Subject: hb 4578

please forward this e-mail to committee chair, for local gov.

hello my name is Karl Hicks i live in Inkster, I am strongly opposed to HB4578 this will only cause a patch work of gun laws across this state that no one will be able to figure out from city to city etc. the original pre emmination laws where to stop and have stopped from happening. MCL123.1102 has worked for more then 25 years, so that every one knew michigan law was the same thru out the state, one law for every one
