Ms. Leta Howard
Committee Clerk for the Senate Natural Resources Committee
State of Michigan

Re: MDEQ Proposed Liquid Industrial Waste Management (in Senate Bills 400-402)

Dear Ms. Howard & Senate Natural Committee Members:

On behalf of Environmental Geo-Technologies, LLC ("EGT"), EGT fully supports the subject MDEQ Proposed Liquid Industrial Waste management revisions embodied in Senate Bills 400, 401 & 402. Although we are unable to attend the Natural Resources Committee hearing on Wednesday, September 30, 2015, we still wish to offer our support for this legislation.

We, as members of the commercial hazardous & liquid industrial waste management community who are perhaps those most affected by such revisions, appreciate the opportunity that MDEQ afforded us and indeed, all the members of the regulated community (commerce, government, industry and institutions) to review and comment on the subject draft rules now embodied in Senate Bills 400, 401 & 402.

If you should have any questions or comments, please feel free to contact us.

Sincerely,

Richard J. Powals, P.E.
Vice President
