

### Third Grade Reading Bill

I have have been researching the Third grade reading bill and this is what i think about it. I Think that the third grade reading bill should pass. The third grade reading bill was made from amanda price, the bill has to also go to the Representative, the Senate, and last the Governor. I think that the bill should pass because if the kids are not getting their reading work done the kids should stay back a year and learn more about reading stuff. Another reason why I think that 3rd grade reading bill should pass is because if the kids are not getting the reading stuff done the kids in 3rd grade should stay back a year or two get better at reading stuff. They might be the smartest kid in the class.Next is that if the kid is strugglingthey should get help like summer school or reading groups . Last is that if the third grade reading passes, kids would have more friends in third grade and still have playdates with there old friends. I believe that the third grade reading should pass.
