<b>Program</b>	<b>Year-To-Date Gross Appropriation</b>	<b>Year-To-Date GF/GP Appropriation</b>	<b>FY 2014-15 Reduction Amount</b>
<b>1. Strategic Growth Initiative.</b> Reduce funding. The FY 2014-15 budget included \$1.0 million GF/GP in ongoing appropriations for the Department's Food and Agriculture Industry Growth Initiative and \$2.0 million in one-time GF/GP. The program's purpose is to provide grant support to the agriculture industry to assist in the removal of barriers and provide leveraging opportunities to spur economic impact. Reducing the appropriation by \$600,000 would reduce by one-fifth the number/amount of overall grants which would otherwise be available for FY 2014-15.	\$3,000,000	\$3,000,000	(\$600,000)

<b>Program</b>	<b>Year-To-Date Gross Appropriation</b>	<b>Year-To-Date GF/GP Appropriation</b>	<b>FY 2014-15 Reduction Amount</b>

<b>2. Electronic Monitoring Center.</b> 5% reduction from unspent balances in FY 2013-14. This program is a computerized center in Lansing from which offenders on electronic tether are monitored. This line funds the staffing and equipment needed to provide electronic monitoring, often referred to as "tether", of prisoners, parolees, and probationers who need a high level of supervision.	13,365,400	13,164,100	(3,000,000)
<b>3. Prisoner Education Program.</b> Reduce funding. <b>Program</b>	<b>Year-To-Date Gross Appropriation</b>	<b>Year-To-Date GF/GP Appropriation</b>	<b>FY 2014-15 Reduction Amount</b>
<b>1. Educator Evaluation and Assessment Phase-In.</b> Eliminates this reserve fund. The fund was first created in the FY 2014-15 budget and could only be used if House Bills 5223 and 5224 of the 2013-14 legislative session were passed. Those bills would have made changes to the teacher evaluation system and require additional resources to the Department. Since those bills were not passed before the end of legislative session, this fund has no ability to be used during FY 2014-15.	\$3,414,000	\$3,414,000	(\$3,414,000)
<b>2. Reduction in Child Development and Care State Match.</b> Reduce funding. Due to less-than-estimated caseloads in the Child Development and Care program in FY 2013-14, there were fewer funds spent than originally appropriated. This reduction removes the extra General Fund dollars from the baseline of the FY 2014-15 budget.	110,292,000	30,988,800	(2,400,000)

<b>Program</b>	<b>Year-To-Date Gross Appropriation</b>	<b>Year-To-Date GF/GP Appropriation</b>	<b>FY 2014-15 Reduction Amount</b>
<p><b>1. Electronic Document One-Time Funding.</b> Reduce funding. This program was part of the FY 2014-15 Governor's Recommendation and provides funding for the DEQ to use the State's contract for the digitalization of numerous paper files the DEQ is statutorily required to keep on hand, rather than file in the State Archives. Many of these documents are permits and permit applications that are requested via the FOIA process. Part of this initiative would be to post many of the commonly requested items on the DEQ website, which would save DEQ staff time in responding to the FOIA requests, as well as saving the interested parties from having to pay FOIA fees.</p>	\$2,500,000	\$2,500,000	(\$650,000)
<p><b>2. Drinking Water Revolving Fund State Match.</b> Reduce program. The DEQ receives a 5:1 match on State monies dedicated to this program which provides low-interest loans to municipalities for improvements to drinking water infrastructure. In addition to GF/GP, the DEQ also uses repayments from previous loans as matching funds. Between repayments and the \$2.25 million GF/GP that would be left in the program if this reduction were enacted, the DEQ should be able to leverage all available Federal funds for FY 2014-15.</p>	87,943,000	5,000,000	(2,750,000)

4. <b>Emergency Services Local Office Allocations.</b> This reduction is due to GF/GP funding lapses in the line item in recent years.	11,508,500	5,593,500	(559,300)
5. <b>W.J. Maxey Training School.</b> This reduction is due to GF/GP funding that has lapsed or transferred from this line to other line items in recent years. The school is one of three State-run juvenile justice facilities.	10,324,500	4,414,400	(400,000)
6. <b>Asset Test Automation.</b> This reduction would eliminate a new FY 2014-15 program that would automate the verification of assets and financial information as part of the eligibility determination process for public assistance programs, including food and cash assistance.	5,000,000	2,750,000	(2,750,000)
7. <b>Redetermined Adoption Assistance.</b> The reduction would retain \$1.0 million GF/GP for a program that allows adoptive parents to claim supplemental payments for children with special needs which were present but had not yet been identified at the time of adoption.	7,900,000	7,547,400	(6,547,400)

<b>2. Forest Recreation and Trails.</b> Reduce funding. This item would reduce GF/GP appropriations for this program by eliminating 1.0 unfilled FTE position that was added to the budget as part of a \$550,000 GF/GP increase that was included for this program in FY 2014-15. This position was never filled so the reduction would result in no changes to the current program.	6,265,700	825,100	(150,000)
<b>3. Mackinac Island State Park Operations.</b> Reduce funding. This item would reduce GF/GP appropriations for this program by eliminating 1.0 unfilled FTE position that was added to the budget as part of a \$250,000 GF/GP increase that was included for this program in FY 2014-15. Program	Year-To-Date Gross Appropriation	Year-To-Date GF/GP Appropriation	FY 2014-15 GF/GP Change
<b>1. Community Mental Health (CMH) Non-Medicaid Services.</b> The proposed supplemental includes \$20.0 million in Roads and Risks Reserve Fund revenue to increase appropriations to CMHs for non-Medicaid services.	\$97,050,400	\$97,050,400	\$0
<b>2. State Innovation Model Grant.</b> This \$20.0 million Federal grant in the Health Policy Administration line would be used to implement Michigan's State Health Care Innovation Plan, with goals including increased use of patient-centered medical homes, community capacity building, a focus on paying for value, and infrastructure support.	0	0	0
<b>3. Integrated Care for Dual Eligible Administrative Grant.</b> The proposed supplemental includes a \$7,412,000 Federal grant to support the dual eligible waiver. The dual eligible waiver allows (but does not mandate) individuals who are eligible for both Medicare and Medicaid to enroll in an integrated care organization for their services.	0	0	0
<b>4. Specialty Network Access Fee (SNAF) Adjustment.</b> The State is allowed by the Federal government to match funds provided by publicly affiliated clinics to increase Medicaid physician reimbursement to such clinics to near commercial reimbursement rates. The Federal government does not allow the use of match from clinics that are not publicly affiliated. Publicly affiliated clinics include those affiliated with the University of Michigan, Michigan State University, Wayne State University, and Hurley Hospital. The supplemental would recognize an additional \$70.3 million in Federal match earned through the SNAF program.	N/A	N/A	0
<b>5. Increase in State Psychiatric Disproportionate Share Hospital (DSH) Payment.</b> The State makes DSH payments up to the Medicare Upper Payment Limit (UPL) to State facilities that are used to leverage Federal dollars that offset GF/GP. There is greater room under the UPL in FY 2014-15 than was assumed in the enacted budget.	N/A	N/A	(15,770,600)
<b>6. Medicaid Base and Caseload Adjustment.</b> The Medicaid caseload dropped by about 90,000 cases in late 2014, leading to a reduction in costs for the Medicaid program.	12,981,795,300	2,511,318,600	(100,000,000)

<p><b>7. Medicaid Expansion (Healthy Michigan Plan) Base and Caseload Adjustment.</b> The proposed supplemental reflects a slight decline (\$10,575,200) in the cost of the behavioral health portion of Medicaid expansion, due to a revised estimate of the average cost per case for behavioral health services. The supplemental includes an increase of \$371,693,600 on the physical health side due to the caseload, which now exceeds 500,000. The net adjustment is an increase of \$360,118,400 Gross and Federal. There is no GF/GP impact as the Medicaid expansion is funded, until the end of 2016, with 100% Federal match.</p>	2,651,022,800	0	0
<p><b>8. Use Remaining Roads and Risks Reserve Fund Revenue to Offset GF/GP.</b> The supplemental would use the \$2.0 in remaining Roads and Risks Reserve revenue to offset GF/GP. The other \$20.0 million would be used to increase CMH non-Medicaid funding, as noted above.</p>	N/A	N/A	(2,000,000)
<p><b>9. Increase in Health Insurance Claims Assessment (HICA) Revenue.</b> Due to increased purchase of health insurance, HICA revenue is projected to exceed the appropriated amount.</p>	N/A	N/A	(6,474,000)
<p><b>10. Adjustment to Reflect Actual Medicaid Certified Public Expenditures (CPE).</b> The State uses the CPE process to leverage Federal funds that offset GF/GP for public entities that have uncompensated care. The total available amount of such Federal revenue is greater than anticipated and would offset an equal amount of GF/GP.</p>	N/A	N/A	(5,900,000)
<p><b>11. Use Autism Coverage Fund Revenue to Offset GF/GP.</b> The enacted budget included \$3.0 million in GF/GP to provide \$1.0 million apiece to autism centers at Eastern Michigan, Western Michigan, and Michigan State Universities. The proposed supplemental would use excess Autism Coverage Fund revenue to replace the GF/GP used for these programs. The use of Autism Coverage Fund revenue would require a statutory change.</p>	3,000,000	3,000,000	(3,000,000)
<p><b>12. Use Crime Victim Rights Fund Revenue to Offset GF/GP for Statewide Trauma System.</b> The enacted budget included \$1.3 million GF/GP to support a statewide trauma system. The proposed supplemental would use excess Crime Victim Rights Fund revenue to replace the GF/GP used for the system. The use of Crime Victim Rights Fund revenue would require a statutory change.</p>	1,300,000	1,300,000	(1,300,000)

This was funded with School Aid Fund (SAF) revenue, but unearmarked GF/GP in the School Aid budget is proposed to be reduced by \$80.0 million of the \$88.5 million reduction. This then will be used to partially fill the projected shortfall in the General Fund.
