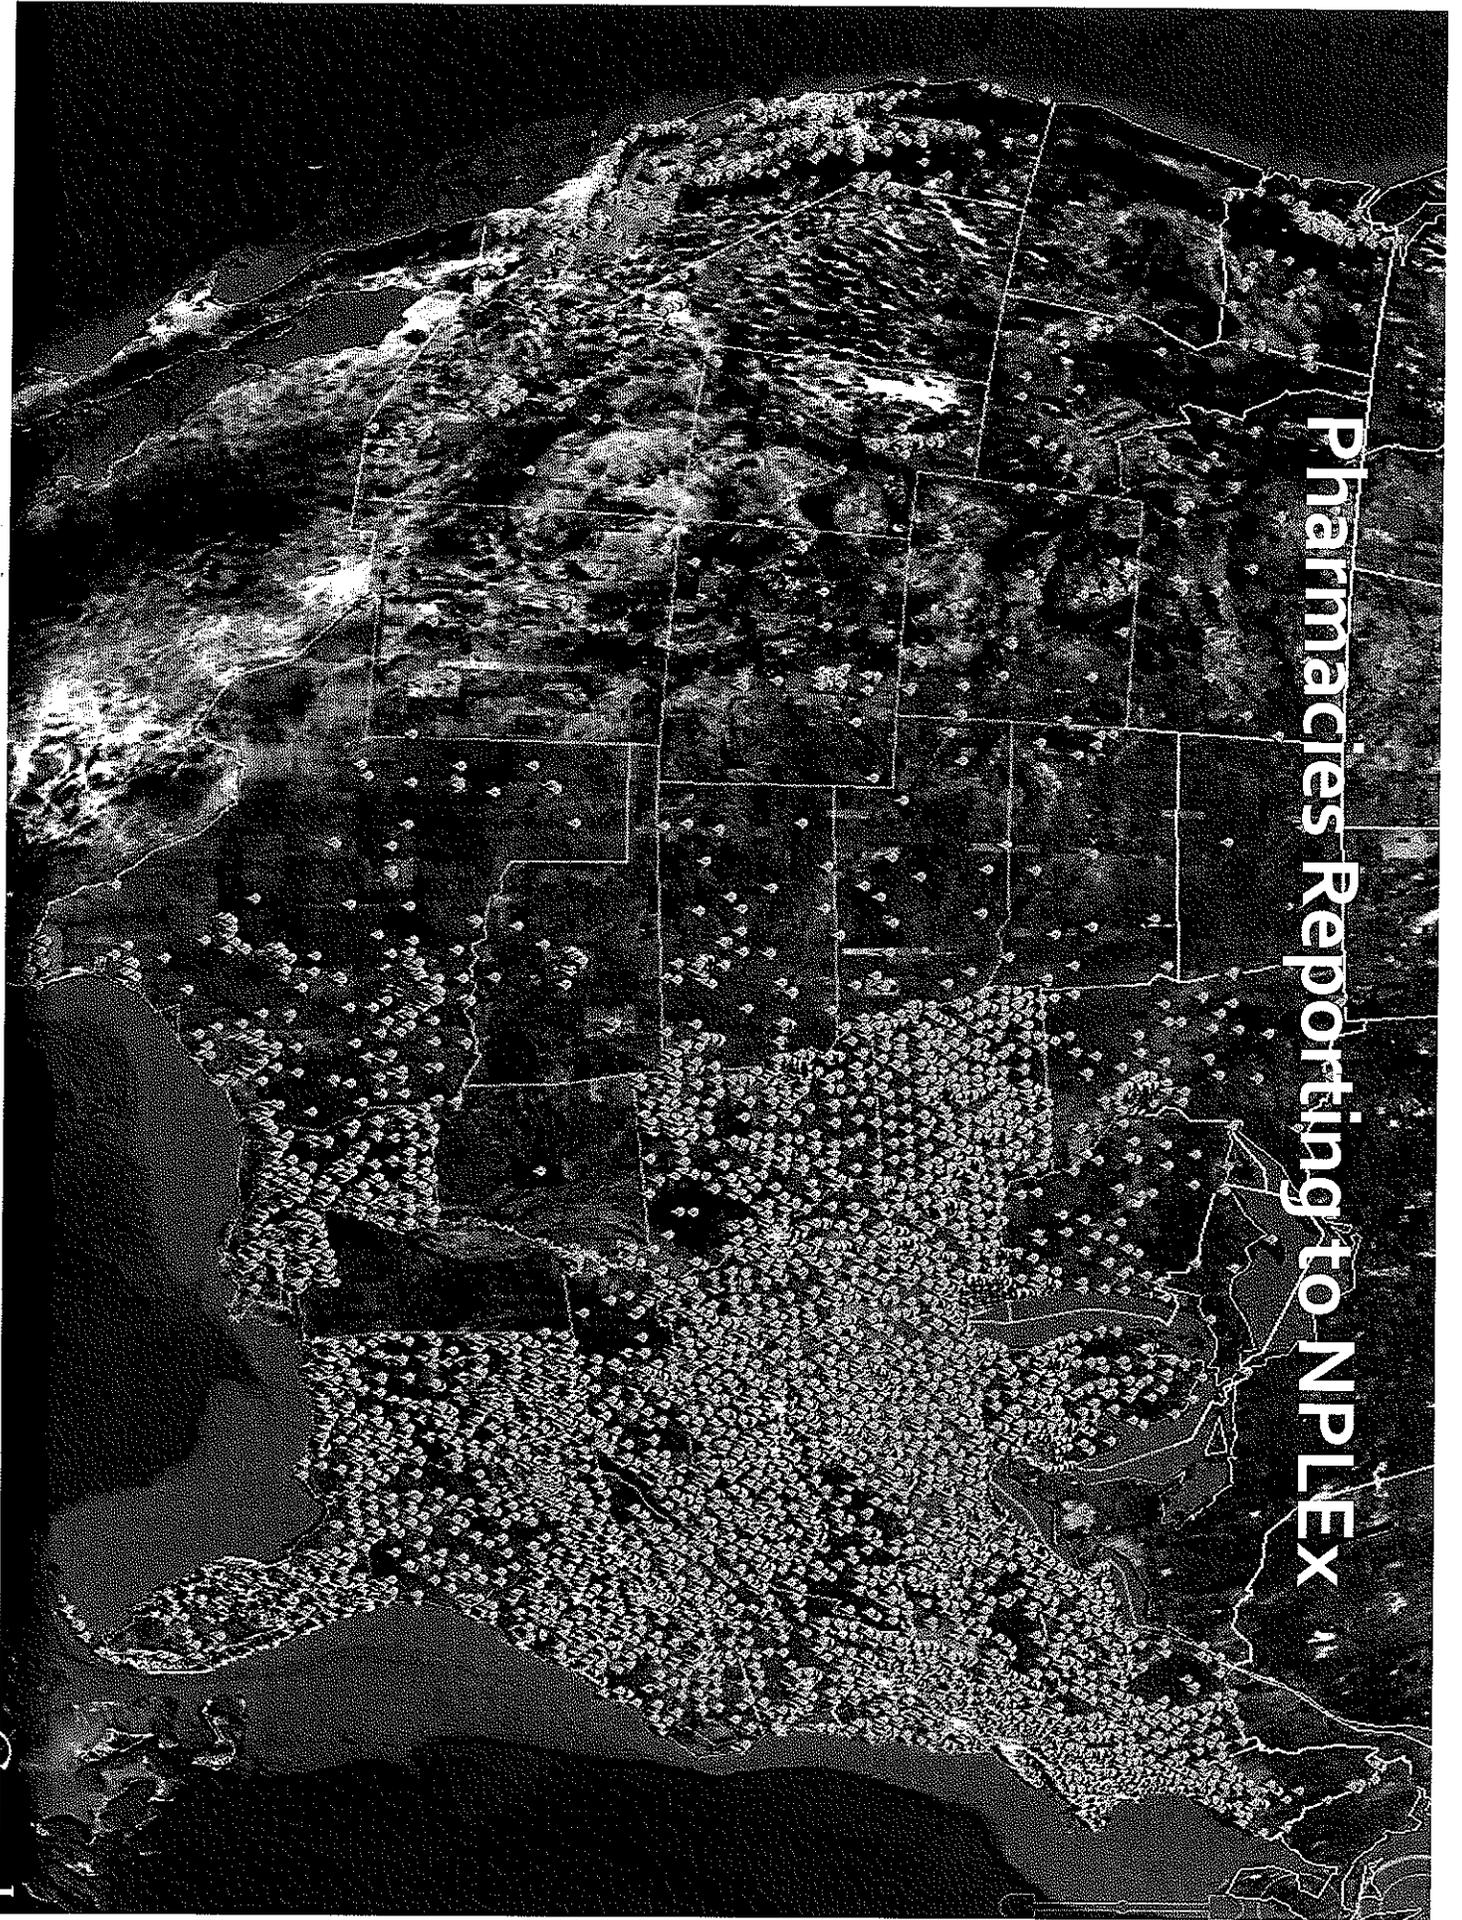

NPLEX-

Finally-an effective CMEA

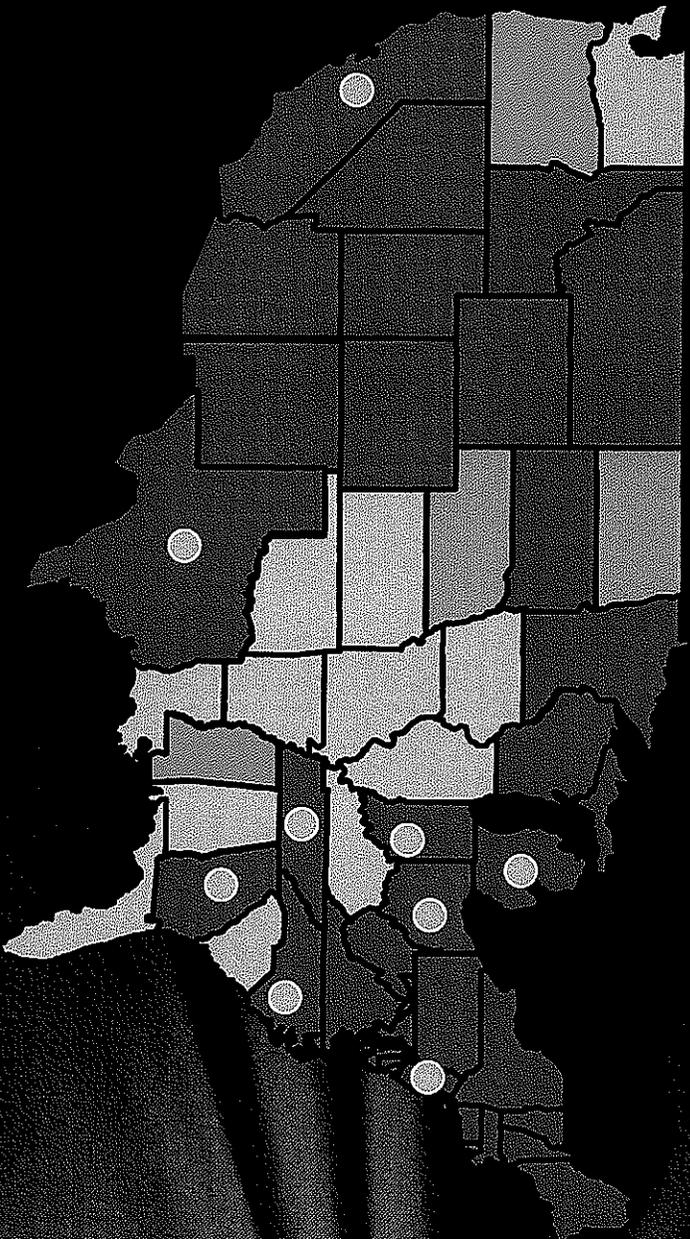

- ALL data is in one database
- Seamless interstate communication
- Seamless inter-retailer communication
- ONLY LE has comprehensive access, except for operational requirements by Appriss
- NO new data collection above existing law

Pharmacies Reporting to NPLEX

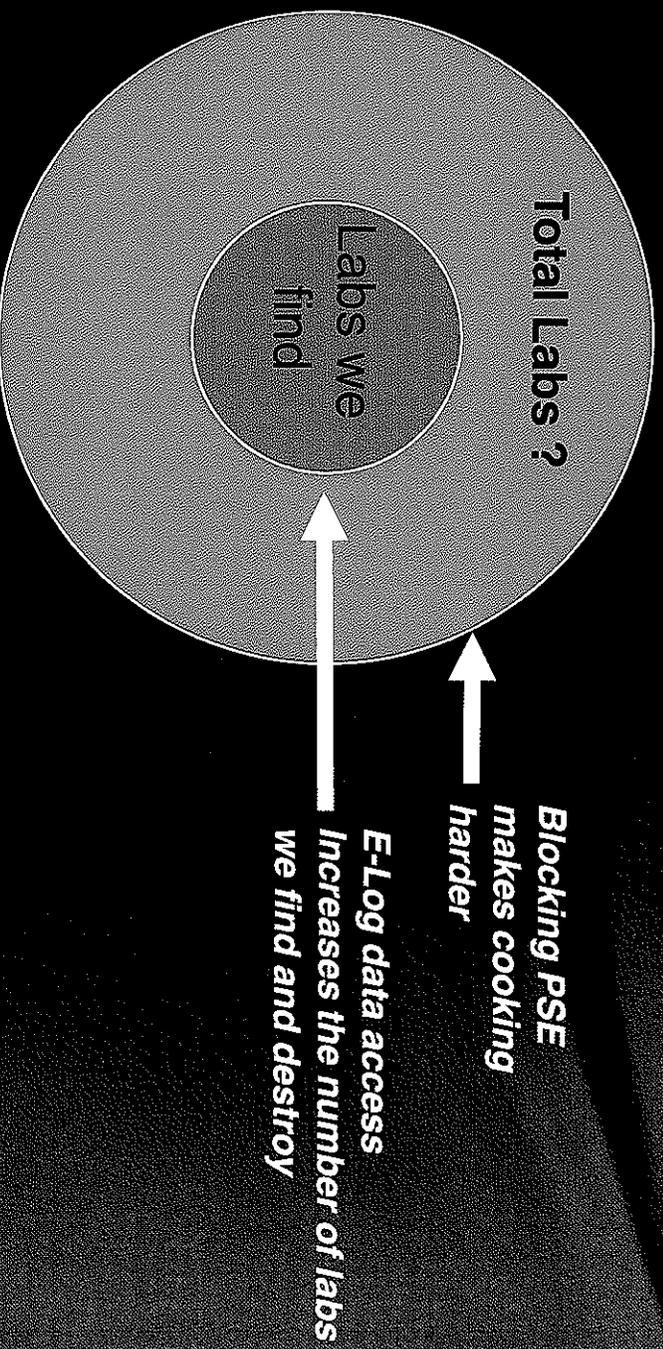

Strong state movement toward e-logging legislators and the public prefer e-tracking to prescription

- Real-time PSE tracking legislation passed
- Real-time PSE tracking legislation pending or expected
- PSE – Prescription legislation passed

2 Key benefits of real-time, block sale

1. Enforces legal limits on PSE – Prevent smurfers from exceeding the law
More than 99.8% of KY purchases are now below the legal limits
2. Gives law enforcement real-time log access
E-log data helps law enforcement locate more of the labs that exist

A purpose code can be a suspect's name or a case number.

Search Method

A Logic Search will return matches that phonetically sound alike, are spelled similarly, and have numbers that may be slightly transposed. It is an effective tool in helping locate individuals who may change the spelling of their last name or switch a couple digits of a date of birth when encountering law enforcement. An Exact Search will return only those records that match your search criteria exactly.

Fighting smurfing

- Blocking sales in real-time prevents PSE from being transformed into methamphetamine
- Law Enforcement knows who was blocked in real-time
- LE sees all purchases to look for trends and clues to smurfing groups
- Blocking offenders (convicted, parolees, pre-trial releasees, etc.) can be easily executed per state authorization
- NLETS partnership can validate IDs

Any measure must be multi-state capable

- NPLEx is seamless across state lines and chains
- NPLEx blocks sales at EVERY retailer
- LE can see data from EVERY retailer
