

The Michigan Airgun Alliance supports this bill (SBo442) to provide less ambiguous language related to two separate lists of "pistol free zones" in Michigan statute, to provide an exemption to all license holders for allowing concealed carry in the aforementioned locations, and to provide for protections in the event of accidental exposure. For decades, the air gun was treated as a firearm due to confusing laws, so we are fully supporting legislation which eliminates other areas of confusion in Michigan firearm law.

Tom O'Brien
President, Michigan Airgun Alliance
