

MICHIGAN CHAPTER

March 21, 2014

To: Chairman Casperson and Members of the Senate Natural Resources, Environment, and Great Lakes Committee

RE: Hearing on SB 795-802

Sierra Club urges a YES vote on SB 795-802, bills that would increase penalties for criminal violations involving prohibited aquatic invasive species and would suspend hunting and fishing licenses for introducing prohibited aquatic invasive species. These bills are an important step in protecting the future of Michigan's invaluable natural resources and the Great Lakes.

The Sierra Club will include votes related to this package of bills in our Legislative Scorecard.

Sincerely,

Mike Berkowitz
Legislative and Political Director
Sierra Club Michigan Chapter
