

September 11, 2012

To the Senate Education Committee:

As a retired educator and champion of the bill that will change the school entrance age for children in Michigan, I want to commend you for your continued positive efforts to do what is correct for children. Therefore, I encourage your support of Senate Boohar's bill 1095. Senate Bill 1095 will serve as a complement to the bill that changes the school entrance age. It will allow children who are disadvantaged to benefit from developmentally appropriate practices and insure a greater opportunity for their success throughout their lives.

Mrs. Joan Antle

Retired kindergarten and third grade teacher
