

Dear Committee Clerk Lauren Michalak,

I understand that the subject of hunting wolves in Michigan is being discussed today. I am writing to ask that the committee reject the idea. I cannot be there to voice my opinion and my senator is not on this committee so I am writing to you.

There are plenty of other animals that are legal to hunt in Michigan. Wolves are barely off the endangered species list and there is no environmental justification to add them to the list of hunt-able animals.

Thank you for relaying my concerns to the Committee.
