

**OVERVIEW OF
GOVERNOR GRANHOLM'S
FY 2006-07 BUDGET**

**Gary S. Olson, Director
SENATE FISCAL AGENCY**

February 15, 2006

Governor Granholm's FY 2006-07 Budget Overview of Recommendations

The Governor's FY 2006-07 budget recommendation contains proposed revenue increases, proposed fee increases, increases and decreases in State appropriations, assumptions concerning the amount and utilization of Federal funds, assumptions concerning the cost of funding State employee salaries and fringe benefits, and many other proposals. Included with the FY 2006-07 budget recommendation is a recommendation for supplemental appropriations for FY 2005-06.

The Governor's FY 2006-07 budget recommendation is based on the consensus revenue estimate reached on January 12, 2006. The FY 2006-07 General Fund/General Purpose (GF/GP) consensus revenue estimate is \$8.38 billion. This represents a 2.1% increase from the consensus estimate of FY 2005-06 GF/GP revenues. The FY 2006-07 School Aid Fund consensus revenue estimate is \$11.59 billion. This represents a 3.2% increase from the consensus estimate of FY 2005-06 School Aid Fund revenues.

The Governor's FY 2006-07 budget recommendation also includes recommendations for tax policy changes and fee increases that will result in increased FY 2006-07 GF/GP and School Aid Fund revenue. Tax policy changes would increase GF/GP revenue by \$88.4 million and School Aid Fund revenue by \$22.8 million. The budget includes a proposed increase in liquor license fees that would generate \$23.0 million of GF/GP revenue.

The Governor's FY 2006-07 budget recommendation contains the following levels of appropriations:

Adjusted Gross.....	\$41.9 billion
State Spending from State Resources	\$28.0 billion
General Fund/General Purpose.....	\$ 9.3 billion

Adjusted Gross appropriations represents a \$1.0 billion or 2.5% increase from FY 2005-06 year-to-date appropriations. State Spending from State Resources appropriations represent a \$487.8 million or 1.8% increase from FY 2005-06 year-to-date appropriations. GF/GP appropriations represents a \$271.3 million or 3.0% increase from FY 2005-06 year-to-date appropriations.

Major Budget Areas Appropriation Summaries

FY 2006-07 Capital Outlay Recommendations

The FY 2006-07 Governor's recommendation is highlighted by the proposed issuance of \$364.3 million in new State Building Authority (SBA) bonds for a variety of capital projects. This new debt would provide financing for capital improvement projects at State agencies, State Parks, five universities, and 14 community colleges. In addition, for the first time the Governor is recommending a new \$100.0 million Regional Economic Development Initiative to provide incentives for State and local partnerships for yet-to-be-specified economic development projects.

The recommendation includes both planning authorizations for the larger construction projects, and direct construction authorization for the State Park and smaller maintenance-type projects. Once all the bonds had been sold (once all projects were complete in the expected two to three years), it is estimated that approximately \$100.0 million in bonding authority would remain available under the statutorily authorized limit of available bond capacity, currently set at \$2.7 billion. While the FY 2006-07 budget impact is only \$2,200 (\$100 for each distinct project authorization), the anticipated annual debt service obligation once all projects had been financed, is expected to be in the order of \$35.0 million General Fund.

The table below describes the recommended projects for colleges and universities in greater detail. There is no available detail on the State Park or State agency special maintenance projects. The Regional Economic Development projects would be solicited by the Governor with the anticipation that final selection of proposals be deliberated with the Legislature prior to completion of the FY 2006-07 budget.

Community Colleges and Higher Education Recommendations

Community College Operations: The Governor's budget recommends a 2.0% across-the-board funding increase for the 28 community colleges. The FY 2006-07 recommended funding level for community college operations is \$280.6 million. This recommended funding level represents an 11.1% decline from the peak level of operational funding which occurred in FY 2001-02.

University Operations: The Governor's budget recommends a 2.0% overall funding increase for the State's public universities. This recommended funding level represents a 10.3% decline from the peak level of operations funding which occurred in FY 2001-02. The Governor's recommendation includes a 2.0% funding increase for Michigan State University, the University of Michigan-Ann Arbor, and Wayne State University. The remaining 12 public universities will receive a 1.0% across-the-board funding increase plus an additional 1.0% or \$6.1 million will be distributed through a funding formula that takes into account tuition revenue, financial aid expenditures, Pell grants awarded, and degrees completed. Utilizing this formula leads to overall operations funding increases for the 12 public universities that range from 1.6% to 3.9%.

Financial Aid: The Governor's budget proposes to eliminate the \$58.8 million of current-year funding for the Michigan Tuition Grant program that provides need-based financial aid to students at independent colleges. Of this reduction in the funding for tuition grants, \$29.5 million will be redirected to increase funding in the State Competitive Scholarship Program. This program provides need- and merit-based financial aid to students at both public and independent colleges and universities.

Michigan Leadership, Education and Development (MiLEAD): The recommendation includes \$5.0 million from the Civilian Conservation Corps Fund in the Department of Natural Resources for a new program: Michigan Leadership, Education and Development (MiLEAD). The new program would link academic learning at postsecondary institutions with conservation-based community service needs.

FY 2006-07 Department of Community Health Recommendations

Medicaid Base and Caseload Issues

The Executive budget assumes an average Medicaid caseload for FY 2006-07 of 1,539,000, up from the assumed FY 2005-06 caseload of 1,500,000. The budget also assumes that the FY 2005-06 Medicaid base is sufficient to cover anticipated expenditures. If the FY 2005-06 base is underfunded, that will mean a supplemental will be needed and it will likely mean that the Executive's FY 2006-07 base is underfunded.

Michigan First Healthcare Plan

The Executive's proposal for a health insurance plan for uninsured individuals under 200% of poverty will depend on the Federal government approving a waiver and providing about \$1.0 billion in new funding. The FY 2006-07 budget includes half-year placeholder funding of \$200.0 million.

GF/GP Savings Dependent on Further State or Federal Action

The Governor's FY 2006-07 budget recommendation includes GF/GP savings of \$93.1 million from a series of policy changes that will require statutory changes on the State and Federal levels or Federal waivers. These policy changes include:

Actuarially Sound Rates for Medicaid HMOs and CMHs: The budget includes a 5.0% rate increase for HMOs and a 2.0% rate increase for CMHs in order to meet a Federal requirement that managed care rates be actuarially sound. The Federal government will decide whether the rates and the funding included for them are sufficient to meet the requirement. While this item is not a savings per se, any Federal action to mandate more funding for rate increases would increase GF/GP costs.

Hospital Quality Assurance Assessment Program: The budget includes a proposal to increase the hospital QAAP tax by 1.0%. This additional revenue would be used to increase payments to HMOs while, at the same time, Medicaid hospital reimbursement rates would be increased. The net effect would be to increase fee for service and managed care hospital payments by almost \$320.0 million, leading to a net gain for hospitals of about \$150.0 million. The Federal government would have to approve this change and the Legislature would have to change the QAAP statute. As the budget reflects almost \$30.0 million in GF/GP savings from gainsharing, failure to obtain Federal or Legislative approval would create a hole in the budget.

Third Party Liability Collections. The Executive budget assumes savings of \$11.7 million GF/GP from increased third party liability collections. The savings would be dependent on passage of State legislation requiring insurance companies to provide information on enrollees to enable matches with the Medicaid clientele base.

Pharmaceutical Rebates. The Executive budget assumes that Congress will pass a provision allowing states to claim pharmaceutical rebates on pharmaceuticals paid for by Medicaid HMOs. This change, if enacted, is estimated to save \$43.0 million GF/GP. It should be noted that a similar provision did not make it into S-1932, the budget reduction act signed last week by President Bush.

In addition, \$8.4 million in further GF/GP savings could be obtained by transferring the costs for certain mental health drugs to HMOs and CMHs, which would increase the QAAP base. Without the ability to collect rebates on pharmaceuticals paid for by managed care organizations, the transfer of payment responsibility would increase costs and would not be feasible, so the \$8.4 million in savings is also dependent on Federal action.

FY 2006-07 Department of Human Services Recommendations

FY 2005-06 Supplemental Appropriations: The budget recommendation includes a \$32.6 million GF/GP supplemental. This supplemental appropriation provides GF/GP appropriations to replace unavailable Federal funds in the Temporary Assistance for Needy Families (TANF) program and the Social Services Block Grant program. The recommendation also provides partial-year funding for the hiring of 51 additional child protective service caseworkers.

Caseload Adjustments: The budget recommendation includes funding for estimated caseloads in a variety of programs funded in the Department.

Funding Reductions: The budget recommendation includes appropriation reductions from an effort to verify caseload eligibility, the implementation of a half-day program for day care services and the implementation of the Jobs, Education and Training (JET) pilot program to assist recipients meeting workforce requirements and skills needed toward achieving self-sufficiency.

TANF Funding Shortfall: The budget recommendation includes a \$78.0 million GF/GP funding increase to offset a reduction in Federal funds. The shortage of Federal funds results primarily from the depletion of TANF carried forward from prior fiscal years.
