Dear Committee Clerk,

I believe harsher penalties should be dealt. As a road biker, I've had a number of close calls. Most were from inattentive drivers, but some drivers don't think they should share the road and deliberately pass close to intimidate.

I also believe that educating the public to driver/bicyclist safety, Investing in greenways, bike lanes and other bicycle friendly infrastructure would go a long way in preventing these tragedies.

Thank You,

Jamie Pawelek
