THE SENATE FISCAL AGENCY

The Senate Fiscal Agency is governed by a board of five members, including the majority and minority leaders of the Senate, the Chairperson of the Appropriations Committee of the Senate, and two other members of the Appropriations Committee of the Senate appointed by the Chairperson of the Appropriations Committee with the concurrence of the Majority Leader of the Senate, one from the minority party.

The purpose of the Agency, as defined by statute, is to be of service to the Senate Appropriations Committee and other members of the Senate. In accordance with this charge, the Agency strives to achieve the following objectives:

1. To provide technical, analytical, and preparatory support for all appropriations bills.
2. To provide written analyses of all Senate bills, House bills, and Administrative Rules considered by the Senate.
3. To review and evaluate proposed and existing State programs and services.
4. To provide economic and revenue analysis and forecasting.
5. To review and evaluate the impact of Federal budget decisions on the State.
6. To review and evaluate State issuance of long-term and short-term debt.
7. To review and evaluate the State's compliance with constitutional and statutory fiscal requirements.
8. To prepare special reports on fiscal issues as they arise and at the request of members of the Senate.

The Agency is located on the 8th floor of the Victor Office Center. The Agency is an equal opportunity employer.

FY 2013-14 Appropriation Bills Index 187

OVERVIEW

FY 2013-14 INITIAL APPROPRIATIONS OVERVIEW

On February 7, 2013, Governor Rick Snyder presented his fiscal year (FY) 2013-14 budget recommendation and his FY 2014-15 budget projections to the Legislature. As in 2012, the Governor's intent was to establish a biennial budget process, but an Attorney General's February 9, 2011, letter opinion stated that the Governor is allowed to propose a two-year budget and the Legislature can enact a two-year budget but the second year would be only an expression of an "intent to appropriate", not binding or legally enforceable. The appropriation bills that were ultimately passed by the Legislature included State appropriations for FY 2013-14 and language expressing legislative intent to provide FY 2014-15 appropriations that would be the same as those for FY 2013-14, with adjustments for caseload, costs, economic factors, and available revenue.

On June 4, 2013, the Legislature passed the final FY 2013-14 appropriation bills. The budget passed by the Legislature was balanced based on the consensus revenue estimates agreed to on May 15, 2013. The FY 2013-14 budget continues to use State Restricted School Aid Fund (SAF) revenue as a fund source for all three education sectors: K-12, Community Colleges, and Universities. An amount of \$197.6 million in SAF revenue was appropriated for the Community College budget and \$200.5 million was appropriated for the Higher Education budget; both of these SAF amounts are unchanged from FY 2012-13.

Similar to FY 2012-13, there were some variations from prior fiscal years in the budget process for FY 2013-14. Both the House and the Senate initiated a complete FY 2013-14 budget in their respective chambers: the House with two omnibus appropriation bills and the Senate with 16 individual departmental appropriation bills. Although the 16 individual Senate appropriation bills were reported out of conference committees, the bills were not considered by either the Senate or the House. The two House omnibus bills (one for education appropriations and one for all other State appropriations) also were reported out of conference committees and were the bills that the House and the Senate ultimately adopted. The content of the two omnibus bills was the same as the content of the 16 individual bills. The general omnibus bill and the education omnibus bill were enacted as Public Act 59 of 2013 and Public Act 60 of 2013, respectively.

On an overall basis, the initial level of FY 2013-14 Adjusted Gross¹ appropriations totals \$48.7 billion. This Adjusted Gross total includes \$48.0 billion in ongoing appropriations and \$736.1 million in one-time appropriations. [Table 1](#) outlines the totals by department for the initial ongoing Adjusted Gross appropriations of \$48.0 billion and the ongoing GF/GP appropriations of \$9.0 billion, as well as the one-time Adjusted Gross appropriations of \$736.1 million and the one-time GF/GP appropriations of \$428.8 million. [Table 2](#) provides the detail by budget area, program, and fund source, for the FY 2013-14 one-time appropriations; the table includes total Adjusted Gross appropriations, Federal, local, and private funding, as well as State Spending from State Resources² appropriations, for each program. If the \$75.0 million one-time payment to the Budget Stabilization Fund and the \$115.0 million balance remaining from the \$230.0 million one-time appropriation to the Roads and Risks Reserve Fund are included, total FY 2013-14 Adjusted Gross one-time appropriations are \$926.1 million, and all but \$20.3 million of that amount are State Spending from State Resources one-time appropriations that include \$172.0 million of State Restricted revenue and \$733.8 million of GF/GP revenue.

This Senate Fiscal Agency (SFA) report, *FY 2013-14 Appropriations Report Part II - Initial Appropriations*, is the middle SFA report in a series that includes *Part I - Governor's Recommendations* and *Part III - Year-End Appropriations*. This report provides a summary of the major issues that were part of the development of the initial appropriations for FY 2013-14.

¹ Adjusted Gross appropriations are defined as Gross appropriations less interdepartmental grants received.

² State Spending from State Resources appropriations are Adjusted Gross appropriations less Federal, Local, and Private revenue.

GUBERNATORIAL VETOES

Governor Snyder, through his constitutional line-item veto authority granted under Article V, Section 19 of the State Constitution of 1963, vetoed \$1.8 million of Adjusted Gross appropriations and \$340,000 of General Fund/General Purpose³ (GF/GP) appropriations. Table 3 provides a summary of the line-item vetoes by department. There were only two vetoes and the largest was in the Department of Transportation, where the Governor removed \$1.5 million of State Restricted transportation revenue for a high speed rail traffic control pilot project. The other veto was in the Department of Treasury's Michigan Strategic Fund, where the Governor eliminated \$340,000 GF/GP for the Detroit and Grand Rapids precollege engineering programs. Further specific departmental information on these vetoes is included in the Budget Area Detail section of this report.

FY 2013-14 INITIAL APPROPRIATIONS

The initial level of FY 2013-14 Adjusted Gross appropriations totals \$48.7 billion. This level of Adjusted Gross appropriations includes \$19.3 billion of Federal funds, \$533.5 million of local and private revenue, \$19.4 billion of State Restricted revenue, and \$9.4 billion of State General Fund/General Purpose revenue. Table 4 and Figure A summarize these appropriations by department and by fund source. Initial FY 2013-14 Adjusted Gross appropriations represent a \$1.0 billion or 2.2% increase from the year-to-date (as of July 3, 2013) level of FY 2012-13 appropriations. Initial State Spending from State Resources appropriations total \$28.8 billion, an increase of \$1.0 billion or 3.6% from the year-to-date level of FY 2012-13 appropriations. Initial GF/GP appropriations total \$9.4 billion, an increase of \$356.6 million or 4.0% from the year-to-date level of FY 2012-13 appropriations. Tables 5, 6, and 7 and Figures B, C, and D provide a department-by-department comparison of FY 2013-14 initial appropriations to FY 2012-13 year-to-date appropriations in terms of Adjusted Gross, State Spending from State Resources, and GF/GP appropriations, respectively.

³ General Fund/General Purpose appropriations are State Spending from State Resources appropriations less State Restricted revenue.

HIGHLIGHTS OF CHANGES IN STATE APPROPRIATIONS

There are various elements that comprise the \$1.0 billion of Adjusted Gross appropriation changes and the \$356.6 million of GF/GP changes, including: new programs, program increases, program eliminations and reductions, fund shifts, and economic adjustments. The \$1.0 billion of Adjusted Gross appropriation changes consist of \$100.9 million for new programs, \$1.8 billion for program funding increases, \$1.4 billion of savings due to program eliminations and funding reductions, \$187.1 million for standard economic adjustments, \$0.9 million for unclassified salary increases, \$53.2 million of savings from the removal of FY 2012-13 one-time lump sum payments to State employees, and \$345.2 million of technical adjustments to account for base funding changes such as FY 2012-13 supplemental appropriations and contingency fund transfers, certain one-time appropriations, and other technical issues. A summary of the Adjusted Gross and GF/GP appropriation changes from FY 2012-13 to FY 2013-14 is presented in [Table 8](#). [Tables 9](#) through [12](#) provide details on the appropriation changes.

¹⁾ Appropriation as of July 3, 2013.

There are a number of new programs for FY 2013-14, as well as other funding increases that are primarily attributable to caseload and cost issues in the Department of Community Health and in the School Aid budgets. [Table 9](#) summarizes FY 2013-14 Adjusted Gross and GF/GP funding for new programs by department. New programs in various departments account for \$100.9 million of Adjusted Gross and \$49.1 million of GF/GP appropriations. The largest GF/GP piece of the new programs' total is \$10.0 million for a Skilled Trades Training Program that will be administered by the Michigan Strategic Fund Agency within the Department of Treasury. The largest new program Adjusted Gross appropriation is \$19.3 million of State Restricted transportation revenue for the State takeover of the Amtrak Wolverine rail line.

In addition to new programs, there are Adjusted Gross funding increases of \$1.8 billion and GF/GP increases of \$485.3 million, which are outlined in [Table 10](#). The largest Adjusted Gross increase is \$263.0 million (\$20.2 million GF/GP) for the Community Colleges and School Aid budgets due to the Michigan Public School Employees Retirement System (MPERS) rate cap for local units that requires the State to fund the difference between the actual rate and the cap. There are several major funding increases in the Department of Community Health: \$193.0 million Adjusted Gross

(\$65.7 million GF/GP) for Medicaid base and caseload adjustments, \$112.5 million (\$37.9 million GF/GP) for actuarially sound rates for Medicaid health maintenance organizations and pre-paid inpatient health plans, and \$103.2 million (no GF/GP) for an increase in Medicaid primary care rates to Medicare. The next-largest increase is in the Department of Transportation for the Priority Roads Investment Program, which received a \$115.0 million State Restricted revenue appropriation from the Roads and Risks Reserve Fund. There is a \$100.0 million increase of State Restricted revenue for the Department of Environmental Quality's Strategic Water Quality Initiatives Fund for grants and loans, \$60.0 million in new State Restricted utility fee revenue in the Department of Human Services for the Michigan Energy Assistance Program for low-income individuals, and 2.0% operations increases for both State Universities and Community Colleges, \$21.9 million and \$5.8 million, respectively. These eight Adjusted Gross funding increases of \$974.4 million represent 53.3% of the total FY 2013-14 initial appropriation Adjusted Gross funding increases.

Table 11 outlines the programs eliminated, and those with reduced funding, in the FY 2013-14 initial appropriations. Of the total \$1.4 billion in Adjusted Gross program eliminations and reductions, \$683.7 million, or 50.0%, is due to the downward revision in the consensus caseload estimate for the Department of Human Services' food assistance program. Another \$138.5 million Adjusted Gross reduction (\$77.3 million GF/GP) reflects the removal of one-time FY 2012-13 appropriations, and there is an Adjusted Gross appropriation reduction of \$110.0 million due to the elimination of a temporary earmark of sales tax revenue for transportation spending.

In addition to the new programs, program increases, and program eliminations and reductions outlined in Tables 9, 10, and 11, there are numerous fund shifts in the FY 2013-14 budget that either increase or decrease GF/GP appropriations. These fund shifts produce a net decrease of \$36.2 million in GF/GP appropriation levels, and are listed in Table 12.

PROGRAM TRANSFERS

The initial FY 2013-14 appropriations reflect the transfer of nine programs from one department to another, and these transfers are listed in [Table 13](#). The two largest program transfers are from the Department of Licensing and Regulatory Affairs to the newly established Department of Insurance and Financial Services: \$62.3 million Adjusted Gross (no GF/GP) for financial and insurance regulation and \$15.0 million (all GF/GP) for autism coverage reimbursement.

FEE AND REVENUE CHANGES

The FY 2013-14 initial appropriations assume \$487.9 million in total fee adjustments. Of the total fee changes, \$82.6 million will be derived from new fees or fee increases, while \$5.3 million will come from the delay of seven sunsets in fee legislation that will allow certain Department of Environmental Quality fees to be maintained at their current levels. The largest numbers of fee adjustments are in the Departments of Community Health, Environmental Quality, and Natural Resources, but the largest new fee is the Department of Human Services' low-income energy assistance fund fee, which replaces a fee previously collected through a customer fee on utility bills. The FY 2013-14 initial appropriations also assume \$400.0 million in revenue from the combination of a sunset delay and a rate increase, for the Health Insurance Claims Assessment (HICA) on health insurers' paid claims. The enacted HICA fee legislation (Public Act 58 of 2013) includes only a delay in the sunset until December 31, 2017, and does not include the HICA rate increase. This will result in an FY 2013-14 shortfall of approximately \$124.0 million in the HICA funding source for the Department of Community Health. Table 14 summarizes the fee revenue assumed in the FY 2013-14 budget.

DEBT SERVICE APPROPRIATIONS

Table 15 provides a summary of recommended debt service appropriations for FY 2013-14. These include *Durant* bonds and School Bond Loan Fund bonds in K-12 School Aid; State Building Authority bonds appropriated in the Department of Technology, Management, and Budget; various transportation-related bonds in the Department of Transportation; general obligation bonds in the Department of Treasury; and new debt service costs related to the Facility for Rare Isotope Beams. Gross appropriations for debt service on these bonds total \$833.6 million for FY 2013-14. This represents a \$35.6 million (4.5%) increase from the \$798.0 million debt service appropriations in FY 2012-13. New costs result from additional bonding under the Great Lakes Initiative due to enacted changes for the Strategic Water Quality Initiative Fund, debt service to fund the community share of costs for the MSU Facility for Rare Isotope Beams, and scheduled payments based on existing bond issues.

TOBACCO SETTLEMENT APPROPRIATIONS

It is estimated that \$290.6 million will be available for the State of Michigan during FY 2013-14 as a result of the master settlement agreement between the United States tobacco industry and 46 states. Table 16 provides a summary of the revenue to be received and details of the appropriations that are supported by tobacco settlement revenue. Of the \$290.6 million in available revenue, \$66.8 million is the unreserved balance carried forward from the prior fiscal year. The reason for the large carry-forward of funds is that the State of Michigan (along with 19 other states) negotiated a settlement with cigarette manufacturers who had been withholding payments from the states. The settlement released funds that had been held in escrow for several years, and will be a one-time infusion of revenue for Michigan. From the FY 2013-14 available revenue of \$290.6 million, \$75.0 million is transferred to the 21st Century Jobs Trust Fund and \$54.0 million is used for current debt service requirements on tobacco securitization bonds issued in 2006 and 2007 that provided start-up funding for the 21st Century Jobs Trust Fund and helped balance the FY 2006-07 State budget. This results in net revenue for the Michigan Merit Award Trust Fund of \$161.7 million. The initial FY 2013-14 budget includes the appropriation of \$118.3 million of tobacco settlement funds through the Michigan Merit Award Trust Fund to five State departments. The largest appropriation is \$81.8 million for the Medicaid program in the Department of Community Health, followed by an appropriation of \$30.1 million for the Department of Human Services' Family Independence Program. If these Merit Award Trust Fund appropriations are deducted from the Merit Award Trust Fund net revenue, there is an estimated FY 2013-14 Merit Award Trust Fund year-end balance of \$43.4 million.

STATE EMPLOYEE COMPENSATION CHANGES AND EMPLOYMENT LEVELS

The FY 2013-14 initial budget includes the Civil Service Commission-approved FY 2013-14 agreement for employees who are exclusively represented by employee unions (AFSCME, MCO, MSEA, SEIU, and UAW). The Commission approved a 1.0% lump-sum payment effective October 1, 2013, for represented employees. Contracts continue to require represented employees to pay 20.0% of their health care premiums.

On December 12, 2012, the Civil Service Commission adopted a Coordinated Compensation Plan for non-exclusively represented State classified employees (NEREs) for FY 2013-14. Beginning on October 1, 2013, NEREs will receive a 1.0% general wage increase and no lump-sum payment. They also will continue to be required to pay an employee share of health insurance premiums of 20.0%.

Table 17 provides a summary of the incremental State employee cost increases for FY 2013-14, including employee salary increases of \$35.7 million. In addition, the State's portion of the cost of employee health insurance is estimated to increase by 1.2%, or \$12.6 million. The amount that needs to be contributed to the State employee retirement systems in FY 2013-14 results in significant cost increases in the FY 2013-14 budget. Retirement contribution increases will total \$120.5 million Gross and \$59.3 million GF/GP. Finally, Other Post Employment Benefits (OPEB) costs for FY 2013-14 will increase less than in FY 2012-13. Gross OPEB costs will increase by \$29.0 million, with \$14.4 million coming from the GF/GP budget, compared to FY 2012-13 when Gross and GF/GP OPEB costs increased by \$464.7 million and \$233.4 million, respectively. The total GF/GP impact for FY 2013-14 economic factors is an increase of \$96.0 million.

Table 18 and Figure E provide a summary of State classified full-time equated (FTE) positions appropriated in FY 2013-14 versus the year-to-date level of FTEs appropriated in FY 2012-13. Total appropriated FTEs in FY 2013-14 equal 52,814.5, a decrease of 775.0 or 1.4% from FY 2012-13. The large decrease in the Department of Licensing and Regulatory Affairs is due to a loss of Federal funds for 470.0 positions within the Unemployment Insurance Agency as well as the transfer of 347.0 FTEs to the new Department of Insurance and Financial Services. The FTE reduction in the Department of Corrections is due primarily to an adjustment to remove vacant unfunded positions.

STATE PAYMENTS TO LOCAL UNITS OF GOVERNMENT

Article IX, Section 30 of the State Constitution of 1963 prohibits the State from reducing the portion of State appropriations paid to local units of government below the FY 1978-79 level of 48.97%. The initial FY 2013-14 appropriations exceed this minimum constitutional requirement by \$1.8 billion. Table 19 provides a summary of the calculations used to determine the State's compliance with this constitutional requirement for FY 2012-13 and FY 2013-14. Table 20 lists State payments to local units of government that are appropriated in each State department or budget area.

PROJECTED GF/GP YEAR-END BALANCES

The FY 2012-13 projected year-end GF/GP balance of \$674.7 million is based on the May 2013 consensus estimate of GF/GP revenue and other revenue adjustments agreed upon as part of the budget process. The FY 2012-13 estimated GF/GP expenditures are based on initial appropriations, enacted supplemental appropriations, other caseload and cost adjustments, and estimated year-end funding lapses of \$40.0 million. Table 21 presents the SFA's estimate of the FY 2012-13 GF/GP year-end balance.

The FY 2013-14 projections are also based on the May 2013 consensus estimate of GF/GP revenue and other agreed-upon revenue adjustments. The FY 2013-14 estimated GF/GP expenditures are based on initial ongoing appropriations of \$9.0 billion, initial one-time appropriations of \$428.8 million, enacted supplementals of \$5.1 million, and one-time appropriations of \$75.0 million to the Budget Stabilization Fund and \$230.0 million to the Roads and Risks Reserve Fund. The Roads and Risks Reserve Fund was created to provide funds for priority road projects in the Department of Transportation and for potential budget funding risks that might arise during the fiscal year. Language in the General Government appropriation act (Sec. 211b. in Article VIII of the General Omnibus appropriation Act) creates the Fund within the State Treasury and allows for the appropriation of half of the reserve funds (\$115.0 million) for roads effective October 1, 2013, and allows any dollars remaining in the Fund on February 1, 2014, to be appropriated for roads. Table 22 outlines the SFA's estimate of a \$17.3 million FY 2013-14 year-end GF/GP balance.

SCHOOL AID BUDGET HIGHLIGHTS

The FY 2013-14 School Aid budget continues to include \$398.1 million in spending from the SAF to support community colleges and universities. The K-12 portion of the budget includes spending \$80.0 million to provide a \$30 increase in the basic foundation allowance, which will become \$8,049 per pupil, and a \$60 increase in the minimum foundation, bringing it to \$7,026. In addition, \$36.0 million is appropriated as an equity payment to ensure that minimum funding in FY 2013-14 is at least \$7,076 per pupil.

Other notable increases in the budget include: an increase of \$244.1 million to pay for capping the employer contributions to the retirement system for unfunded accrued liabilities at 20.96% applied to Michigan Public School Employees' Retirement System (MPERS) payroll; a \$65.0 million increase for Great Start Readiness Program grants; an increase of \$63.4 million in Federal grants; a \$16.4 million increase for pupil performance grants; a \$19.0 million increase in technical cost adjustments; a \$6.0 million appropriation to ensure that every district receives at least a \$5 increase in per-pupil funding compared to the prior year, when reviewing foundation allowance, equity, and MPERS offset funding (which sees a reduction for FY 2013-14); and, a \$5.0 million increase to Michigan Virtual University.

Notable decreases in the budget for schools include: a \$41.0 million elimination of money deposited to the MPERS reserve account for retirement reforms; a \$55.0 million reduction in funding to districts for the purpose of offsetting retirement costs (the MPERS offset funding mentioned above); and a \$1.3 million reduction in funding for principal educator evaluator training.

General Fund/General Purpose support of the K-12 budget decreases from \$282.4 million in FY 2012-13 to \$230.0 million in FY 2013-14, and a new fund source (the MPERS reserve account for retirement reforms) supports the FY 2013-14 budget at a level of \$156.0 million.

The State School Aid Act includes the budgets for Community Colleges and Higher Education in the statutory K-12 budget bill. Please see Public Act 60 of 2013 for details.

Tables 23 and 24 present the SAF balance sheets for FY 2012-13 and FY 2013-14, respectively. There is a projected FY 2012-13 year-end SAF balance of \$140.7 million and the projected FY 2013-14 SAF year-end balance is \$1.3 million.

ECONOMIC FORECAST AND REVENUE ESTIMATES

ECONOMIC FORECAST

The economic forecast on which the enacted fiscal year (FY) 2013-14 State budget was based is the consensus economic forecast adopted at the May 2013 Consensus Revenue Estimating Conference. Under this consensus economic forecast, the U.S. economy will grow 1.9% in 2013, 2.7% in 2014, and 2.9% in 2015. The restructuring in the motor vehicle industry, combined with an improving economy nationally, will cause both Michigan employment and Michigan personal income, adjusted for inflation, to rise in 2013, 2014, and 2015, although the employment gains will be less than those experienced during 2011 and 2012. As a result of low inflation and stable employment, inflation-adjusted personal income is expected to rise 0.7% in 2013, 2.2% in 2014, and 2.2% in 2015. The highlights of the economic outlook for both the U.S. and Michigan economies are as follows:

U.S. Economy

- Real Gross Domestic Product (GDP) will rise an estimated 1.9% in 2013, 2.7% in 2014, and 2.9% in 2015 compared with 2.2% growth in 2012 and 1.7% growth in 2011. While consumer spending and wage growth are expected to remain weak, improvements are predicted in the housing market, vehicle sales, and business investment through much of the forecast period.
- Employment is expected to grow through 2015, allowing the U.S. unemployment rate to decline from 8.1% in 2012 to 7.6% in 2013, 7.0% in 2014, and 6.4% in 2015.
- Light vehicle sales are expected to increase from 14.4 million units in 2012, to 15.3 million units in 2013, 15.6 million units in 2014, and 15.9 million units in 2015. By comparison, 16.1 million units were sold in 2007 and 10.4 million units in 2009.
- Housing starts are expected to rise from 781,000 in 2012 to 1.1 million in 2013, 1.3 million in 2014, and 1.4 million in 2015. By comparison, starts totaled 2.1 million in 2006 and 554,000 in 2009.
- Inflation, as measured by the U.S. Consumer Price Index, increased 2.1% in 2012, reflecting a mix of weak consumer demand and rising energy prices. The forecast estimates that inflation will rise 1.7% in 2013, 1.9% in 2014, and 2.1% in 2015.

Michigan Economy

- On an annual basis, employment in Michigan steadily declined between 2000 and 2010, but increased in both 2011 and 2012. After rising 1.8% during 2012, employment is expected to increase 1.3% in 2013, 1.2% in 2014, and 1.2% in 2015.
- Michigan's unemployment rate is projected to decrease from 9.1% in 2012 to 8.6% in 2013, 8.1% in 2014, and 7.7% in 2015.
- Rising employment will help increase total wage and salary payments to workers in Michigan over the forecast period. Total payments to wage and salary workers are expected to increase 3.0% during 2013, 3.1% in 2014, and 3.9% in 2015. Adjusted for inflation, wage and salary payments are projected to increase 1.3% in 2013, 1.5% in 2014, and 1.9% in 2015.
- Personal income, the total income received by individuals, will increase at an estimated rate of 2.5% in 2013, compared with a 3.5% increase in 2012. Personal income growth then is expected to grow more rapidly, rising 4.0% in 2014 and 4.2% in 2015. Adjusted for inflation, personal income is projected to increase 0.7% in 2013, 2.2% in 2014, and 2.2% in 2015.
- Inflation in Michigan, as measured by the Detroit Consumer Price Index, is expected to increase 1.7% in 2013, 1.6% in 2014, and 1.8% in 2015. In comparison, inflation rose 2.0% in 2012.

GENERAL FUND/GENERAL PURPOSE AND SCHOOL AID FUND REVENUE ESTIMATES

General Fund/General Purpose (GF/GP) and School Aid Fund (SAF) revenue from ongoing sources is expected to total \$20.9 billion in FY 2013-14, up 2.5% from the \$20.4 billion predicted to be received during FY 2012-13. The total revenue collected in a fiscal year includes two major types of revenue: 1) revenue from ongoing revenue sources, and 2) revenue from various revenue adjustments (such as tax changes and one-time sources). The projected levels of revenue from ongoing revenue sources for fiscal years 2012-13 and 2013-14 are the estimates adopted at the May 2013 Consensus Revenue Estimating Conference. Total combined GF/GP and SAF revenue is expected to increase 1.2% in FY 2013-14, while combined GF/GP and SAF ongoing revenue is expected to increase 2.5%. The estimates of total revenue, as well as a breakdown between these two types of revenue, are presented in [Table 25](#) for both the General Fund/General Purpose budget and the School Aid Fund for FY 2012-13 and FY 2013-14.

General Fund/General Purpose Revenue

- In FY 2013-14, GF/GP revenue is projected to total an estimated \$9.7 billion, representing a decrease of 0.9% or \$90.7 million from the revenue estimated for FY 2012-13, as shown in Table 25. The decrease in GF/GP revenue reflects a smaller beginning balance and one-time revenue adjustments that are partially offset by growth in ongoing revenue.
- The balance carried over from FY 2012-13 is expected to total \$674.7 million, which is down \$304.5 million from the \$979.2 million that was carried over from FY 2011-12.
- Revenue from ongoing sources during FY 2013-14 will total an estimated \$9.4 billion, which is up 2.8% or \$257.1 million from the forecasted FY 2012-13 level.
- The increase in GF/GP ongoing revenue primarily reflects the following factors:

- One-time revenue events. Net individual income tax revenue is expected to grow 18.1% in FY 2012-13, compared with 1.2% growth during FY 2013-14, even though revenue from income tax withholding is expected to rise 3.4% in both fiscal years. Fiscal Year 2012-13 revenue is expected to grow substantially as a result of higher annual and quarterly payments received during the first part of calendar year 2013. These higher annual and estimated payments reflected increased dividend income and capital gains realizations taken by taxpayers who were anticipating substantial changes in the Federal income tax for 2013 as a result of the "fiscal cliff" budget negotiations in December 2012. Some of these dividends and gains would have otherwise occurred during the forecast period and thus represent revenue that was received in FY 2012-13 instead of later years. Furthermore, no similar series of events is expected to occur over the forecast period, thus reducing the growth in income tax revenue during FY 2013-14.
- How certain revenue adjustments are shown in the tables. Legislation enacted in 2012 redirected \$110.0 million of sales tax revenue in FY 2012-13 from the General Fund to the Michigan Transportation Fund and the Aeronautics Fund. As a result, ongoing GF/GP revenue exhibits an additional \$110.0 million increase in FY 2013-14 beyond changes in revenue attributable to the economy.
- Policy changes. Income tax changes enacted during 2011 and 2012 are expected to reduce revenue by an additional \$66.6 million in FY 2013-14, further reducing the growth in individual income tax revenue. Offsetting this decline is increased revenue from insurance company taxes. Legislation enacted during 2012 changed the tax status of Blue Cross Blue Shield of Michigan. As a result, revenue from insurance company taxes is expected to be \$40.0 million higher in FY 2013-14 and \$80.0 million higher in FY 2014-15.

School Aid Fund

- Revenue going to the School Aid Fund will total an estimated \$13.8 billion in FY 2013-14, an increase of 2.3% or \$315.2 million from the SAF revenue estimate for FY 2012-13. The SAF revenue estimate is presented in [Table 25](#).
- Revenue from ongoing taxes and net lottery revenue earmarked to the SAF will total an estimated \$11.5 billion, up 2.3% (\$256.7 million) from FY 2012-13, reflecting the continued economic growth during 2013 and 2014. While the 2011 tax reform legislation, particularly the elimination of the Michigan Business Tax and its earmark of revenue to the SAF, reduced SAF revenue by approximately \$709.1 million in FY 2011-12, the transition impacts are complete and thus ongoing revenue growth more closely reflects the underlying economy. Baseline revenue (revenue excluding any changes in tax policy) generated by earmarked taxes is projected to increase 2.1% or \$254.6 million.
- In addition to the revenue from the ongoing earmarked taxes, the SAF will receive an estimated \$2.2 billion during FY 2013-14, up from \$2.0 billion in FY 2012-13. The majority of this additional revenue reflects Federal aid, which will total an estimated \$1.8 billion in FY 2013-14. Additional SAF revenue includes \$234.9 million in grants from the General Fund in FY 2013-14, down from \$282.4 million in FY 2012-13. Total SAF revenue is also affected by the FY 2012-13 budget spending down SAF revenue carried over from FY 2011-12. The beginning balance in the School Aid Fund totaled \$254.1 million in FY 2012-13, but is expected to total only \$140.7 million in FY 2013-14.

BUDGET AND ECONOMIC STABILIZATION FUND

Michigan's cyclical economy can produce significant swings in the rate of growth, or decline, in tax revenue from one year to the next. To help smooth the flow of revenue over the economic cyclical swings, Michigan created the Counter-Cyclical Budget and Economic Stabilization Fund in 1977. This Fund, more commonly referred to as the Budget Stabilization Fund (BSF), is designed to be a cash reserve to which the State adds money during good economic times and from which it withdraws money during poor economic years. Having the money available during poor economic years helps the State avoid having to cut spending and/or increase taxes, and therefore helps stabilize the State budget and the tax structure.

Two formulas, based on personal income growth and the unemployment rate, are used to indicate when economic conditions justify transfers into and out of the BSF. However, all transfers into and out of the BSF must be appropriated by the Legislature and approved by the Governor. In addition,

the Legislature and the Governor may appropriate funds into and from the BSF even if these formulas do not trigger a transfer. Historically, most of the BSF transactions have not been directly tied to the formulas, but have simply been made at the will of the Legislature and Governor.

As shown in Table 26, the BSF ended FY 2011-12 with a balance of \$364.9 million. The current budget for FY 2012-13 appropriates \$140.0 million to the BSF, although the formulas do not indicate that a payment into the Fund is required. The enacted budget for FY 2013-14 appropriates an additional \$75.0 million to the BSF although the transfer is not required by the formulas. As a result, given forecasted interest rates, the BSF is expected to end FY 2013-14 with a balance of \$588.6 million.

CONSTITUTIONAL REVENUE LIMIT

The Michigan Constitution places a limit on the amount of revenue State government may collect in any fiscal year. The limit essentially requires that total revenue, excluding Federal aid, not exceed 9.49% of personal income.

- As shown in Table 27, revenue subject to the limit has been well below the limit in recent years and revenue is expected to remain considerably below the constitutional limit in FY 2013-14.
- In FY 2008-09, revenue subject to the limit fell below the limit by the greatest margin in the history of the limit: approximately \$8.0 billion or 24.3%.
- In FY 2010-11, the gap between revenue and the limit decreased to \$5.6 billion or 17.0%, reflecting both income declines during 2009 – the base year used to compute the FY 2010-11 revenue limit – and increased revenue resulting from the improving economy.
- In FY 2011-12, the gap between revenue and the limit is estimated to have decreased to \$5.3 billion or 16.3%, reflecting the flat income level during 2010 – the base year used to compute the FY 2011-12 revenue limit – and a slight decline in revenue subject to the limit.
- In FY 2012-13, the gap between revenue and the limit is estimated to increase to \$6.4 billion or 18.9%, reflecting increased income growth during 2011 – the base year used to compute the FY 2012-13 revenue limit – and relatively flat revenue subject to the limit.
- It is estimated that the gap between revenue and the limit will increase to \$7.0 billion or 20.0% in FY 2013-14, reflecting strong income growth during 2012 – the base year used to compute the FY 2012-13 revenue limit – and modest increases in revenue subject to the limit.

Capital Outlay appropriations for departments have been included in annual departmental budgets since FY 2008-09, leaving just planning and construction authorizations for Capital Outlay appropriation bills. No FY 2013-14 appropriation for new State Building Authority-financed projects has been enacted as of this publication. The \$700 negative adjustment for FY 2013-14 reflects the one-time nature of planning and construction authorizations included in FY 2012-13. MPSERS Retiree Health Care. In FY 2012-13, the Governor recommended a \$1,733,600 appropriation from the School Aid Fund for the purpose of offsetting the increase in MPSERS retirement contributions attributable to a 0.25% increase in retiree health care costs. Distributions were to be based on the FY 2011-12 MPSERS payroll. The enacted version of the budget included the funding, but allocated the funds to community colleges on an across-the-board basis. The Governor recommended continuation of the funding, but again recommended that the funds be allocated to community colleges based on MPSERS payroll. The Senate and House concurred with the Governor. Table 2 delineates the estimated difference in allocation methods.

| 2. City of Detroit Detention Center. The budget authorizes the Michigan Department of Corrections (MDOC) to receive and spend an additional \$5.6 million in local funds paid to the State by the City of Detroit to provide for the operation of a 200-bed lock-up on the site of the former Mound Correctional Facility. Costs of operating the facility are fully covered by the city and include one-time physical plant alterations to allow the facility to accommodate this new purpose. This additional \$5.6 million brings the total full-year funding for the facility to \$8.1 million, because partial-year funding of \$2.5 million, along with the 63.1 FTEs responsible for operation of the facility, was added via a supplemental in FY 2012-13. | | | |

Ryan Correctional Facility was repurposed to create the DRC, and when the conversion occurred, the MDOC estimated that the repurposed facility would require a staff of 187.4 FTEs, but it was later determined that 196.2 FTEs would be required, which necessitated this adjustment. | | | |

<p>4. Staff Adjustment at Alger Correctional Facility Housing Unit. This item corrected an error from the FY 2012-13 budget. A housing unit at Alger Correctional Facility was converted from single- to double-bunking, increasing bed space capacity; however, the marginal operations costs such as for health care and food services associated with those 88 beds were not added to the facility line item. To correct this error, the budget includes \$506,200.</p>	<p>Gross 506,200 GF/GP 506,200</p>
<p>5. Postclosure Maintenance Costs. The budget includes additional funding for postclosure maintenance at the following facilities: Camp Ottawa, Camp Manistique, Camp Kitwen, and the Standish Correctional Facility. Postclosure maintenance tasks include maintenance of ventilation and plumbing systems, security to prevent vandalism and theft, and groundskeeping. Some closed facilities, particularly Standish Correctional Facility, have substantial useful life remaining, so the Department anticipates using the facilities again in the future.</p>	<p>Gross 634,100 GF/GP 634,100</p>
<p>6. Food Service at Maxey/Green Oaks Center. The budget reflects an increase in the interdepartmental grant (IDG) from the Department of Human Services (DHS) to the Michigan Department of Corrections for the food service that is provided by MDOC to the DHS clients and staff at the Maxey/Green Oaks center. The DHS facility does not have a kitchen, but the neighboring MDOC facility does, so the Departments have made an arrangement for MDOC to provide food service.</p>	<p>Gross 219,700 IDG 219,700 GF/GP 0</p>

G. OTHER ISSUES

<p>1. Internal Adjustments. The budget reflects a variety of internal funding adjustments, which have no overall Gross or GF/GP impact. The adjustments ensure that the spending plan for each line item will be less than or equal to the appropriated line item. The adjustments did the following:</p> <ul style="list-style-type: none"> • Adjusted facility line items by \$42,173,800; some facility budgets were reduced but most were increased, leading to a net increase. • Increased transportation funding by \$7,023,100. • Increased food service funding by \$6,289,600; after this internal adjustment was made the line item was reduced by \$6.0 million, so the overall increase beyond economic adjustments was \$289,600. • Reduced funding for health care services by \$25,600,900. • Reduced funding for prisoner Re-Entry Services by \$19,697,000. • Reduced funding for leased beds by \$9,000,100. • Reduced other items by \$1,506,900. 	<p>Gross (159,200) GF/GP (159,200)</p>

<p>3. Re-Entry FTE Adjustment. A. NEW PROGRAMS - NONE

B. PROGRAM INCREASES

1. Strategic Water Quality Initiatives Fund (SWQIF). The budget includes an additional \$97.0 million for grants and loans to municipalities for sewer upgrades and \$3.0 million for wetland mitigation banks. Revenue will come from bonds issued under the authority of Proposal 2 of 2002.	Gross Restricted GF/GP	100,000,000 100,000,000 0
2. Information Technology (IT) Upgrades. The budget includes funding for upgrading several IT components within the Department of Environmental Quality (DEQ). Specifically, changes to funding include: \$16,500 for upgrading geospatial mapping capabilities; \$51,000 for wireless infrastructure upgrades; \$39,300 for internet bandwidth expansion; and a negative \$21,500 for Microsoft Windows upgrade.	Gross IDG Federal Restricted GF/GP	85,300 2,600 18,300 59,800 4,600
3. Brownfield Redevelopment Grants. The budget includes a total of \$5.5 million for Brownfield Redevelopment Grants. The grants are funded from Clean Michigan Initiative bond funds earmarked for this purpose.	Gross Restricted GF/GP	500,000 500,000 0
4. Surface Water State Match. The budget includes additional GF/GP funding for use as State match for Federal funds. Federal funds will be drawn down at a 1:1 match rate. Total funding for Surface Water in FY 2013-14 is approximately \$17.7 million.	Gross GF/GP	200,000 200,000
5. Refined Petroleum Product Cleanup Program. The budget includes a total of \$32.3 million in Refined Petroleum Fund revenue for the cleanup of orphaned leaking underground storage tanks.	Gross Restricted GF/GP	2,500,000 2,500,000 0

C. PROGRAM ELIMINATIONS

WICKES TCE Plume Study. The budget does not include an appropriation for an engineering study of the trichloroethylene plume at the former Wickes Manufacturing site. This appropriation was included in boilerplate in the FY 2012-13 DEQ budget and was not included by the Governor, House, or Senate in their respective budgets for FY 2013-14. D. PROGRAM REDUCTIONS

<p>1. Office of Environmental Assistance. The budget reduced the Office as part of an agreement with industry groups to fund the Hazardous Waste Management Program. Gross funding for the Office for FY 2013-14 is approximately \$6.2 million.</p>	<p>FTE (4.0) Gross (500,000) Federal (150,000) Restricted (350,000) GF/GP 0</p>
<p>2. Removal of MiWaters Funding. The budget removed a \$2.0 million appropriation for the MiWaters IT system re-write. Appropriations for this purpose are no longer necessary as the project will be carried forward as a work project under the Management and Budget Act.</p>	<p>Gross (2,000,000) Restricted (2,000,000) GF/GP 0</p>

E. FUNDING SHIFTS

<p>1. Office of the Great Lakes Funding. The budget includes a \$500,000 fund shift that increases GF/GP appropriations and decreases appropriations from the Great Lakes Fund. The Fund receives revenue from a corpus balance that was intended to pay Michigan's share of the Great Lakes Compact. In recent years the company managing the Fund for the constituent states has failed to produce the returns that were originally projected. This transfer makes up the difference between the projected revenue in the Fund and the costs of maintaining the Compact.</p>	<p>Gross 0 Restricted (500,000) GF/GP 500,000</p>
<p>2. Technical Adjustments. The budget reflects some small technical funding shifts that net to zero. These changes were made to several lines and reflect available revenue.</p>	<p>Gross 0 IDG 22,500 Federal (36,500) Restricted 14,000 GF/GP 0</p>

F. PROGRAM TRANSFERS

<p>Storage Tank Programs. FY 2012-13 Year-to-Date**

G. OTHER ISSUES

<p>1. Hazardous Waste Program. The Governor's recommended budget included revenue from an anticipated increase in Hazardous Waste Program fees. The Senate and House did not include this revenue. The enacted budget includes boilerplate language that effectively combines several DEQ funds and allows them to be used interchangeably, provided statutory authority is given to do so. This will allow the DEQ to maintain the program for FY 2013-14 while a more permanent funding solution is decided upon.</p>	<p>Gross 0 Restricted 0 GF/GP 0</p>
<p>2. Wetlands Program. The budget includes \$1.0 million in ongoing GF/GP revenue and \$0.6 million in one-time revenue for the wetlands permitting program. In FY 2012-13, the GF/GP of \$1.5 million was categorized as "one-time", so while this item shows an additional \$1.0 million for the program, the ongoing appropriation, coupled with the one-time \$0.6 million appropriation, increases the program by \$100,000. The FTE associated with this item is for a new wetlands ombudsman position.</p>	<p>FTE 1.0 Gross 1,000,000 GF/GP 1,000,000</p>
<p>3. Solid Waste Surcharge Sunset Extension. The budget includes revenue from solid waste surcharge fees that bring in about \$4.3 million for the Solid Waste Program annually. These fees are set to sunset on October 1, 2013.</p>	<p>Gross 0 Restricted 0 GF/GP 0</p>
<p>4. Revenue Adjustments. The budget reflects several technical adjustments to match projected revenue with appropriations.</p>	
<p>a. Radiological Protection IDG. The budget includes additional interdepartmental grant (IDG) revenue to reflect actual receipts and expenditures by the Radiological Protection Program.</p>	<p>Gross 234,400 IDG 234,400 GF/GP 0</p>
<p>b. Great Lakes Restoration Initiative. The budget reduced Federal appropriations for this program to reflect changes to the program at the Federal level. The DEQ is no longer used as a pass-through entity for grants to local governments; these grants are now directly awarded from the U.S. Environmental Protection Agency to local units.</p>	<p>Gross (10,000,000) Federal (10,000,000) GF/GP 0</p>
<p>c. Other Overstated Revenue Sources. The budget reduced Federal and restricted spending authorization to reflect lower anticipated levels of revenue across several budget areas in the DEQ.</p>	<p>Gross (2,337,000) Federal (400,000) Restricted (1,937,000) GF/GP 0</p>

1. Hazardous Waste Program. The budget includes one-time GF/GP funding for the Hazardous Waste Program. This item was included by the Governor and Senate, but not by the House during the budget process. This funding was part of a recommendation from a user group as part of a long-term funding solution for the Program. Other components of this recommendation were not included in the FY 2013-14 DEQ budget.

| <p>1. Performance Funding. The Governor included a \$24,869,000 (2.0%) GF/GP increase for university operations and allocated funds consistent with the performance funding and tuition restraint formulas adopted in the FY 2012-13 Higher Education budget. Metrics include: weighted undergraduate completions in critical skills, research and development expenditures, six-year graduation rates, total completions, and administrative costs. The Governor maintained the prerequisites for qualifying for performance funding, including: participation in at least three reverse transfer agreements, a dual-enrollment policy that does not consider whether the credits were used toward high school graduation, and participation in the Michigan Transfer Network. The House and Senate eliminated tuition restraint as a separate allocation of funding and instead added tuition restraint as a prerequisite for receiving performance funding. The House included \$4.0 million more than the Senate did for performance funding. (The Senate moved \$2.0 million to increased Michigan Public School Employees' Retirement System (MPERS) reimbursements (Item 2. below) and \$2.0 million for Indian Tuition Waiver Reimbursements.) Consistent with FY 2012-13, the House scored Carnegie classification distributions as follows: 3 for improving, 2 for top 20%, and 1 for above the national median. The House modified the distribution formula for Carnegie classifications by weighting the distribution by the number of resident undergraduate fiscal year equated students (FYES). The Senate changed the scoring Carnegie distributions to: 3 for top 20%, 2 for above the national median, and 2 for improving, with no weighting. The Senate also included intent language stating that improving would be reduced to a score of 1 in FY 2014-15. The enacted budget includes \$21,869,000 for performance funding (\$3.0 million less than the House and \$1.0 million more than the Senate), scoring Carnegie distributions the same as the Senate (including the intent language for FY 2014-15). The distributions were weighted by all undergraduate FYES (resident and nonresident). <u>Table 1</u> lists performance funding allocations to each university. Also, the annual joint Senate/House FY 2013-14 Higher Education Appropriations Report provides a comprehensive overview of the Higher Education budget.</p> | <p>Gross</p> | <p>21,869,000</p> |

| <p>3. Tuition Incentive Program (TIP). The enacted budget increased this program by \$3.2 million GF/GP (7.3%), from \$43.8 million to \$47.0 million. The program provides an incentive to students to complete high school and go on to college by pledging to pay tuition and fees for associate degree or certificate programs, as well as up to a maximum amount of \$2,000 for junior and senior years combined at a four-year institution. Students in grades 6 through 12 who are Medicaid-eligible for 24 months within a 36-consecutive-month period can qualify for TIP. To limit growth in the cost of the program, the Governor recommended that beginning with FY 2014-15, Phase I grants to Michigan public four-year institutions be limited to 300% of the statewide average per credit hour cost of a public community college. The Governor is proposing a separate act to implement this change.</p> | <p>Gross</p> <p>GF/GP</p> | <p>3,200,000</p> <p>3,200,000</p> |
| <p>4. Children of Veterans/Officers Survivors Tuition Grants. The budget increased funding from \$1.2 million to \$1.4 million for Children of Veterans/Officers Survivors Tuition Grants. The appropriation funds two programs. Public Act 248 of 2005 repealed a program that had been established in 1935 and replaced it with tuition grants for children of Michigan veterans who either died or were permanently disabled. An undergraduate student at a Michigan two-year or four-year, public or private, institution is eligible for up to four academic years if the student maintains a 2.25 cumulative grade point average. The grants are funded from a State income tax check-off (\$100,000) and the General Fund (\$1.3 million). The annual grant maximum for a full-time student is \$2,800 and for a part-time student is \$1,400.</p> | <p>Gross</p> <p>GF/GP</p> | <p>200,000</p> <p>200,000</p> |

The House separated the appropriation into two line items, MSU AgBioResearch \$29,706,600, and MSU Extension \$25,582,100. The Conference concurred with two line items and increased funding by \$2,084,100 GF/GP (3.8%), resulting in \$30,243,900 for MSU AgBioResearch and \$26,044,800 for MSU Extension.</p> | <p>Gross</p> <p>GF/GP</p> | <p>2,084,100</p> <p>2,084,100</p> |

8. Crucial Accountability Training.	As part of the Pathways to Potential business model, the Governor recommended funding for the Child Welfare Institute to hire 10.0 FTE employees to provide "Crucial Accountability" training to as many as 7,000 staff. The training is an evidence-based program and curriculum that improves employee/client interactions.	FTEs Gross Federal GF/GP	10.0 1,234,900 839,700 395,200
9. Child Welfare Staffing.	The budget annualizes and provides funding for 497.0 FTEs out of the 577.0 FTEs that were initially budgeted in FY 2012-13 for child welfare staffing needs related to the settlement agreement with Children's Rights. The FY 2013-14 budget unrolls the Child Welfare Staffing Enhancement line item and allocates the funding and FTEs to the following positions: Child Protective Services, Direct Care Workers, Child Welfare First Line Supervisors, Education Planners, Permanency Planning Coordinators, and Child Welfare Second Line Supervisors. Funding associated with fringe benefits, travel, and information technology costs also is included.	FTEs Gross Federal GF/GP	(80.0) 20,101,300 13,877,100 6,224,200
10. Child Placing Agencies Per Diem Rate.	The House budget provided a per diem rate increase of \$3 for private child placing agencies, which is contingent on the amendment of State law to eliminate the county match for the \$3 increase. The proposal is included in the enacted budget.	Gross Federal GF/GP	5,142,400 1,357,900 3,784,500
11. Adoption Subsidy Per Diem Rate.	The Conference Committee concurred with an Executive Revision to fund the per diem rate increase of \$3 that was provided to new adoptive parents in FY 2012-13 and extend the increase to all adoptive parents. The Revision proposed nearly \$8.0 million in cuts to offset the total projected costs of \$28.0 million Gross. Cuts included vacancy savings in several staff lines, family preservation programs, Emergency Services Local Office Allocations, and contracts for runaway youths. 6. Supplemental Funding Request. The year-to-date FY 2012-13 appropriation was adjusted to include the supplemental request that was approved in Public Act 102 of 2013. The supplemental request included a reduction of \$651.3 million Gross to adjust for revised caseload projections, an increase of \$15.0 million Gross for FIP litigation payments, \$28.0 million for the adoption subsidy \$3 per diem rate increase, \$53.4 million for shortfalls due to Other Post-Employment Benefits (OPEB) and retirement charges that were higher than calculated, \$2.1 million for increased staffing costs, and \$2.1 million for Adoption Support Services. The staffing costs were offset by \$2.1 million in reductions in the Electronic Benefit Transfer, Employment Training and Support Services, and Child Welfare First Line Supervisors line items. These adjustments are effectively reversed in FY 2013-14.

A. NEW PROGRAMS

Veterans' Courts Funding. The budget includes \$500,000 for Veterans' Courts. The Governor had proposed adding \$3.0 million for the expansion of Drug, DWI/sobriety, and Veterans' Courts, but did not specify a breakdown of how the \$3.0 million would be allocated among the types of courts. In Conference, the Legislature agreed to add the \$3.0 million, but separated it into two line items, putting \$2.5 million into the existing Drug Court line item, and putting the remaining \$500,000 into a new line item specifically to provide grants to Veterans' Courts. Veterans' Courts had not previously received State funding, but several are already in existence with the support of Federal, local, and private funding sources. The grants available under this new line could both support existing Veterans' Courts and allow additional Veterans' Courts to be created.

GF/GP	500,000

B. PROGRAM INCREASES

1. Regionalization and Expansion of Drug and DWI/Sobriety Courts. The budget includes \$2.5 million in additional funding for the Drug Court line item. The Governor proposed \$3.0 million for the expansion of Drug, DWI/Sobriety, and Veterans' Courts, which the Legislature agreed to provide, but separated into two line items (designating the other \$500,000 specifically for Veterans' Courts). The funding is to be distributed via a grant process, and one of the goals will be to support regionalization by which one program can provide services across multiple jurisdictions.

Gross	2,000,000
GF/GP	2,000,000

3. State Appellate Defender Office (SADO) Staff Increase. The Governor proposed adding 1.0 FTE and \$107,200 to the State Appellate Defender Office (SADO) line item to help the office meet its statutory requirement of handling 25% of the State's criminal appellate defense cases. In FY 2011-12, the office handled only 18% of the caseload, and after the addition of \$225,000 and 3.0 FTEs, the office is expected to handle 22% of the caseload in FY 2012-13. The Senate and House did not include this additional funding in their passed bills, but during Conference they not only agreed to include the additional \$107,200 and 1.0 FTE, but doubled the addition to \$214,400 and 2.0 FTEs.

| <p>1. Savings from Eliminated Judgeships. E. FUNDING SHIFTS

<p>Court Fee Fund Adjustment. This issue was brought to the attention of the Legislature late in the budget process, so although it was not presented as a formal Revised Governor's Recommendation, it was incorporated into the Conference bill. An actuarial adjustment was made in the revenue needed for Judges' Retirement, which in turn created a shortfall in the Court Fee Fund, which was then made whole with GF/GP dollars. The bill includes an adjustment of \$1.9 million, but due to a supplemental appropriation for FY 2012-13 that included an adjustment of \$820,000, the net increase for FY 2013-14 is \$1.1 million.</p>	<p>Gross 0 Restricted (1,082,100) GF/GP 1,082,100</p>

G. OTHER ISSUES

1. Alignment of Federal and Restricted Revenue. The budget adjusted funding for several programs to more accurately reflect the actual anticipated revenue from the respective fund source as follows:

- An interdepartmental grant from the Michigan Department of State Police from the Byrne Justice Assistance Grant for drug treatment courts was reduced by \$300,000.
- Michigan Department of Transportation National Highway Traffic Safety Administration funding for Judicial Information Systems was reduced by \$572,400.
- Federal Health and Human Services Title IV-E funding for the Foster Care Review Board was reduced by \$254,000.
- Federal Department of Justice funding for the Appellate Public Defender program was increased by \$118,300.
- Justice System Fund revenue for the State Court Administrative Office was reduced by \$205,400.
- Restricted miscellaneous revenue of \$71,000 for the Judicial Institute was eliminated.

2. Creation of New Line Items for Previous Pilot Programs. The budget created new line items for the Swift-and-Sure Sanctions program and for the Mental Health Courts. The Swift-and-Sure Sanctions program was previously contained within the Drug Court line item, so the \$6.0 million in program funding was transferred into the new line. The Mental Health Courts funding was previously contained in the State Court Administrative Office line item, so \$2.1 million in funding was transferred to the new line item. In both cases, the new budget structure is a reflection of the removal of "pilot" status.

C. PROGRAM ELIMINATIONS - NONE

D. PROGRAM REDUCTIONS

1. Unemployment Insurance Agency (UIA) Administration Block Grant. The budget reduced the amount of Federal appropriations to reflect a loss of Federal funds. Funds are awarded to states based on the number of residents collecting unemployment insurance benefits, and as this number has decreased in Michigan so has the State's grant allocation.

E. FUNDING SHIFTS

1. Fee Exemptions for Veterans. The budget includes a restricted fund-to-GF/GP fund shift to reflect fee exemptions for certain occupations and corporation filing fees that were enacted at the end of the 2011-2012 legislative session. The Governor and House shifted \$3.7 million to reflect these exemptions; the Senate and ultimately the enacted budget reduced this to \$2.8 million.

Gross	132,300
GF/GP	132,300

G. OTHER ISSUES

1. Removal of FY 2012-13 Supplemental and Contingency Fund Appropriations. The budget removed funding for FY 2012-13 mid-year appropriations that were not ongoing in nature. These appropriations include \$2.0 million for right-to-work implementation, \$1.8 million for expanded unemployment fraud prevention, \$1.0 million for worker's compensation supplement payments, and a \$ 3.4 million contingency transfer for Fire Protection Grants.

Gross	(8,154,500)
Restricted	(3,354,500)
GF/GP	(4,800,000)

2. Reduction of Overstated Appropriations. The budget reduced various restricted and Federal fund sources where revenue is not expected to reach the level of current appropriations. Unused FTE authorization also was included as part of this change.

2. Wildfire Protection. The budget includes additional GF/GP revenue to support efforts of the Department of Natural Resources (DNR) to combat wildfires. The total FY 2013-14 appropriation for Wildfire Protection is \$13.0 million.

Gross	750,000
GF/GP	750,000

3. Information Technology (IT) Upgrades. The budget includes funding for upgrading several IT components within the DNR. Specifically, increased funding includes: \$17,300 for Microsoft Windows upgrade; \$78,400 for upgrading geospatial mapping capabilities; \$3,800 for wireless infrastructure upgrades; and \$55,700 for internet bandwidth expansion.

2. Reduction of Overstated Non-GF/GP Appropriations. The budget reduced interdepartmental grant, Federal, and restricted fund appropriations in several lines from several fund sources where revenue no longer supported the level of appropriations. Reductions to FTEs also were included in these changes. These changes have no real programmatic impact as the DNR can spend only revenue it actually receives and these reductions were taken from empty spending authority.

Michigan Natural Resources Trust Fund. Article IX, Section 35 of the Michigan Constitution of 1963 established the Michigan Natural Resources Trust Fund (MNRTF). The MNRTF consists of all bonuses, rentals, delayed rentals, and royalties collected or reserved by the State under provisions of leases for the extraction of nonrenewable resources from State-owned land, except such revenue accruing under leases of State-owned land acquired with money from the State or Federal Game and Fish Protection Fund or revenue accruing from land purchased with such revenue. Until the corpus of the MNRTF reached \$500.0 million, annual expenditures consisted of MNRTF interest and earnings, and 33⅓% of MNRTF revenue received by the State during the previous fiscal year. The MNRTF reached \$500.0 million in 2011, which limits future expenditures to annual interest and investment earnings. According to the Constitution, not less than 25% of the total amounts made available for expenditure from the Trust Fund from any State fiscal year must be spent for acquisition of land and rights in land and not more than 25% of the total amounts made available for expenditure from the Trust Fund from any State fiscal year may be spent for development of public recreation facilities. The MNRTF board of trustees makes recommendations for projects in December each year; therefore, recommendations for FY 2013-14 will not be included in an appropriation bill until early in 2014. The negative adjustment for FY 2013-14 reflects the elimination of appropriations for FY 2012-13 projects.

Classified employees will not receive a base wage increase in FY 2013-14 but instead will receive a 1% lump-sum payment on October 2, 2013. Non-exclusively represented employees (NERES) will receive a 1% base wage increase for FY 2013-14 but no lump-sum payment. The budget includes \$32,700 for OPEB.

K. ONE-TIME APPROPRIATIONS

While the budget itself identifies only one item (district consolidation grants of \$5.0 million) as one-time in nature, and does not identify equity payments to be built into future foundation allowances, the balance sheets identify \$193.0 million in spending from the carry-forward balance, and therefore this funding is categorized as one-time by the State Budget Office. The following items are shown as funded out of the FY 2012-13 carry-forward into FY 2013-14 and categorized as one-time:

1. **Best Practices.** This program was first funded in FY 2011-12, but is continued into FY 2013-14 at the same \$80.0 million level as in FY 2012-13. The program rewards districts for meeting various identified best practices (seven out of eight for FY 2013-14).
2. **Technology Infrastructure Grants.** This program was first funded in FY 2012-13, but is continued into FY 2013-14 at the same \$50.0 million level, providing funding so districts are prepared for the online Smarter Balanced exam beginning in FY 2014-15.
3. **Equity Payment.** This program provides up to \$50 in a one-time equity payment to ensure that minimum per-pupil funding in FY 2013-14 is at least \$7,076.
4. **Small Class Size Grants.** This program was proposed for elimination in FY 2012-13, but was retained, and then again retained for FY 2013-14 at the same \$9.0 million funding level.

A. NEW PROGRAMS

Amtrak Wolverine Rail Line. The budget includes funding for costs associated with the State's takeover of the operation and maintenance of the Wolverine rail line route between Pontiac, MI, and Chicago, IL. Due to changes in Federal regulations, the State is now required to operate and maintain all Amtrak lines of 750 miles or less in length that run through the State.

3. Governor's Infrastructure Investment Package. The Governor included \$1.2 billion in additional revenue in his Executive Recommendation for FY 2013-14 for Road and Bridge funding that would have come from his proposed Transportation Infrastructure Investment package. Because the package was not enacted at the time the budget was finalized, the enacted budget does not include this additional revenue and instead makes appropriations based on the available non-GF/GP revenue according to the February 2013 Michigan Department of Treasury revenue estimates. The total changes for Road and Bridge programs for FY 2013-14 (including portions of the one-time revenue discussed in item K. below) include: an increase of \$48.4 million for State Trunkline road and bridge programs; a decrease of \$5.4 million for local bridge funding; an increase of \$6.2 million for county road commissions; and an increase of \$3.4 million for cities and villages.
