The "Coalition to Protect Auto No-Fault Insurance" is proof to me that this is only a profit increasing committee.

What about my constitutional right as a low income person to pay rent in a SAFE location, buy food and medication, and have enough money left for gasoline to operate a motor vehicle and keep it in safe driving condition?

Make it VOLUNTARY and everyone will be happy (and remain in Michigan). Those who want No-Fault can keep it, those who do not want to pay \$150/mo for a 13 years old car can drop back down to national average instead of being gouged by corporations for insurance which is illegal to force other states to cover.

It is that simple to see if it is Greed, or Protection. I wasn't born yesterday and ready to look for a place in Indiana, Ohio, or Illinois.
