Subject: Public Comment regarding sb739:

Hello my name is Brian Colfer a former member of the citizens advisory committee of the regional transit authority of southeast michigan from macomb county in Sterling Heights. I wish for this comment to be entered in to the public record. I am opposed to sb739 because we in southeast Michigan need more money for transit not less. We need more than 2 mills to get a good transit system for the region. Ceo Michael ford of the rta is making a big fat mistake by limiting the transportation milliage to 2 mills. This is unacceptable to those of us who can't drive for various reasons. To much money has been wasted on m1 street cars. We need affordable reliable and accessable transit for the region. Thank you very much.

Hello my name is Brian Colfer from Sterling Heights. I use to be on the citizens advisory committee of the regional transit authority. I'm from macomb county. I am opposed to sb739. Why is Michael Ford limiting the transportation millage to 2 mills? We need more transit not less. Those of us who cannot drive for various reasons need to get to where we need to go. All of the federal money was spent on m1 street cars which benefits noone. Only the rich will benefit. This is my public comment, and I want it submitted in to the record.
