Subject: Senate Bills 39 & 40

To Whom It May Concern:

I have grouse and woodcock hunted in northern Michigan for years. I am extremely concerned that these bills would undermine the hunting economy that is extremely supportive to the northern local economies.

If we hunters are unable to use public hunting grounds, we will stop coming, which will cost jobs and profits for small businesses throughout the upper lower peninsula and upper peninsula. Please don't kill our fall traditions for short term gain,

Respectfully,
Geoff Bump
