THE SENATE FISCAL AGENCY

The Senate Fiscal Agency is governed by a board of five members, including the majority and minority leaders of the Senate, the Chairperson of the Appropriations Committee of the Senate, and two other members of the Appropriations Committee of the Senate appointed by the Chairperson of the Appropriations Committee with the concurrence of the Majority Leader of the Senate, one from the minority party.

The purpose of the Agency, as defined by statute, is to be of service to the Senate Appropriations Committee and other members of the Senate. In accordance with this charge, the Agency strives to achieve the following objectives:

1. To provide technical, analytical, and preparatory support for all appropriations bills.
2. To provide written analyses of all Senate bills, House bills, and Administrative Rules considered by the Senate.
3. To review and evaluate proposed and existing State programs and services.
4. To provide economic and revenue analysis and forecasting.
5. To review and evaluate the impact of Federal budget decisions on the State.
6. To review and evaluate State issuance of long-term and short-term debt.
7. To review and evaluate the State's compliance with constitutional and statutory fiscal requirements.
8. To prepare special reports on fiscal issues as they arise and at the request of members of the Senate.

The Agency is located on the 8th floor of the Victor Office Center. The Agency is an equal opportunity employer.

APPROPRIATIONS OVERVIEW

FY 2014-15 YEAR-END APPROPRIATIONS OVERVIEW

The budget for fiscal year (FY) 2014-15 was the fourth State budget for Governor Rick Snyder. Similarly to FY 2013-14, when the State budget was passed by the Legislature by June 4, 2013, the FY 2014-15 budget was passed by the Legislature on June 11 and 12, 2014, and signed into law by the Governor on June 24, 2014 (Education omnibus appropriations, Public Act 196 of 2014) and June 30, 2014 (General omnibus appropriations, Public Act 252 of 2014).

During FY 2014-15, the Legislature approved a proposal from the Governor that was a combination of Executive Order 2015-5 and Public Acts 5 and 6 of 2015 (negative supplemental bills), to reduce appropriations in order to keep the budget in balance. Other adjustments to the initial budget during the fiscal year included: 10 supplemental appropriation bills; appropriations conveyed through boilerplate language in the budget bills; legislative and administrative transfers of interdepartmental revenue; modifications in revenue sharing payments related to changes in sales tax revenue estimates; and the appropriation of \$187.6 million of additional Federal, Local, Private, and State Restricted funds through contingency fund transfers.

The 12 supplemental bills approved by the Legislature and signed into law by the Governor included both positive and negative appropriations, and produced a net increase from the initial budget of \$840.3 million in Adjusted Gross¹ appropriations, including an adjustment of \$952.8 million in the Department of Community Health to reflect the full-year costs for the expansion of the State's Medicaid program to cover individuals up to 133.0% of the Federal poverty level who had previously not been Medicaid-eligible.

At the close of the fiscal year, the Legislature had approved and the Governor had signed into law Adjusted Gross appropriations that totaled \$53.2 billion. This represented an increase of \$924.5 million over the initial level of Adjusted Gross appropriations enacted at the beginning of the fiscal year. Details of the initial FY 2014-15 appropriations are contained in the Senate Fiscal Agency's (SFA's) *FY 2014-15 Appropriations Report: Part II – Initial Appropriations*, published in August 2014.

Table 1 provides a summary of the final level of FY 2014-15 appropriations by source of funds. Final Adjusted Gross appropriations totaled \$53.2 billion, which included \$22.8 billion of Federal funds, \$539.1 million of Local and Private revenue, \$20.2 billion of State Restricted revenue, and \$9.7 billion of General Fund/General Purpose (GF/GP) appropriations. Federal funds supported 42.9% of the Adjusted Gross appropriations, a higher percentage than in FY 2013-14. The importance of Federal funds in the State budget has grown over time, rising from 25.2% of the Adjusted Gross appropriations in FY 1997-98 to 40.8% in FY 2013-14.

Table 2 outlines FY 2014-15 Adjusted Gross appropriations. The initial Adjusted Gross appropriations (both ongoing and one-time) totaled \$52.3 billion, supplemental appropriations added \$840.3 million, Executive Order 2015-5 reduced appropriations by \$127.7 million, appropriations of \$32.1 million were conveyed through boilerplate language in the Department of Community Health (\$32.0 million) and in the Judiciary budget (\$0.1 million), a legislative transfer involving interdepartmental grant revenue for the Civil Service Commission added \$0.5 million, changes in the sales tax revenue estimates related to revenue sharing reduced appropriations by \$7.6 million, an administrative transfer involving interdepartmental grants in the Department of Attorney General reduced that budget by \$0.7 million, and contingency fund transfers added \$187.6 million. Table 3 provides a summary of the \$840.3 million of Adjusted Gross appropriations contained in the FY 2014-15 supplemental appropriation bills.

¹ Adjusted Gross appropriations are defined as Gross appropriations less interdepartmental grants received.

Table 4 summarizes FY 2014-15 State Spending from State Resources² appropriations. The initial State Spending from State Resources appropriations (both ongoing and one-time) totaled \$30.1 billion. Positive and negative supplemental appropriations reduced State Spending by a net amount of \$102.4 million (primarily due to technical cost adjustments and fund shifts in the School Aid budget), Executive Order 2015-5 reduced appropriations by \$102.9 million, contingency fund transfers added \$6.9 million, and other revenue adjustments reduced appropriations by a net \$8.2 million. Table 5 provides a summary of the \$102.4 million of negative State Spending from State Resources appropriations contained in the FY 2014-15 supplemental bills.

Table 6 provides an overview of the FY 2014-15 GF/GP appropriations. The initial GF/GP appropriations (both ongoing and one-time) were \$10.1 billion, supplemental appropriations reduced that amount by \$291.8 million, Executive Order 2015-5 reduced appropriations by \$102.9 million, and a boilerplate provision in the Judiciary budget added \$0.1 million for judges' compensation, resulting in an FY 2014-15 year-end GF/GP total of \$9.7 billion. Table 7 provides a summary of the \$291.8 million of negative GF/GP appropriations contained in the FY 2014-15 supplemental bills.

FY 2014-15 Supplemental Appropriation Acts

Public Act 182 of 2014: The Act amended the Home Rule City Act to require the City of Detroit to establish a chief financial officer and to adopt a four-year financial plan, among other revised financial practices. Section 4t (2) appropriated \$100,000 GF/GP to the Department of Treasury to administer the provisions of the Act.

Public Act 281 of 2014: This Act, the Scientific Fish and Wildlife Conservation Act (a law initiated by petition and enacted by the Legislature), amended the Natural Resources and Environmental Protection Act to require the Natural Resources Commission to use sound scientific wildlife management principles when designating wildlife species (such as wolves) as game. Public Act 281 also appropriated \$1.0 million to the Department of Natural Resources to implement management practices for the response, prevention, control, and/or elimination of aquatic invasive species.

Public Act 282 of 2014: The Act amended the Michigan Business Tax (MBT) Act to revise calculations for various tax credits and apportionments, and resulted in estimated GF/GP revenue losses of about \$40.0 million, but also prevented the State from paying approximately \$1.1 billion in MBT refunds as a result of a Michigan Supreme Court ruling in a case involving IBM. Public Act 282 also included a \$1.0 million GF/GP appropriation to the Department of Treasury to implement the requirements of the Act concerning tax refunds.

Public Act 318 of 2014: This Act created the Sexual Assault Evidence Kit Tracking and Reporting Commission within the Domestic and Sexual Violence Prevention and Treatment Board. A \$25,000 GF/GP appropriation to the Department of Human Services was included to implement the Act. The funds would be used for operation of the Commission, including travel reimbursements for members and the procurement of materials and other supplies.

Public Act 356 of 2014: The Act included Adjusted Gross appropriations of \$43.0 million and GF/GP appropriations of \$30.0 million, primarily to reflect the costs associated with several natural disasters in the State of Michigan. There was an appropriation of \$32.5 million

² State Spending from State Resources appropriations are Adjusted Gross appropriations less Federal, Local, and Private revenue.

in the Department of State Police for disaster assistance related to flood damage in southeastern Michigan and freeze damage in the Upper Peninsula, financed by \$2.5 million from the Disaster Contingency Fund and \$30.0 million from GF/GP revenue. There also was an appropriation of \$10.5 million in the Department of Community Health for the Health Homes Program, which is intended to coordinate services for chronically ill Medicaid beneficiaries. The funding was split between Federally Qualified Health Centers and community mental health boards, financed 90.0% by Federal revenue, with local and private matching funds.

The Act also included language that: a) required State agencies to give preference in all purchases to USDA-certified biobased products; b) revised the scope of the Michigan State University bio-engineering facility project; c) clarified the Self-Insurer's Security Fund appropriation for Delphi Corporation workers' compensation claims payments; and d) removed the July 1, 2014, deadline for Priority Road Investment Program projects administered by the Department of Transportation.

Public Act 414 of 2014: This Act amended the Public Employment Relations Act to require exclusive bargaining representatives to verify expenditures attributed to collective bargaining, and excluded student athletes from the definition of "public employee". The Act included a \$100,000 GF/GP appropriation to the Michigan Employment Relations Commission within the Department of Licensing and Regulatory Affairs to offset costs related to posting calculations of expenditures related to the exclusive representation of public employees on the Commission's website.

Public Act 5 of 2015: This School Aid supplemental, along with Public Act 6 of 2015 and Executive Order 2015-5, was part of the Governor's proposal to reduce appropriations in order to keep the FY 2014-15 budget in balance. Public Act 5 reduced School Aid Adjusted Gross appropriations by \$183.4 million, to reflect technical cost reductions of \$95.9 million, budget reductions of \$89.6 million, and Michigan Public School Employees Retirement System (MPERS) rate cap cost increases of \$2.2 million. The Act included \$81.2 million of GF/GP reductions in the K-12 budget and a fund shift from GF/GP revenue to State Restricted School Aid Fund (SAF) revenue to allow \$167.1 million of GF/GP funding in the Community Colleges budget, and \$2.0 million in the Higher Education budget, to be supplanted with SAF funding. All of these reductions and fund shifts produced GF/GP budget-balancing savings of \$250.3 million.

Public Act 6 of 2015: This general departmental supplemental, along with Public Act 5 of 2015 and Executive Order 2015-5, was part of the Governor's proposal to reduce appropriations in order to keep the FY 2014-15 budget in balance. Public Act 6 included negative Adjusted Gross appropriations of \$120.2 million and negative GF/GP appropriations of \$169.4 million. The \$169.4 million total GF/GP reduction amount consisted of \$100.0 million of caseload and cost reductions in the Department of Community Health, \$93.1 million of reductions in various State departments, and \$23.7 million for cost increases in various State departments, primarily for Department of Human Services caseload costs (\$9.2 million) and May ballot proposal costs in the Department of Treasury (\$11.0 million).

Public Act 84 of 2015: This was the FY 2015-16 annual General omnibus appropriation act, which also included FY 2014-15 supplementals totaling \$1.0 billion of Adjusted Gross appropriations and \$12.7 million of GF/GP appropriations for four State departments. The largest piece of the supplemental was \$993.7 million of Federal appropriations in the newly-formed Department of Health and Human Services to reflect caseload and cost adjustments for both the standard and expanded Medicaid programs.

Public Act 85 of 2015: This was the FY 2015-16 annual Education omnibus appropriation act, which also included FY 2014-15 technical consensus cost reductions of \$13.0 million from State Restricted SAF revenue.

Public Act 86 of 2015: The Act appropriated \$100.0 million to the Department of Technology, Management, and Budget for the purchase of tax vouchers under the Michigan Early Stage Investment Act of 2003, using \$76.2 million of GF/GP revenue and \$23.8 million of Merit Award Trust Fund revenue. The Act authorized the purchase of \$50.0 million of vouchers scheduled to be tendered during FY 2014-15 and \$50.0 million of vouchers scheduled to be tendered in FY 2015-16.

Public Act 143 of 2015: This Act provided FY 2014-15 supplemental appropriations for two budget areas: \$50,000 GF/GP start-up funding for the Criminal Justice Policy Commission created within the Legislative Council, and \$7.7 million Adjusted Gross (\$6.7 million GF/GP) for payment of a legal settlement in the Department of State Police. Also included were several boilerplate language sections that re-appropriated work projects in the Departments of State and Transportation, and a revision of GED-to-School Program language in the Department of Treasury.

Executive Order Reductions

Fiscal year 2014-15 was the first year since FY 2008-09 in which a budget-reduction Executive Order was issued by the Governor and approved by the House and Senate Appropriations Committees. Executive Order 2015-5 was issued by the Governor on February 11, 2015, and approved by the House Appropriations Committee that day, and was approved by the Senate Appropriations Committee on February 12, 2015. Executive Order 2015-5 included \$127.7 million of Adjusted Gross appropriation reductions and \$102.9 million of State Spending from State Resources appropriation reductions (all from GF/GP revenue). The third column on [Tables 2, 5, and 7](#) lists the reduction amounts by budget area for Adjusted Gross, State Spending from State Resources, and GF/GP appropriations, respectively. In addition to the \$102.9 million of FY 2014-15 GF/GP budget reductions, Executive Order 2015-5 reduced \$3.5 million of State Restricted revenue from the Information, Communications, and Technology Innovation Fund, resulting in total Executive Order 2015-5 GF/GP budget reductions of \$106.4 million.

Executive Order 2015-5, in conjunction with Public Acts 5 and 6 of 2015 (described under the "FY 2014-15 Supplemental Appropriation Acts" category above) and \$6.6 million of prior-year work project lapses, produced FY 2014-15 budget-balancing savings of \$532.7 million. [Table 8](#) summarizes the FY 2014-15 GF/GP budget-balancing actions.

Transfers

The Management and Budget Act (Public Act 431 of 1984) provides for two types of transfers: administrative and legislative. Administrative transfers allow adjustments for cost and price variances, certain fund source changes, and court judgments. Administrative transfers go into effect within 30 days of the State Budget Office request unless the Senate or the House Appropriations Committee disapproves them, and these types of transfers do not change the total appropriation for a department. Legislative transfers are transfers within departments that are more substantive than the cost and price variations that are allowed under administrative transfers. There are two kinds of legislative transfers: "standard" legislative transfers and contingency fund transfers. "Standard" legislative transfers shift line-item authorization between existing line items in a department's budget to reflect changes in either expenditures or funding sources, and, similar to administrative transfers, do not change the total appropriation for the budget area.

Contingency fund transfers are authorized in the boilerplate language of individual departments' annual appropriation acts. A contingency fund transfer moves authorization from the boilerplate section of an appropriation act to the line-item section in Part 1 of the act to recognize

additional unanticipated Federal, Local, Private, or State Restricted revenue that has become available since the initial enactment of the budget. Contingency fund transfers, like supplemental appropriations, actually increase the total appropriation for a department. The boilerplate language also includes an upper limit for each fund source on the amount that may be transferred to a line item in Part 1. Table 9 outlines the FY 2014-15 contingency fund upper limits that were provided in boilerplate language for each department and fund source, and lists the amount transferred for each fund source.

During FY 2014-15, contingency fund transfers totaling \$187.6 million were approved by both the Senate and the House Appropriations Committees. These contingency fund transfers included \$175.4 million of Federal funds, \$6.9 million of State Restricted revenue, \$1.7 million of local revenue, and \$3.6 million of private revenue. Table 10 summarizes the contingency fund transfers that were approved by the Appropriations Committees for each department and fund source. As the table illustrates, Federal funding constituted 93.5% of the total contingency fund transfers. Table 10 also includes adjustments related to the alignment of interdepartmental revenue sources: an appropriation reduction of \$739,500 in the Department of Attorney General to reflect final costs for work being performed by the Department, and an appropriation increase of \$500,000 in the Department of Technology, Management, and Budget to adjust financing sources for actual civil service assessment revenue collected by the Civil Service Commission. These adjustments were technically presented as administrative and legislative transfers, not as contingency fund transfers, but the transfers included changes in interdepartmental grants that had the net effect of changing the total Adjusted Gross appropriations in the two departments.

Other Adjustments

The final year-end appropriations included funding adjustments in two State departments that were conveyed via boilerplate language: \$32.0 million in the Department of Community Health to reflect additional Federal revenue for the State's Medicaid computer system, and \$139,100 GF/GP in the Judiciary budget to cover the difference between judges' compensation costs and the amount of available Court Fee Fund revenue.

The final level of year-end appropriations also was affected by a revenue adjustment in the Department of Treasury for the State Revenue Sharing Program. There were several adjustments in revenue for this program due to changes in sales tax estimates throughout the year. The net adjustment of a negative \$7,570,900 for State Revenue Sharing resulted from actual sales tax collections' coming in below the original estimates.

State Classified Employment

Table 11 compares the number of State classified full-time equated (FTE) positions included in the initial FY 2014-15 appropriations to those in the FY 2014-15 year-end appropriations, and also provides the FY 2013-14 year-end FTE numbers for a historical perspective. During FY 2014-15, there were minimal FTE adjustments: 5.0 new FTEs in the Department of Community Health from a Federal grant to support the dual eligible (people eligible for both Medicare and Medicaid) waiver; a decrease of 20.0 FTEs in the Department of Human Services due primarily to a reduction of Partnership Accountability Training Hope (PATH) coordinators; and 2.0 new FTEs in Judiciary for the Michigan Indigent Defense Commission. Overall, there was a decrease of 13.0 FTEs from the initial appropriations to the year-end.

State Payments to Local Units of Government

Article IX, Section 30 of the State Constitution of 1963 prohibits the State from reducing the portion of State appropriations paid to local units of government below the FY 1978-79 level of 48.97%. The year-end FY 2014-15 appropriations exceeded this minimum constitutional requirement by approximately \$1.8 billion. Table 12 lists State payments to local units of government that were appropriated in each State department or budget area. Table 13 provides a summary of the calculations used to determine the State's compliance with this constitutional requirement for FY 2014-15.

Budget Stabilization Fund

Table 14 presents the recent history of the Countercyclical Budget and Economic Stabilization Fund in terms of actual transfers into and out of the Fund, interest earnings, and year-end balances. The SFA's FY 2014-15 pay-in estimate of \$111.5 million included \$94.0 million as a GF/GP appropriation to the Fund, and \$17.5 million as a reimbursement from tobacco settlement revenue related to the City of Detroit's financial issues.

Tobacco Settlement Revenue and Expenditures

Michigan receives annual revenue from the Master Settlement Agreement between the United States tobacco industry and 46 states. A significant amount of the tobacco settlement revenue received by Michigan in FY 2014-15 (\$112.5 million) was appropriated in the budget. These appropriations are made from State Restricted revenue referred to as Merit Award Trust Fund appropriations. An additional sizeable portion of the tobacco settlement revenue was transferred to the Michigan Strategic Fund for 21st Century Jobs Trust Fund grants (\$75.0 million) and for debt service payments on 2006 and 2007 bond securitizations (\$33.6 million and \$27.1 million, respectively). The FY 2014-15 State budget recorded the first \$17.5 million annual installment of a 21-year commitment to repay the Budget Stabilization Fund for the \$194.7 million it paid out as part of the Detroit bankruptcy settlement. Table 15 provides a summary of the final FY 2014-15 State revenue and expenditures from tobacco settlement funding. For FY 2014-15, the net revenue to the Merit Award Trust Fund of \$173.7 million was offset by \$112.5 million in expenditures, resulting in a year-end balance of \$61.2 million in the Fund.

Final Year-End Balances

Table 16 provides a summary of the FY 2014-15 GF/GP budget after the final accounting of revenue and expenditures. Based on the State's FY 2014-15 Comprehensive Annual Financial Report (CAFR), the FY 2014-15 GF/GP budget closed the fiscal year with a \$694.7 million balance. Pursuant to statutory requirements, the final year-end balance was carried forward into FY 2015-16. Approximately 29.0% of the final year-end balance resulted from \$201.6 million of net appropriation lapses from State departments and agencies.

Table 17 provides a summary of the FY 2014-15 School Aid Fund budget after the final accounting of revenue and expenditures. Based on the CAFR, the FY 2014-15 School Aid Fund budget closed the fiscal year with a \$190.2 million balance. Pursuant to statutory requirements, the final year-end balance was carried forward into FY 2015-16. The final year-end balance was \$265.0 million less than the beginning balance.

B. BOILERPLATE APPROPRIATIONS

Section 604. Boilerplate Section 604 of Article I, Public Act 252 of 2014 provided that revenue authorized from the Federal government in excess of the amount of appropriation for the Environmental Stewardship Program was appropriated and could be received and spent by the Department. For FY 2014-15, a total of \$390,000 in additional Federal funds was so appropriated. Of the \$390,000, \$300,000 was appropriated to the Michigan Agriculture Environmental Assurance Program to support contract extensions for four local conservation efforts in the Western Lake Erie Basin. These positions were located in Hillsdale, Lenawee, Monroe, and Washtenaw Counties. The remaining \$90,000 was appropriated for administrative costs related to restoration activities in the Sebawaing and Swartz Creek watersheds. The impact on the budget of Section 604 was to increase appropriated funding from the U.S. Environmental Protection Agency for the Department's Environmental Stewardship Division from \$305,600 to \$695,600.

Economic Development Grant. This Executive Order reduced the FY 2014-15 appropriations for the Department's Food and Agriculture Industry Growth Initiative, a competitive grant for agriculture economic development, by \$600,000 GF/GP, adjusting the appropriation for the grant program from \$3.0 million to \$2.4 million GF/GP for FY 2014-15.

1. Environmental Stewardship. This transfer provided for additional available Freshwater Fund revenue (\$140,000 Restricted) to support a cooperative agreement between the Department and Bayer CropScience. The agreement allows the Department to receive funding to support a contract with the United States Geological Survey to perform an environmental impact study of an experimental pesticide on surface or groundwater in predetermined sites around the State. The agreement will continue through calendar year 2021.

Alignment of Funding. This transfer adjusted interdepartmental grant and State restricted revenue sources of financing to align that revenue with the actual work being performed by the Attorney General's office. The transfer was consistent with memoranda of understanding between the Attorney General and various State departments. Although the changes resulted in a net zero change in the Gross appropriation, the fund shift reduced the Adjusted Gross appropriation by \$739,500.

Change From FY 2014-15 Initial Appropriation		

Capital Outlay appropriations for State departments have been included in annual departmental appropriation bills since FY 2008-09. From that time, the remaining appropriations for the Capital Outlay budget have mainly consisted of appropriations for projects financed by the State Building Authority for State agencies, universities, and community colleges.

While the Governor recommended new planning authorizations both in his initial FY 2014-15 budget recommendation, and in a supplemental recommendation for FY 2014-15 (SBO 2015-4), no capital outlay appropriation was adopted by the Legislature in FY 2014-15.

A. SUPPLEMENTAL APPROPRIATIONS

1. Public Act 356 of 2014

Michigan State University (MSU) Bio-engineering Facility Scope Change. The MSU Bio-engineering Facility received planning authorization in Public Act 329 of 2010, construction authorization in Public Act 192 of 2012, and a cost scope adjustment in Public Act 102 of 2013. As provided for in the construction authorization, the MSU Bio-engineering Facility project consisted of a new 67,505-square-foot facility focused on multidisciplinary research in bio-engineering and engineering health sciences with a total authorized cost of \$40,340,200 (State share \$30.0 million/university share \$10,340,200). Public Act 102 of 2013, at the request of MSU, increased the scope of the project by 61,045 gross square feet and \$17,359,800, with the increase funded entirely by MSU (total authorized cost \$57.7 million - State share \$30.0 million/university share \$27.7 million). The top two floors were to be unfinished space available for future build-out. MSU requested authorization to apply project savings accrued on the Bio-engineering Facility project to complete as much of the unfinished portions of the building as possible. The first priority is the third floor and atrium spaces, followed by as much fourth-floor work as current savings allow. No additional State funds were requested to support this scope change. The build-out is consistent with the initial intent of the project that will provide the capacity to accommodate planned growth in research in the area of bio-medical engineering research. MSU projected project savings in

excess of \$5.0 million based on a review of the build-out scope, bids and experience on the initial project, and expenditures. The increased scope of the project will be funded entirely by savings. The Department of Technology, Management, and Budget (DTMB) recommended the scope change (DTMB Letter 9/5/2014) and the Joint Capital Outlay Subcommittee (JCOS) approved it at its September 24, 2014, meeting. The Legislature approved the adjustment in Section 1301 of Public Act 356 of 2014.

2. Public Act 6 of 2015

Lake Superior State University Scope and Cost Adjustment. The Lake Superior State University (LSSU) School of Business Building project received planning authorization in Public Act 329 of 2010 and construction authorization in Public Act 102 of 2013. As provided for in the construction authorization, the project involves the renovation and adaptive reuse of the abandoned South Hall, which was being considered for demolition. The project involves renovation of 32,526 square feet of existing space and the addition of approximately 12,600 square feet of new space. The new building will provide general-use smart classrooms and seminar rooms; project labs for business, industry, and community collaborations; student study, breakout, and collaboration spaces; community presentation space; a café and commons area; and faculty offices. As originally authorized, the total project cost was \$12.0 million with a State share of \$9.0 million and a university share of \$3.0 million. The university requested that the total cost of the School of Business Building project be increased by \$1.5 million, to \$13.5 million, with the increase to be paid entirely from university resources. LSSU indicated that initial bids received in July 2014 came in \$2.0 million over the authorized cost. The university rebid the project in November 2014 in an attempt to bring the project back within the authorized cost; however, bids again came in \$1.5 million over the authorized cost. LSSU attributed the higher-than-anticipated bids to a changing construction climate driven by an increase in demand and competing jobs in the area. The DTMB recommended approval of the cost adjustment (DTMB Letter 1/26/2015) and the JCOS approved the change at its January 28, 2015, meeting. The Legislature included the LSSU cost increase in Section 301 of Public Act 6 of 2015.

A. SUPPLEMENTAL APPROPRIATIONS

Public Act 6 of 2015

Replacement of GF/GP with Parole and Probation Oversight Revenue. The supplemental appropriated available State Restricted parole and probation oversight fee revenue to offset a General Fund reduction to field operations. The account had a fund balance of over \$2.9 million for the previous three years. Spending a portion of the balance in FY 2014-15 allowed for GF/GP savings.

2. Electronic Monitoring Center. The Executive Order included a 5% reduction from unspent balances in FY 2013-14. The program is a computerized center in Lansing from which offenders on electronic tether are monitored. This line funded the staffing and equipment needed to provide electronic monitoring, often referred to as "tether", of prisoners, parolees, and probationers who need a high level of supervision.	Gross	(3,000,000)	
	GF/GP	(3,000,000)	
3. Prisoner Education Program. The Executive Order reduced funding as a result of a delay in the hiring of five teachers and three employment counselors. A portion of these funds was used to purchase materials and supplies for the employment counselors to determine specific employment training desired for employees. This funding also instituted specific curricula and training for requirements of the local job market.	Gross	(500,000)	
	GF/GP	(500,000)	
4. Transportation Efficiencies. The Executive Order assumed savings due to a reduction in the transportation of prisoners. The Department increased the use of telemedicine and videoconferencing between prisoners and courts.	Gross	(1,000,000)	
	GF/GP	(1,000,000)	
5. County Jail Reimbursement Lapse. The Executive Order reduced funding for the County Jail Reimbursement Program through which counties are reimbursed for housing certain felons who otherwise would have been sentenced to prison. The program originally existed only through budget act boilerplate but was established in statute by Public Act 317 of 1998. The use of county jail beds was lower than expected through the beginning of FY 2014-15.	Gross	(1,250,000)

New Custody Staff Training. 2. Legislative Transfer Request 2015-8

a. Prison Food Service. This transfer of \$1,690,000 supported increased per-meal costs and meal participation rates. Funding was available due to lower-than-anticipated worker's compensation costs. Food service costs exceeded the amount appropriated for two reasons: 1) final meal counts under the original contractor were greater than those	Gross GF/GP	0 0
---	----------------	--------

**Change From FY 2014-15
Initial Appropriation**

projected at the start of the contract, and 2) per-meal costs increased under the new contractor during the transition. The new contract included a sliding scale for per-meal costs, with a higher per-meal cost if fewer meals were served. During the July and August 2015 transition period, meal counts for the new contractor were lower because it was not in all facilities, resulting in a higher per-meal cost. Compared to payments to the original contractor, this resulted in \$765,000 of increased costs for the period of July through September.

- b. Prisoner Health Care.** This transfer of \$1,885,000 supported higher-than-anticipated vaccine costs and industry-wide price increases for pharmaceuticals. Funding was available due to lower-than-anticipated worker's compensation costs and savings resulting from an increase in prisoners qualifying for Medicaid services for inpatient procedures. The Department of Corrections saw pharmaceutical and vaccine costs increase more than expected due to an increase in cost-per-unit pricing and higher use of some drugs. The Department projected increased costs for vaccines including tetanus, pneumonia, and Hepatitis A and B. The Department also projected an increase in expenditures for antipsychotic medications and antidepressants. Clinical complexes saw increased pharmaceutical costs due to HIV treatments, which had increasing per-unit costs as new medications became available.

Public Act 6 of 2015

- Underground Storage Tank Cleanup Program.** The supplemental provided \$20.0 million from the Underground Storage Tank Cleanup Fund to address privately owned leaking underground storage tanks. The Fund and program were created by Public Act 416 of 2014. The Fund receives the first \$20.0 million of the 7/8th-cent environmental regulatory fee paid on each gallon of refined petroleum products in Michigan. The remainder of that revenue is credited to the Refined Petroleum Fund, as all of this revenue had been before the enactment of the program.
- Aquatic Nuisance Control Program.** The supplemental transferred \$900,000 from the Surface Water line item to a new Aquatic Nuisance Control Program line, reduced Federal appropriations for the program (which were no longer available) by \$118,000, and reduced Land and Water Permit Fee appropriations for the program by \$782,000. These appropriations were replaced with a \$900,000 appropriation from the newly created Aquatic Nuisance Control Fund. Revenue credited to the new Fund previously was appropriated as Land and Water Permit Fee revenue.

| <p>1. Water Pollution Control and Drinking Water Revolving Fund. Executive Order 2015-5 reduced General Fund/General Purpose (GF/GP) match for Federal drinking water dollars, which support low-interest loans to municipalities for improvements to their drinking water systems. The primary source of matching funds for this program is repayment of previous loans; however, in recent years, GF/GP revenue has been required in order to draw down all available Federal funds. In FY 2014-15, repayments were sufficient so that this reduction in GF/GP dollars did not affect the Federal match. Department of Treasury, Office of Scholarships and Grants, estimated that FY 2014-15 costs would total \$49.5 million for approximately 17,776 students. Due to prior-year carryforward funding, there was sufficient TANF support available to fund the program.

Phase I of TIP pays for tuition and mandatory fees for the first two years of college for eligible students enrolled in a credit-based associate degree or minimum one-year certificate program. Phase II provides a maximum of \$2,000 total in tuition assistance for credits earned in a four-year program at an in-State degree-granting college or university. Phase II funds must be used within 30 months of the completion of Phase I. Eligible students are those who have or have had Medicaid coverage for 24 months within a 36-consecutive month period, as identified by the Department of Health and Human Services (previously the Department of Human Services).

The initial appropriation for the Natural Resources Trust Fund was contained in Public Act 7 of 2015, which was enacted in March 2015. This was subsequent to the August 2014 publication of the FY 2014-15 Appropriations Report Part II - Initial Appropriations. Therefore, the content of the initial appropriation is discussed below.

A. INITIAL/SUPPLEMENTAL APPROPRIATIONS

Public Act 7 of 2015

Michigan Natural Resources Trust Fund. On December 3, 2014, the Michigan Natural Resources Trust Fund (MNRTF) Board adopted FY 2014-15 recommendations for acquisition and development projects pursuant to Article IX, Section 35 of the Michigan Constitution and the Natural Resources and Environmental Protection Act. The recommendations included a \$24.7 million appropriation from the MNRTF for 25 acquisition projects (\$18.2 million) and 44 development projects (\$6.5 million). Matching funds of \$9.8 million resulted in total project costs of \$34.5 million. An appropriation bill is necessary to authorize the spending recommended by the MNRTF Board. On January 20, 2015, the State Budget Director recommended a capital outlay supplemental appropriation to fund the projects as approved by the MNRTF Board. The MNRTF was capitalized through deposits of bonuses, rentals, delayed rentals, and royalties collected or reserved by the State under provisions of leases for the extraction of nonrenewable resources from State-owned land, except such revenue accruing under leases of State-owned land acquired with money from the State or Federal Game and Fish Protection Fund. Pursuant to the Michigan Constitution, annual expenditures consisted of MNRTF interest and earnings, and 33⅓% of MNRTF revenue received by the State during the previous fiscal year, until the corpus of the MNRTF reached \$500.0 million. The MNRTF reached \$500.0 million in 2011, thereby limiting subsequent annual expenditures to interest and investment earnings, and funding carried forward from

previous years. Article IX, Section 35 of the Michigan Constitution states, "Not less than 25 percent of the total amounts made available for expenditure from the trust fund from any state fiscal year shall be expended for acquisition of land and rights in land and not more than 25 percent of the total amounts made available for expenditure from the trust fund from any state fiscal year shall be expended for development of public recreation facilities." The Senate Fiscal Agency summary of Public Act 7 of 2015 (enacted House Bill 4078) provides a detailed listing of FY 2014-15 projects, including a description of the project, location, and cost.

e. **Fund Shift.** In order to assist with the elimination of the projected shortfall in the General Fund, the GF/GP grant to the School Aid budget was reduced by \$81.2 million. This amount consisted of \$1.2 million from the elimination of funding for a new online nutrition and health program (item c. above) and a further \$80.0 million reduction in the GF/GP grant to the K-12 budget. These dollars, along with the School Aid Fund savings described in items a. and b. above, were used to supplant GF/GP funding supporting community colleges (\$167.1 million) and university retiree health care (\$2.0 million).

1. **Special Education Foundations.** The supplemental enacted by Public Act (P.A.) 85 of 2015 reduced special education costs, and by year-end, actual cost data that were available showed a need for \$9.0 million of the earlier reduction to be restored. Funds were available from excess discretionary (foundation) payments, certain special education allocations, and *Durant* non-plaintiff settlement debt service.

2. **Cash Flow Borrowing Costs.** The supplement enacted by P.A. 85 eliminated cash flow borrowing costs in their entirety; however, by year-end, just under \$400,000 was needed as the interfund borrowing cost between the School Aid Fund and the General Fund. Funds were available from excess discretionary (foundation) payments, certain special education allocations, and *Durant* non-plaintiff settlement debt service.

A. SUPPLEMENTAL APPROPRIATIONS

1. Public Act 6 of 2015

Ignition Interlock Program and Proposal 1 Costs. The Act provided supplemental restricted funding of \$1.0 million for the Department's Ignition Interlock program to allow for the receipt of additional funding as a result of the phasing out of the Driver Responsibility Fees. Public Act 250 of 2014 requires \$1.0 million of the fees collected during this phase-out period to be credited to the Department of State for administrative costs associated with the Ignition Interlock program in fiscal year 2014-15. Additionally, this supplemental appropriation provided \$200,000 in GF/GP funds to the Department to cover information technology costs related to the Proposal 1 (Road Funding) election in May 2015. The Department incurred additional programming costs related to the special election that were not originally appropriated.

1. Legislative Transfer Request 2015-2

Commercial Driver License. The transfer increased the authorization from the Federal contingency fund to the Central Operations line item under the Customer Delivery Services unit. The transfer enabled the Department to receive U.S. Department of Transportation (USDOT) grant funds that were used to replace and maintain Commercial Driver License (CDL) kiosks in branch offices across the State. The initial FY 2014-15 appropriation provided \$410,000 in USDOT revenue for the maintenance of the CDL kiosks and the Department was awarded a total of \$2.0 million for FY 2014-15. This transfer allowed the receipt and expenditure of the additional \$1.6 million. Funding was available from Federal contingency revenue in accordance with Public Act 252 of 2014, Article VIII, Section 701(1).

2. Legislative Transfer Request 2015-4

Credit Card Convenience Fees. The transfer provided increased authorization from State restricted contingency funds to customer delivery services to enable the Department to receive additional credit card convenience fee revenue collected due to increased credit card use for services rendered.

Mainframe Computer Maintenance. The transfer provided \$500,000 in authorization from State Restricted contingency funds to the Information Technology Services and Projects line item to cover increased costs associated with the Secretary of State's mainframe Unisys charges. The Department of Technology, Management, and Budget (DTMB) stores and maintains the mainframe computer system (Unisys) that processes and stores all Secretary of State vehicle and driver records. The costs for this service and maintenance for FY 2014-15 (\$3.5 million) were greater than the appropriated amounts due to increased fixed costs to the DTMB to provide that service on behalf of the Secretary of State.

Administrative Transfer Requests 2015-5 and 2015-7

Worker's Compensation. These requests transferred a total of \$100,000 (\$50,000 in each transfer request) in authorization from unclassified positions to worker's compensation to cover increased costs associated with a judgment payment required in FY 2014-15. The Department had one large settlement that exceeded the funds available to pay worker's compensation claims in FY 2014-15, thus necessitating these two administrative transfers. Additional General Fund revenue was available in unclassified positions. The net change to the budget was zero.

A. SUPPLEMENTAL APPROPRIATIONS

1. Public Act 356 of 2014

Disaster Assistance. The Act provided \$30.0 million GF/GP and \$2.5 million in State Restricted funds to support State disaster assistance to local units of government and State matching funds for Federal assistance to individuals and local units of government. This appropriation included \$1.0 million GF/GP and \$2.5 million from the Disaster and Emergency Contingency Fund (reducing the Fund balance to zero) for State disaster assistance related to the deep frost emergency affecting nine counties in northern Michigan beginning in February 2014 (estimated at \$1.9 million) and the severe flooding disaster affecting eight counties in the northwestern portion of the Lower Peninsula beginning in April 2014 (estimated at \$1.5 million). The Act also provided approximately \$29.0 million GF/GP for State matching funds to secure an estimated \$110.0 million in Federal disaster assistance for individuals affected by rainfall and flash flooding that occurred in southeastern Michigan in August 2014 and emergency expenses of State agencies. Due to a Federal disaster designation for Macomb, Oakland, and Wayne Counties in September 2014, individuals within these counties were allowed to apply for Federal assistance until November 24, 2014. The State's matching obligation was 25% of individual and State agency assistance, reimbursed to the Federal government within 60 days of payment.

Section 606. Boilerplate Section 606(3) of Article XVI, Public Act 252 of 2015 provides that, "In addition to the money appropriated in part 1, the department may receive and expend money from local, private, federal, or state sources for the purpose of providing emergency management training to local or private interests and for the purpose of supporting emergency preparedness, response, recovery, and mitigation activity." The following table shows the amount of funding, totaling \$15,628,800 (\$615,000 Restricted, \$15,013,800 Federal), that was received and spent by the Department and the date when those expenditures were reported to the Legislature, as required under the section.

E. TRANSFERS

1. Legislative Transfer Request 2015-6

Disaster Assistance. The transfer allowed the shift of \$1.0 million GF/GP from Disaster Assistance, which represented an unspent portion of assistance for flooding in southeastern Michigan, to be deposited in the statutory Disaster and Emergency Contingency Fund, thereby increasing the Fund balance to \$4.0 million. Money in the Fund is available for expenditure in accordance with Section 19 of the Emergency Management Act (MCL 30.419) to provide assistance to local governments affected by unforeseen disasters and other emergencies in future years.

2. Administrative Transfer Request 2015-9

Worker's Compensation Claims. The transfer allowed for payment of worker's compensation claims that exceeded the existing appropriation. As a result of vacancy savings within Unclassified Positions (\$160,000 GF/GP) and State Program and Planning Administration (\$35,000 GF/GP) and lower-than-expected costs for Fire Investigations (\$60,000 GF/GP), \$255,000 GF/GP was shifted to Executive and Departmental Services for this purpose.

Legislative Transfer Request 2015-2

Retirement Services. The transfer increased deferred compensation revenue authorization for Office of Retirement Services expenditures related to administrative costs associated with the defined contribution system (i.e., 401(k) and 457 plans). Deferred compensation revenue is generated through fees paid from defined contribution plan participants. Various changes in retirement statutes over the past few years have resulted in both increased administrative costs and increased membership in the plans. The increased membership has increased the revenue received from member fees and thus created the need for the increased authorization to allow receipt of the additional deferred compensation revenue. Funding was available from State restricted contingency revenue in accordance with Public Act 252 of 2014, Article VIII, Section 801(2).

Civil Service Commission. The transfer adjusted financing sources for civil service assessment revenue based on actual revenue collections pursuant to PA 252 of 2014, Section 850(2).

The annual appropriations are based on estimates of actual charges based on payroll appropriations. Boilerplate language authorizes the Civil Service Commission to adjust financing sources based on actual payroll expenditures; thus, the transfer was necessary to align the budget with actual IDG and local funding sources.

Funds totaling \$2.0 million were transferred from the Office of Urban Initiatives due to unfilled positions, undistributed funds, and other program efficiencies. E. TRANSFERS

1. Administrative Transfer Request 2015-05

Payment in Lieu of Taxes. This request included a transfer of \$23,000 from the Michigan Natural Resources Trust Fund to the Game and Fish Protection Fund in the Payment in Lieu of Taxes unit. The transfer was due to reassessment of properties that are funded under the different funds and not due to changes in the value of any of the properties.

2. Legislative Transfer Request 2015-06

Special Election Costs. This request included a transfer of \$250,000 from the Personal Property Tax Reform line item to the May 2015 Special Election line item. The reimbursement amounts for the Proposal 1 special election were higher than originally estimated; the difference was offset by \$250,000 from the personal property tax payments to local units, which ended up being lower than originally estimated.

Legislative Transfer Request 2015-6

City, Village, and Township Revenue Sharing. Budget bill boilerplate provides for the transfer of any unspent funds at year end (due to local units' not meeting accountability and transparency requirements) from the line item for City, Village, and Township Revenue Sharing to the line item for Financially Distressed Cities, Villages, or Townships, where the funds are carried forward in a work project for grants to cities, villages, or townships with signs of fiscal distress. This transfer reduced the appropriation for City, Village, and Township Revenue Sharing by \$184,400 and increased funding for Financially Distressed Cities, Villages, or Townships by the same amount. Each of these programs had an ongoing line item and a one-time line item. After the transfer, the appropriations for City, Village, and Township Revenue Sharing consisted of \$242,855,600 in ongoing funds and \$5.8 million in one-time funding for a total of \$248,655,600. For Financially Distressed Cities, Villages, or Townships,

appropriations after the transfer were \$5,184,400 in ongoing funding and \$3.0 million in one-time funding for a total of \$8,184,400.

F. OTHER ADJUSTMENTS

Constitutional Revenue Sharing. Constitutional revenue sharing pays 15% of collections from the sales tax levied at a 4% rate to cities, villages, and townships on a per capita basis. Initial appropriations for constitutional revenue sharing are made based on Consensus Revenue Estimating Conference projections of sales tax revenue. Actual payments are made based on actual collections. At enactment, constitutional revenue sharing was estimated at \$758,272,400 in FY 2014-15. Actual payments totaled \$750,701,500, a decrease of \$7,570,900 from the original estimate. The final appropriations for each revenue sharing program are shown below.

A. SUPPLEMENTAL APPROPRIATIONS

1. Public Act 6 of 2015

a. Michigan Film Program. The supplemental included a reduction of \$12.0 million GF/GP to the Michigan Film and Digital Media Incentive program. Total year-end appropriations to this program were \$38.0 million.	Gross	(12,000,000)
	GF/GP	(12,000,000)
b. Entrepreneurship Eco-System. The supplemental included a reduction of \$7.8 million in 21 st Century Job Trust Fund money. This line item is funded entirely with 21 st Century Job Trust Fund revenue and the amount reduced was not replaced with any additional funds, resulting in a gross appropriations decrease. The year-end appropriations to this line item were \$17.2 million.	Gross	(7,800,000)
	Restricted	(7,800,000)

c. Business Attraction and Community Revitalization. The supplemental included a reduction of \$10.0 in GF/GP to the Business Attraction and Community Revitalization program. Part of this reduction was offset by a transfer of \$7.8 million in 21 st Century Job Trust Fund money from the Entrepreneurship eco-system line item. This resulted in a total gross appropriations reduction of \$2.2 million. The year-end appropriations to this program was \$127.8 million Gross and \$99.0 million GF/GP.	Gross	(2,200,000)
	Restricted	7,800,000

2. Public Act 143 of 2015

GED-to-School Program. The supplemental included an elimination and replacement of the GED-to-School line item, which did not affect total appropriations, but allowed the boilerplate language in section 501 to be modified. The modified language allowed \$500,000 in unspent appropriations to be carried forward into the FY 2015-16 budget as a work project. The language also added coursework requirements, and required Treasury to collect test reimbursements from individuals who take the GED test, but fail to meet the requirements for the GED.
