

Representing Grand Rapids Veterans Home members & Veterans for Justice group, we would like to express our most deepest gratitude to Senators MacGreger & Obrian for taking time out to visit the Veterans home this past Saturday, and answer some of the questions that the members may have had.

In regards to the Ombudsman bill, members of the home would like a meeting set up so that their State & local representatives can speak out and explain to the members and their families, what should be expected of an independent Ombudsman for each one of the two facility's, to ensure their confidence or offer some kind of closure to all that has happened.
