

**GOVERNOR ENGLER'S  
FY 2002-03 BUDGET**

**SUMMARY AND ANALYSIS OF MAJOR RECOMMENDATIONS**

**Gary S. Olson, Director  
SENATE FISCAL AGENCY  
February 19, 2002**

## THE SENATE FISCAL AGENCY

The Senate Fiscal Agency is governed by a board of five members, including the majority and minority leaders of the Senate, the Chairperson of the Appropriations Committee of the Senate, and two other members of the Appropriations Committee of the Senate appointed by the Chairperson of the Appropriations Committee with the concurrence of the Majority Leader of the Senate, one from the minority party.

The purpose of the Agency, as defined by statute, is to be of service to the Senate Appropriations Committee and other members of the Senate. In accordance with this charge the Agency strives to achieve the following objectives:

1. To provide technical, analytical, and preparatory support for all appropriations bills.
2. To provide written analyses of all Senate bills, House bills and Administrative Rules considered by the Senate.
3. To review and evaluate proposed and existing State programs and services.
4. To provide economic and revenue analysis and forecasting.
5. To review and evaluate the impact of Federal budget decisions on the State.
6. To review and evaluate State issuance of long-term and short-term debt.
7. To review and evaluate the State's compliance with constitutional and statutory fiscal requirements.
8. To prepare special reports on fiscal issues as they arise and at the request of members of the Senate.

The Agency is located on the 8th floor of the Victor Office Center. The Agency is an equal opportunity employer.

# **OVERVIEW**

# OVERVIEW

Governor Engler on February 7, 2002, transmitted his fiscal year (FY) 2002-03 State Budget Message to the Legislature. The Governor's FY 2002-03 budget contains recommendations to provide for \$38.7 billion of Adjusted Gross appropriations. Included in this appropriations total are \$11.1 billion of Federal funds, \$1.3 billion of local and private funds, \$17.1 billion of State Restricted funds, and \$9.2 billion of General Fund/General Purpose (GF/GP) appropriations. [Table 1](#) and [Figure A](#) provide summaries of the overall makeup of the FY 2002-03 appropriations as recommended by the Governor.

[Tables 2-4](#) and [Figures B-D](#) provide department-by-department detail of the Governor's appropriation requests for FY 2002-03 compared with FY 2001-02 year-to-date appropriations. The tables and figures present appropriation data in terms of Adjusted Gross, State Spending from State Resources, and GF/GP appropriations. Adjusted Gross appropriations are defined as total appropriations of each department less funds transferred in from other departments. State Spending from State Resources appropriations are defined as Adjusted Gross appropriations less Federal, local, and private funds. General Fund/General Purpose appropriations are the residual unrestricted portion of the budget over which the Governor and the Legislature have the most flexibility in establishing appropriation policy. The Governor's budget proposes a 3.8% increase in Adjusted Gross appropriations, a 2.2% increase in State Spending from State Resources appropriations, and a 0.2% increase in GF/GP appropriations. These percentage increases do not take into account FY 2001-02 supplemental appropriation requests of the Governor that are included in the budget message but have not been enacted into law.

The Governor's FY 2002-03 State Budget Message is developed based on a consensus revenue estimate agreed to on January 15, 2002. These consensus revenue estimates are the basis for the appropriation and tax policy changes contained in the budget recommendations. The FY 2002-03 GF/GP consensus revenue estimate represents a \$34.1 million or 0.4% decline from the FY 2001-02 consensus revenue estimate. Excluding any beginning balances, the FY 2002-03 School Aid Fund (SAF) consensus revenue estimate provides for \$383.3 million or 3.8% revenue growth. The Governor's budget does include two proposed changes in State tax policy. The first is a proposal to raise the tax on diesel motor fuel from 15 cents to 19 cents per gallon. This proposal would generate an additional \$46.3 million for State and local transportation projects. The second change would be to impose the use tax on interstate truck fuel purchased outside the State. This proposal would generate \$3.0 million of GF/GP revenues and \$1.5 million of SAF revenues.

## **SUMMARY OF MAJOR CHANGES FOR FY 2002-03**

The Governor's FY 2002-03 budget proposal marks the 12<sup>th</sup> State budget that Governor Engler has transmitted to the Legislature. The first four budgets recommended by the Governor can be characterized by restrained growth in GF/GP appropriations to ensure that available revenues and expenditures were in balance. The next six State budgets recommended by the Governor contained inflationary-type increases in overall GF/GP appropriations coupled with the phase-in of a wide variety of State tax reductions. The FY 2002-03 budget recommendation along with the FY 2001-02 recommendation can both be characterized as budgets that have been significantly affected by the recent slowdown in the Michigan economy. This economic slowdown coupled with the continued phase-in of reductions in the rate of the State income and single business taxes, has led to very restrained budget recommendations and the use of many non-ongoing revenue sources to balance the budget.

As previously stated, the Governor's FY 2002-03 budget is built on assumptions as to the level of revenues available to support appropriations. Table 5 provides a summary of the amount of additional GF/GP revenues that will be available to support the Governor's FY 2002-03 GF/GP appropriation recommendations. Based on current law tax policy, estimated FY 2002-03 GF/GP revenues total \$8.72 billion. The Governor is recommending the use of \$511.9 million of non-ongoing GF/GP revenue adjustments that will result in total GF/GP revenues of \$9.24 billion. These non-ongoing revenue adjustments include: a \$100.0 million transfer from the Merit Award Trust Fund; \$3.0 million from the proposed diesel fuel use tax; \$122.4 million from a freeze in revenue sharing payments to cities, villages, townships and counties; \$207.0 million from the Budget Stabilization Fund; and \$79.5 million from the Employment Security Contingent Fund. Comparing the \$9.24 billion of FY 2002-03 GF/GP revenues with enacted and proposed FY 2001-02 GF/GP appropriations leads to a \$53.8 million reduction. Therefore, the Governor's FY 2002-03 GF/GP appropriations recommendations will be slightly lower than the current fiscal year.

Table 6 provides a summary of the Governor's major recommendations to deal with restrained FY 2002-03 GF/GP budget. Major program increases recommended by the Governor include caseload-related increases in the Medicaid and Family Independence Agency budgets, increases in State Building Authority debt service payments, and funding for general economic adjustments. Recommended major reductions in GF/GP appropriations include savings from a proposed early retirement plan for State employees, reductions in debt service requirements on State General Obligation bonds, and a large transfer from the Medicaid Benefits Trust Fund to the Medicaid program to offset rising expenditure costs.

The Governor's FY 2001-02 budget contains assumptions concerning Federal funds, recommendations for expanded programs, program reductions, and recommendations for FY 2001-02 supplemental appropriations. The following information provides a summary of the major highlights of these recommendations. More detailed discussions of these recommendations for each individual department are contained in the body of this report.

**FY 2000-01 Supplemental Appropriations.** The Governor's FY 2002-03 budget recommendation contains FY 2001-02 recommendations for supplemental appropriations that will have an impact on the projected FY 2001-02 GF/GP year-end balance.

The Governor has transmitted to the Legislature FY 2001-02 supplemental appropriation recommendations of \$374.4 of Gross appropriations and \$24.3 million of GF/GP appropriations. These recommended supplemental appropriations, which have yet to be acted on by the Legislature, are summarized in Table 7. The largest GF/GP dollar issue addressed in the supplemental appropriations is a \$21.8 million recommendation to address caseload increases in the State Medicaid program. A \$20.0 million GF/GP recommendation would provide funding in the Family Independence Agency for caseload increases in the Family Independence Program. Other supplemental appropriation requests include Federal funding for the replacement of three armories, the appropriation for a proposed airport safety program, additional restricted funds for the county jail reimbursement program, restricted funding for environmental cleanup programs, restricted funding for the timber harvest program, restricted funding for secondary road patrol grants, and restricted funding for transportation projects. The Governor's recommendation also contains two appropriation reductions related to projected savings in State debt service requirements from the recent fall in interest rates and delays in State Building Authority construction projects. Debt service appropriations financed with GF/GP appropriations for State Building Authority bonds are reduced by \$9.2 million and debt service appropriations for the School Bond Loan Fund are reduced by \$9.0 million.

Comparing the revised FY 2001-02 GF/GP consensus revenue estimate with the enacted and recommended level of FY 2001-02 GF/GP appropriations leads to a projected GF/GP year-end balance of \$12.4 million. This estimate is summarized in Table 8. Pursuant to current statutory requirements the actual level of the FY 2001-02 GF/GP balance will carry forward into FY 2002-03. The Governor's budget includes a recommendation instead to deposit the year-end balance into the Budget Stabilization Fund.

The Governor's budget recommendation includes one proposed change in the enacted FY 2001-02 School Aid Fund budget. Current statutory requirements provide for a withdrawal from the Budget Stabilization Fund in an amount necessary to end the fiscal year with a zero balance. The Senate Fiscal Agency estimates that this amount is \$71.7 million. The Governor's budget recommends an additional withdrawal from the Budget Stabilization Fund to the School Aid Fund in an amount of \$278.3 million. This withdrawal, if enacted, will result in a \$278.3 FY 2001-02 School Aid Fund year-end balance. This balance would carry forward into FY 2003-03 and the amount of this carryforward balance is assumed in the Governor's FY 2002-03 School Aid recommendation. [Table 9](#) provides a summary of the Senate Fiscal Agency estimate of the FY 2001-02 School Aid Fund year-end balance.

**Federal Funds Assumptions.** The recommended appropriation of \$11.1 billion of Federal funds in the overall State budget is largely based on a continuation of Federal budget policy currently in place continuing in FY 2002-03. Federal funds for K-12 education programs, previously appropriated in the Department of Education, have been moved to the K-12 School Aid budget. The Family Independence Agency budget is developed assuming a continuation of the existing Federal Temporary Assistance for Needy Families welfare block grant. Federal authorization for this program expires at the end of FY 2001-02. Increases in Federal funds are assumed in the Department of Community Health budget and will fund the expansion of prescription drug coverage for low income senior citizens and the expansion of health care coverage for non-Medicaid eligible low income citizens.

**State Revenue Sharing.** The budget is recommending that revenue sharing payments to cities, villages, townships, and counties be funded at the FY 2001-02 level. This freeze in revenue sharing payments will result in \$122.4 million of additional GF/GP revenues. An additional \$10.0 million GF/GP appropriation is recommended to ensure that no local unit of government will receive less revenue sharing in FY 2002-03 than the amount it receives during FY 2001-02.

**General Budget Language.** The Governor's budget includes several recommendations concerning standard budget language. The recommendation continues the past practice of freezing classified State employment levels unless exceptions are granted by the State Budget Director. The budget also contains language dealing with the appropriation of unanticipated Federal, State restricted, and local and private funds that become available after the budget is enacted.

**Proposed Fee Increases.** The budget recommendation includes \$2.0 million of appropriations supported by fee increases. Pesticide fees in the Department of Agriculture will increase by \$60,000, parole and probation fees in the Department of Corrections will increase by \$343,000, and septage waste fees in the Department of Environmental Quality will increase by \$1,550,000.

**Unclassified Salaries.** The Governor's budget recommends a 2.0% increase for all unclassified salary line-item appropriations with the exception of the unclassified salaries in the Department of Attorney General, which received no adjustment. The cost of providing the 2.0% increase in unclassified salaries in each department is taken out of the funding for classified positions.

**Classified Salaries.** The Governor's budget provides for the funding of the 2.0% increase for classified State employees approved by the State Civil Service Commission. The \$16.4 million GF/GP cost of these salary increases is then removed from each departmental budget by a corresponding reduction in the number of employees authorized in the appropriation recommendation and the associated funding. Economic adjustments for other costs such as utilities, food, and rent have been funded in the budget.

**Tobacco Settlement Appropriations.** The budget provides for \$363.3 million of FY 2002-03 appropriations financed with tobacco settlement revenues appropriated from the Merit Award Trust Fund and the Tobacco Settlement Trust Fund. These appropriations represent a continuation of the past tobacco settlement appropriation policy. The exception is a new \$2.0 million appropriation from the Tobacco Settlement Trust Fund to support the State's effort to land the Federally financed rare isotope accelerator at Michigan State University. Table 10 provides a summary of the tobacco settlement appropriations contained in the budget recommendation.

**Budget Stabilization Fund.** The budget recommends extensive use of the Budget Stabilization Fund (BSF) in order to balance both the GF/GP and the School Aid Fund budgets. During FY 2001-02 the Governor is recommending that an additional withdrawal of \$278.3 million be transferred to the School Aid Fund. These funds are necessary to fully finance the FY 2002-03 School Aid Fund appropriation recommendations. The FY 2002-03 GF/GP budget includes a \$207.0 million BSF withdrawal. The Governor also is recommending that the \$35.0 million annual BSF withdrawal to the State Trunkline Fund for transportation purposes be suspended in FY 2002-03. The final BSF changes recommended are that any GF/GP year-end balances at the close of FY 2001-02 and FY 2002-03 be transferred into the BSF. The Senate Fiscal Agency estimates that if the Legislature approves all of the BSF changes recommended by the Governor, the BSF will close FY 2002-03 with a balance of \$232.6 million. Pursuant to statutory requirements, if the BSF balance drops below \$250.0 million at end of the fiscal year, the next scheduled reduction in the rate of the Single Business Tax, to take place on January 1, 2004, would be suspended.

**Early Retirement.** The budget includes a recommendation to enact an early retirement program for members of the State Employees Retirement System. This proposal would allow an early retirement option between July 1, 2002, and November 1, 2002, for State employees whose combined age and years of service exceed 80. State employees using this early retirement proposal would retire with a factor of 1.75% times years of service versus the standard 1.5% times years of service. It is estimated that this program will save the GF/GP budget \$50.0 million due to the proposal to replace only one in four employees who retire. These savings are not built into the departmental budgets and appropriation adjustments will have to be enacted at a later date in order to realize the \$50.0 million of savings.

**Capital Outlay.** The budget recommendation contains no new authorizations for the planning of State-financed construction projects at universities or community colleges. The budget does contain funding for a proposed Airport Safety and Protection Plan that issues \$60.0 million of bonds over five years for airport projects. These bonds would be financed with a proposal to redirect \$6.0 million of airport parking tax collected at Metropolitan Airport in Wayne County from Wayne County to the State.

**Community Colleges.** The budget includes a freeze in the operational appropriations to the 28 community colleges at the current appropriation level.

**Community Health.** The budget includes a recommendation to expand pharmaceutical coverage for low-income senior citizens by using Federal funds included in the President's recent budget proposal. Expansion of medical coverage to a greater number of low-income citizens would be contingent on a Federal waiver and other funding changes. The Medicaid budget is partially funded by a \$269.0 million transfer from the Medicaid Benefits Trust Fund. Community Mental Health boards would receive a 3.0% increase in funding and Medicaid providers would not receive a general rate increase.

**Corrections.** The budget includes \$19.1 million of funding for 2,075 new prison beds that will come on-line during FY 2002-03.

**Education.** The budget transfers all Federal grants for K-12 education to the School Aid budget. These programs still would be administered by Department of Education employees.

**Environmental Quality.** The budget includes an \$8.5 million GF/GP reduction for environmental cleanup programs. This funding is replaced with State restricted funds from the Environmental Response Fund. The budget portrays this funding shift as a one-time funding reduction.

**Family Independence Agency.** The budget funds projected caseload increases and is built on the assumption that the United States Congress will reauthorize the State's welfare block grant at the current funding level. The budget includes \$28.8 million of reductions in programs funded with Federal block grant funds, unless the State receives a refund from past child support enforcement penalties paid to the Federal government.

**Higher Education.** The budget includes a freeze in operational appropriations to the 15 public universities if the universities keep tuition increases below 8.5% or \$425, whichever is greater.

**Information Technology.** The budget includes funding for this new State department at a level of \$333.5 million funded from interdepartmental grants from other State departments.

**Management and Budget.** The budget includes \$4.8 million of funding for increased security at State buildings. Funding for this security initiative will be from building occupancy charges levied against State departments.

**Military and Veterans Affairs.** The budget provides a \$0.9 million GF/GP funding increase to restore grants to veterans service organizations to the levels before the issuance of Executive Order 2001-9.

**Natural Resources.** The budget includes \$2.0 million of GF/GP funding for bovine tuberculosis control efforts. Funding for the Michigan Civilian Conservation Corps is reduced by \$1.7 million. This will result in the closure of Camp Vanderbilt and will end the residential component of the program.

**School Aid.** The budget includes funding for a \$200 increase in the base foundation allowance from \$6,500 to \$6,700 per pupil. This increase is funded primarily from a change in the payment date of the State Education Property Tax. Categorical grants are funded at or near the current-year levels with the exception of the parental involvement grant (\$45.0 million), the reading program grant (\$45.0 million), the class size reduction grant (\$26.7 million), and the grant to the Detroit Public Schools (\$15.0 million), which are recommended for elimination.

**Strategic Fund Agency.** The budget reduces the grant program for economic development and job training administered by the Michigan Economic Development Authority by \$13.0 million.

**Transportation.** The budget provides for a 3.6% increase in State restricted funding for transportation projects. This funding increase assumes the enactment of the diesel fuel tax proposal recommended by the Governor and the elimination of the \$35.0 million transfer from the Budget Stabilization Fund.

## PAYMENTS TO UNITS OF LOCAL GOVERNMENT

The Governor's FY 2002-03 budget recommendation includes \$16.1 billion of estimated payments to local units of government. This exceeds the required level of State payments to local units of government pursuant to Article IX, Section 30 of the State Constitution of 1963 by \$3.1 billion. [Table 11](#) provides a summary of this estimate.

## STATE EMPLOYMENT

[Table 12](#) and [Figure E](#) provide a comparison of classified and exempted full-time equated (FTE) positions recommended by the Governor with the appropriated levels of FTEs for FY 2001-02. The Governor's FY 2002-03 recommendation includes funding for 62,743.5 FTEs. This represents a 1,228.6 FTE decline or 2.3% below the current-year level. It is anticipated that a majority of the reductions in FTEs can be accomplished through provisions of the early retirement program recommended by the Governor.

## PROJECTED YEAR-END BALANCE

Combining the Governor's FY 2002-03 appropriation recommendations with the consensus revenue estimates leads to updated estimates of the FY 2002-03 GF/GP and SAF year-end balances. Assuming that all of the Governor's revenue and appropriation recommendations are enacted, the FY 2002-03 GF/GP budget will close the year with an \$0.8 million year-end balance. The Governor's budget recommends that any FY 2002-03 GF/GP year-end balance be transferred to the Budget Stabilization Fund. The SAF budget will close FY 2002-03 with a \$154.2 million year-end balance. This projected year-end balance will carry forward and be available to support FY 2003-04 SAF appropriations. [Tables 13](#) and [14](#) provide a summary of these FY 2002-03 year-end balance estimates.

## REVENUE ESTIMATES

The Governor's proposed budget is based on revenues totaling an estimated \$39.0 billion in FY 2002-03. This estimate for FY 2002-03 includes revenue from all of the State's taxes and nontax revenue sources that are earmarked to all general and special revenue funds, including the consensus estimates for General Fund/General Purpose and School Aid Fund revenues adopted at the January 15, 2002, Consensus Revenue Estimating Conference. The carry-over balances from FY 2001-02 are expected to total \$874 million. Revenue generated during FY 2002-03 from taxes, Federal aid, fees, and the other ongoing revenue sources, will total an estimated \$38.3 billion, which represents an increase of 3.7% from FY 2001-02. The only tax changes proposed in the Governor's budget are an increase in the tax on diesel fuel, a new use tax on certain diesel fuel, and a one-year reduction in the rate of the State education property tax from 6 mills to 5 mills, coupled with an acceleration in the collection of this tax. The increase in the diesel fuel tax would bring up the tax rate on diesel fuel to the current rate on gasoline and also would move the collection point from the retail level to the wholesale level. The one-time acceleration in the collection of the State education property tax, coupled with the one-year cut in the tax rate, would generate a one-time gain in revenues for the School Aid Fund.

**General Fund.** The Governor's GF/GP budget for FY 2002-03 is based on total revenues of \$9.24 billion, which is up \$178 million, or 2.0% from the FY 2001-02 estimated revenue level. This increase is due to a proposed increased use of non-ongoing revenues. The enacted GF/GP budget for FY 2001-02 includes \$272 million in non-reoccurring revenue, while the Governor's proposed GF/GP budget for FY 2002-03 includes \$512 million in non-ongoing revenue. Ongoing revenues, which include revenue from the taxes and nontax revenue sources earmarked to the GF/GP budget, are expected to total \$8.72 billion, which is down 0.4% from the FY 2001-02 level. This decline in the ongoing revenues is due primarily to the phased

reductions in the income and single business taxes that are scheduled to occur in FY 2002-03, along with the Federal tax changes that will reduce Michigan's income and estate tax revenues.

**School Aid Fund.** School Aid Fund revenue is expected to total \$12.95 billion in FY 2002-03. This includes earmarked tax and lottery revenues of \$10.6 billion, which represents a 3.8% increase from FY 2001-02 revenue. This revenue from these earmarked revenue sources reflects the currently enacted tax structure. The Governor has proposed changes in the State education property tax and use tax, both of which would provide additional revenue to the SAF in FY 2002-03. The proposed changes in the State education property tax include accelerating the collection of this tax from the winter property tax bill to the summer property tax bill, beginning with the summer property tax bill in 2003. In addition, the rate of the State education property tax would be reduced from 6 mills to 5 mills in 2003. This would be a one-time reduction, and the rate would revert to 6 mills in 2004. The combination of these two changes would generate an estimated net one-time revenue gain of \$494 million. The proposed changes to the diesel fuel tax include assessing the use tax on diesel fuel consumed by motor carriers in Michigan but not purchased in Michigan. This new tax would generate an estimated \$1.5 million in new revenue to the SAF in FY 2002-03. In addition to the revenue from taxes and the State lottery, it is proposed that the SAF would receive a \$198 million grant from the General Fund, \$32 million from the Budget Stabilization Fund, and a carryover beginning balance of \$278 million. The Governor also is proposing that \$1.3 billion in Federal aid, which is currently appropriated in the Department of Education budget, be appropriated in the SAF budget beginning in FY 2002-03.

**Other Funds.** Revenues earmarked to the various transportation funds will total an estimated \$3.42 billion in FY 2002-03, after adjusting for interfund transfers and excluding bond proceeds. These transportation revenue estimates include the estimated \$48 million that would be generated through the proposed increase in the diesel fuel tax. The special purpose portion of the General Fund, which is about 70% Federal aid, is expected to total \$11.9 billion. The remaining special revenue funds are expected to receive \$822 million in revenue.

**A. FY 2001-02 SUPPLEMENTAL APPROPRIATIONS RECOMMENDED IN GOVERNOR'S FY 2002-03 BUDGET**

The Governor recommends an \$88,500,000 restricted fund supplemental to cover three main areas:

**Department of Military Affairs** - The recommendation includes \$17,000,000 for three armory construction projects for the Department of Military and Veterans Affairs - \$10,000,000 for the replacement of the Jackson armory, \$5,500,000 for the replacement of the Calumet armory, and \$1,500,000 for improvements at the Grand Ledge army airfleet support facility. These projects are funded with \$13,125,000 Federal National Guard Bureau revenue and \$3,875,000 in State armory construction fund matching revenue.

**Department of Natural Resources** - The recommendation includes \$1,000,000 to replace two Fisheries research vessels for the Department. In addition, a \$15,500,000 appropriation is recommended for infrastructure improvements at the Sterling State Park near Monroe to be funded with State Park Improvement Revenue Bonds, the debt service for which would be financed from the State Park Improvement Fund.

**Department of Transportation** - The recommendation includes \$55,000,000 for implementation of the airport safety and protection plan. The program is financed with \$40,000,000 in Federal airport improvement program funds, and \$15,000,000 from the local aeronautics fund.

**B. STATE AGENCY SPECIAL MAINTENANCE**

Gross	(3,000,000)
IDG	(3,000,000)
GF/GP	0

The Governor recommends a continuation level of General Fund support for State agency special maintenance projects. There is a \$3,000,000 reduction in maintenance projects financed by State agency building occupancy charges due to reduced appropriations at the user agencies. The recommendation also eliminates the \$150,000 special maintenance appropriation for the Department of Natural Resources (DNR), and shifts that to the Department of Corrections. The recommendation provides \$2,077,700 for the Department of Corrections, \$712,500 for the Department of Management and Budget, \$550,000 for the Family Independence Agency, \$500,000 for the Department of Community Health, and \$256,300 for the Department of State Police.

**FY 2002-03  
Change from  
FY 2001-02  
Year-to-Date**

**C. DEPARTMENT OF MILITARY AND VETERANS AFFAIRS**

The recommendation reflects an increase in Federal National Guard Bureau funds for armory maintenance projects, and the elimination of the \$500,000 appropriation for land acquisitions and appraisals statewide from the State's armory construction fund. These State restricted revenues are being recommended as a match to additional Federal money being recommended in an FY 2001-02 supplemental for armory construction projects (Item A above).

**D. DEPARTMENT OF NATURAL RESOURCES**

**1. Parks**

The Governor's budget removes the one-time appropriation for the Haven Hill natural area damage settlement. The Governor also recommends transferring the \$800,000 annual appropriation for forest roads, bridges, and facilities from the DNR operating budget to capital outlay.

**2. Wildlife and Fisheries**

The Governor eliminates one-time appropriations for waterfowl and turkey habitat development and acquisition projects funded from private, State restricted (permit fees), and corresponding Federal matching resources. A new \$1,500,000 appropriation for deer habitat development and acquisition projects, financed from the deer range improvement fund, is being recommended.

Gross	(3,300,000)
Federal	(2,900,000)

**3. Waterways**

The recommendation removes several one-time appropriations for a variety of harbor, boating access site, and marina projects and adds several new projects to the recommendation. The new projects include: \$9,025,000 for the Mackinac Island marina expansion (total project cost \$11,025,000), and \$1,000,000 for a north shore boating access site in Escanaba.

**E. AERONAUTICS PROGRAMS**

The recommendation includes a new proposal that allows the Aeronautics Commission over five years to issue \$60 million in bonds, which, with new Federal funds, will implement the State's Airport security and safety program. While the bond proceeds are not appropriated, the debt service is provided in the Department of Transportation budget, and will be financed by claiming \$6,000,000 (of the estimated \$18,000,000 in annual collections) collected from the existing 30% State airport parking tax imposed on long-term parking at Detroit's Metro Airport. This money currently goes to Wayne County's general fund.

Gross	64,278,000
Federal	61,278,000
Local	17,000,000
Restricted	0
GF/GP	(14,000,000)

The recommendation also includes a new \$17,000,000 line item for the new Airport security and safety program and an increase of \$61,278,000 for other airport improvement projects. The \$5,000,000 in State General Fund support for airport improvement projects is being eliminated. The final payment of \$12,000,000 for the Northwest Airlines and Detroit Metropolitan Airport midfield terminal project is being recommended.

**F. DEPARTMENT OF TRANSPORTATION**

The Governor removes one-time planning authorizations for three new welcome centers at St. Ignace, Monroe, and Dundee (\$425,000) and the one-time construction authorization for the Coldwater welcome center (\$2,750,000). A \$3,000,000 construction authorization for the Monroe welcome center is being recommended. The recommendation also includes minor funding adjustments to a variety of other maintenance projects at Department maintenance, storage, and repair facilities.

**G. STATE BUILDING AUTHORITY RENT**

The Governor recommends an increase in rent payments to the State Building Authority to be used to make debt service payments for past building projects for State agencies, colleges, and universities. Total appropriations are recommended at \$291,311,700. This recommendation is 90% of the expected need for rent payments; the difference is anticipated to be made up by delays in construction schedules, and subsequent delays in bond issuances.

**B. GENERAL ISSUES**

**1. Budgetary Savings**

The Governor's budget removes the Budgetary Savings unit appropriated in the FY 2001-02 Department of Community Health (DCH) budget. This savings unit, totaling \$13,722,400 Gross and GF/GP, was fulfilled by various reductions. These reductions included administrative savings and decisions not to go forward with spending increases appropriated in the FY 2001-02 budget, such as funding for free clinics, increased funding for smoking prevention, and increased funding for the African-American Male Health Initiative. The net negative number represents the loss of some Federal matching dollars for some of these reductions.

Gross	(1,665,900)
Federal	(1,665,900)
GF/GP	0

**2. Federal Funds Changes**

The Governor's budget includes a number of projected changes to Federal funds received by the Department. In some cases this is merely an adjustment to reflect actual authorization, but in most cases these are new dollars.

Gross	17,406,900
Federal	17,406,900
GF/GP	0

**3. Annualization of Executive Order 2001-9 Savings**

The Governor's budget reflects the full-year savings from FY 2001-02 Executive Order budget reductions that took effect part-way through the fiscal year. These include the zeroing out of Pilot Prevention programs in mental health and funding for teen health centers, as well as savings from the rebasing of Diagnosis Related Group (DRG) rates.

**C. MENTAL HEALTH ISSUES**

**1. Community Mental Health (CMH) Medicaid Caseload Increase**

The Governor's budget includes increased funding for CMH Medicaid services to reflect an increase in the Medicaid caseload. The budget also includes a funding increase for CMH Medicaid (discussed below in the HIFA Waiver section.)

Gross	25,347,600
Federal	14,047,600
GF/GP	11,300,000

**2. Adjustments to Mental Health Facility Funding**

The budget includes the usual adjustments to mental health facility funding. Of note in the Governor's FY 2002-03 proposal is the closure of the Southgate Center for the Developmentally Disabled, which would leave the State with one public center for the Developmentally Disabled population, in Mount Pleasant.

The Governor's budget proposes an additional \$6,000,000 to cover increased demand for the MOMS program, which provides prenatal care for low-income women who may not qualify for full Medicaid coverage or choose not to enroll. The Governor proposes to cover the cost of this increase by using Healthy Michigan Fund dollars.

<b>2. Medicaid Base Adjustments</b>	Gross	345,427,400

The Governor's budget includes increased GF/GP support due to a reduction in the Federal Medicaid match rate from 56.36% to 55.42%.	GF/GP	64,522,800
<b>5. Medicaid Trust Fund Withdrawal</b>	Gross	0
	Federal	246,662,400
To cover the GF/GP costs of the base adjustment for the basic Medicaid program, the phase-out of "special financing", and the reduction in the match rate, the Governor's budget includes a withdrawal from the Medicaid Benefits Trust Fund. This withdrawal would leave \$277,900,000 in the trust fund.	GF/GP	(246,662,400)

<b>7. Savings from Hospital DRG Rebasing</b>		Gross	(16,868,200)

<b>8. Reduction In Long Term Care Costs</b>		Gross	(22,431,600)
		Federal	(12,431,600)
		GF/GP	(10,000,000)
<p>As part of the Department's Long Term Care Plan, emphasis will be placed on assuring that individuals with long-term care needs will be served in the most appropriate setting. The assumption here is that there will be fewer nursing home admissions.</p>			
<b>9. HIFA Waiver</b>		Gross	112,932,300
		Federal	112,932,300
		GF/GP	0
<p>The Governor's budget includes a number of funding shifts to help finance an expansion of Medicaid coverage. This expansion would make Medicaid available to additional low income adults and pregnant women. It results in GF/GP savings because many indigent individuals now receiving mental health treatment from the CMH non-Medicaid line would become Medicaid eligible. Those GF/GP savings then are used to give CMH a funding increase and to cover other populations as well. Unused Federal MICHild dollars and disproportionate share dollars also are used to cover the costs of this expansion. While the Department estimates that approximately 200,000 people would be affected by this expansion, it is unclear as to whether additional individuals will become eligible or presently eligible persons will receive expanded service.</p>

Standard economic adjustments are applied for salaries and wages, total retirement, rent, motor transport, workers' compensation, and building occupancy charges consistent with factors applied to all budgets. It should be noted that new funds were not added to the budget to pay for the salaries and wages increase. Rather, the Department will be required to pay for the increase through internal resources. It currently appears that some of these resources will come from the lay-off of existing staff. These adjustments include:

The Governor's recommendation incorporates the combination of the Bureau of Worker's Disability Compensation, the Unemployment Agency, and the Worker's Compensation Board of Magistrates into the Bureau of Worker's and Unemployment Compensation. The new Bureau is created by Executive Order 2002-1, which also transfers the wage and hour division. Funding for the new Bureau incorporates funding shifts and expenditure changes.

Money from Contingent Fund, Penalties and Interest is used in place of corporation and securities fees. The proposal increases the use of Contingent Fund, Penalties and Interest by \$8,760,500. It decreases funding from Corporation Fees by \$4,826,900 and decreases funding from Securities Fees by \$5,005,400. The net funding reduction is \$1,071,800.

The expenditure changes that make up this reduction include:

A funding reduction of \$1,028,500 for the training program for agency staff who will be displaced by the change to telephone application for unemployment benefits. Department staff indicate that this change reflects lower-than-expected use of the training funds.

A reduction of \$57,500 in funding for the Advocacy Assistance Program to bring funding within the statutory limit.

The Governor's recommendation includes \$4,500,000 in State restricted revenue for the County Jail Reimbursement Program. If passed, the supplemental will replace GF/GP funds, which were eliminated in Executive Order (E.O.) 2001-9.

**B. PRISON OPERATIONS**

**1. New Prison Bed Openings/Closings**

The Governor's recommendation includes \$10,917,700 of full-year cost adjustments for beds opened in FY 2001-02 at Bellamy Creek Correctional Facility, Crane Correctional Facility, and Camp Brighton. The budget also proposes \$10,152,100 for additional beds by reopening certain housing units at Jackson Maximum and Michigan Reformatory and by double-bunking Riverside Correctional Facility and Camp Lehman. The recommendation decreases funds \$1,924,300 by postponing the opening of new drop-in units at Macomb and Saginaw Correctional Facilities and carrying forward the funds from FY 2001-02 to FY 2002-03. The Governor also recognizes \$15,091,800 in annualized savings from facility closings and staff reductions in E.O. 2001-9.

**2. Other Operational Adjustments**

The Governor's budget recognizes increased Federal revenues for housing Federal inmates in State prisons (\$58,600) and Social Security Administration reimbursements for tracking prisoners' Social Security numbers (\$100,000). It shifts \$1,694,300 from Federal funds to GF/GP to compensate for decreasing revenues from the State Criminal Alien Assistance Program. The budget also recommends increased expenditures of Federal Violent Offender Incarceration/Truth In Sentencing (VOITIS) funds for contract adjustments of \$83,300 for the Michigan Youth Correctional Facility (MYC) as well as a funding shift of \$196,100 from Federal VOITIS funds to GF/GP for MYC administrative costs. Additionally, the Governor recommends a third-year pay step funding increase of \$1,987,800 for staff at Pugsley Correctional Facility. Due to increasing costs and the number of breakfasts served, a supplemental amount of \$365,100 is requested to support the State portion of reimbursement for the School Breakfast Program.

**B. MICHIGAN SCHOOLS FOR THE DEAF AND BLIND (MSDB) FUNDING SHIFT**

Increased Federal Special Education funds replace the GF/GP contribution to supporting the MSDB located in Flint. Programs at the Schools are not anticipated to change due to the funding shift.

**D. INCREASED FEDERAL ADMINISTRATION FUNDING**

With the reauthorization of the Elementary and Secondary Education Act (ESEA), the Department of Education (DOE) anticipates increased administrative funding for several existing and new programs. The increased funding related to ESEA is estimated at \$4,522,100. Another \$4,000,000 is allocated to the DOE based on increased Federal Special Education funding. There is a partial offset of administrative funding due to the elimination of the Federal Goals 2000 (\$1,653,500 administration). Various other Federal adjustments for departmental administration are included in the Governor's recommendation.

**FY 2002-03  
Change from  
FY 2001-02  
Year-to-Date**

**A. FY 2001-02 SUPPLEMENTAL APPROPRIATIONS RECOMMENDED IN GOVERNOR'S FY 2002-03 BUDGET**

The proposed FY 2002-03 base assumes a pending FY 2001-02 \$15 million restricted funds supplemental to offset an Executive Order reduction in the Environmental Response General Fund budget. The supplemental funds are from the Environmental Protection Fund, which is supported with the proceeds from the sale of Federal tax credits on the production of certain qualified fuels in which the State owns mineral rights. Due to litigation, money in the Fund has never been spent, so a balance of greater than \$30 million has accumulated. The pending supplemental, together with the Governor's proposed appropriation of a like amount in FY 2002-03, will deplete most of the balance in the Fund. The Federal tax credit, the source of revenue for the Fund, is scheduled to expire at the end of calendar year 2002.

**B. ENVIRONMENTAL CLEANUP FUND SHIFT**

General Fund support for environmental cleanup activities in the contaminated site investigation, cleanup and revitalization, and the leaking underground storage tank cleanup appropriations was shifted to Environmental Response Fund (ERF) support. Except for a \$250,000 GF/GP appropriation that matches a U.S. Environmental Protection Agency grant, this action effectively removes all General Fund support for environmental response activities. This action brings total proposed appropriations from the ERF to \$17.9 million. The ERF is supported with revenue from responsible party payments. Annual revenue to the ERF is typically less than \$10 million, but there is a fund balance at the end of FY 2000-01 of nearly \$14.7 million.

**C. OIL AND GAS PROGRAMS**

**1. Base Adjustment**

The budget includes a reduction in the level of appropriations from the Oil and Gas Regulatory Fund (OGRF), to more closely reflect expenditure trends. The OGRF is supported primarily with a 1% tax on the value of oil and gas produced in the State. Since the level of the tax on oil and gas production is calculated annually based, in part, on the level of appropriations from the OGRF, this reduction should result in a reduction in the tax rate.

Currently there are appropriations in the Waste Management unit totaling \$2 million that provide spending authority to the Department in the event that it is required to assume responsibility for a solid waste or hazardous waste disposal facility. There are several other environmental areas in which the Department would be required to assume management or responsibility under certain circumstances, for which the Department currently has no spending authority. The budget includes a new environmental project support appropriation that consists of the existing waste management appropriations, as well as new spending authority from nonspecific State restricted revenues. The new appropriation is intended to provide the spending authority necessary cover the costs of assuming responsibility for any of a variety of facilities.

**A. FY 2001-02 SUPPLEMENTAL APPROPRIATIONS RECOMMENDED IN GOVERNOR'S FY 2002-03 BUDGET**

The proposed supplemental includes \$20,000,000 Gross and GF/GP for Family Independence Program (FIP) increased monthly caseload of 4,000 at a cost of \$417 per case. The proposal also includes \$6,050,500 Gross, \$0 GF/GP to replace the matching funds needed for the Child Support Enforcement System that were reduced by Executive Order (E.O.) 2001-09. The matching funds would be replaced with child support incentive funds, which are restricted revenue.

**B. TEMPORARY ASSISTANCE FOR NEEDY FAMILIES (TANF)**

The Federal welfare reform block grant, created by the Personal Responsibility and Work Opportunity Act of 1996, that the State receives and the reduction in welfare caseloads allow for a cost shift from General Fund spending to block grant fund support. The block grant authorization expires at the end of FY 2001-02 and is being considered by Congress for reauthorization. Due to past fiscal year overestimates of available block grant funds, the Governor's proposal assumes a reduction in FY 2002-03 expenditures, a number of fund source shifts, and program reductions to adjust TANF spending.

**1. Family Independence Program**

The proposal for FIP is based on a projected caseload increase of 13,100 to an average 92,100 cases, which includes the assumption of 4,000 additional cases financed through the proposed supplemental mentioned above. The proposed increase includes a cost-per-case increase of approximately \$64 to \$383 per case. The recommendation includes a \$50 reduction for FY 2002-03 in the \$75 clothing allowance and a proposal to restore this reduction in the event the Child Support Enforcement System (CSES) State penalty is refunded to the State by the Federal government.

The staff positions are proposed for elimination from the FIA and are to be reflected in the DIT budget. The remaining funds and staff positions not transferred to DIT are transferred to the Family Independence Services Administration Unit for the Electronic Benefits Transfer System operation and staff support. The Governor's recommendation includes a decrease in the Federal revenue match rate, 56.36% to 55.42%, offset by retention and use of more child support collections and additional GF/GP revenues, and fund source adjustments from all appropriation units, which results in the consolidation of GF/GP funds that would be transferred to the Public Assistance unit to reduce spending TANF funds. A technical correction is proposed for the interdepartmental grant for the Retirement Disability Determination appropriation. The proposal assumes that savings will be realized through strengthening the State's hiring freeze, including increased annualized savings of FTEs and funds for FY 2001-02 and FY 2002-03.

**F. OTHER STATE ASSISTANCE**

**1. Day Care**

The proposal for day care services does not project a caseload adjustment for FY 2002-03; however an additional \$24,000,000 million GF/GP is included to enable the FIA to obtain additional available Federal CCDF dollars. A transfer of \$90,000 to the State Emergency Relief appropriation is included for a day care program that combines day care and shelter services for children whose parents are in drug treatment.

**2. Other State Grants**

A caseload increase of 900 for a total of 7,900 cases is projected for the State Disability Assistance Program. The recommendation includes adjustments in State Emergency Relief (SER) for a proposed restoration of the multicultural services contracts for community assimilation and services support, an increased Federal authorization for a rising trend in emergency services costs, and a program transfer for day care and shelter services for children of parents in drug treatment. Other SER adjustments include a reduction in the Federal authorization for burial services and nonenergy home repairs, and a reduction for Community Action Agencies associated with GF/GP reductions in Executive Order 2001-09. The reductions proposed in the State Supplementation appropriation are associated with a projected reduced expenditure level.

Gross	9,694,300
Federal	8,305,300
GF/GP	1,389,000

**G. FEDERALLY FUNDED PROGRAMS**

The Governor's recommendation includes a projected increase in the Food Assistance Program (currently Food Stamp Program) caseload of 47,300, increasing it to 374,700 cases. The Low Income Home Energy Assistance Program (LIHEAP) is increased to the expected level of the Federal award. An increase is recommended for the Refugee Assistance Program to meet a projected increase in the demand for services, and the Community Services Block Grant to reflect a projected increase in the Federal award.

**1. Foster Care and Adoption**

A projected caseload decrease of out-State and Wayne County Title IV-E cases and an increase in out-State Ward Board and Care cases are proposed in FY 2002-03, for a net caseload decline of 1,980 cases. The Wayne County State Ward Board and Care caseload is projected at 310 fewer cases. The recommendation includes reduced Federal and local fund sources due to decreased demand and a transfer from the Juvenile Justice unit for foster care private child placing agency contract monitors for Title IV-E regulations compliance. The Governor's proposal is for an increase of 3,300 cases in the Adoption caseload to 24,500 cases and an increase in the Federal authorization up to the projected increased demand for adoption support services. The recommendation includes an increase for 150 new private agency adoptions based on the growth in private adoptions during the past five years.

The Governor's recommendation includes an increase for the Child Care Fund to reflect expected service growth and economic inflation. The recommendation contains reductions in beds and staff at Maxey Boys Training School based on the implementation of the Wayne County delinquency placement program, the removal of one-time funds for the new security system, and the impact of the hiring freeze. The Governor's proposal recognizes additional savings in staff and funds from the closure of the Genesee Valley Residential Care Center, with a portion of the savings retained for closing costs and three FTEs for foster care staff salaries and fringe benefits.

The Governor proposes to retain the FY 2001-02 funding levels for the operations line items of the 15 public universities for FY 2002-03 if universities exercise tuition restraint during the upcoming academic year. Section 436 of the boilerplate language outlines the Governor's tuition restraint policy, which includes the following elements:

- The FY 2002-03 appropriation for any university will not be reduced from its FY 2001-02 amount if that university adopts a tuition and fee rate increase for resident undergraduate students that is 8.5% or less over the prior year, or a total increase of \$425 or less over the prior year, whichever is greater.
- The university must report to the State Budget Director and the House and Senate Appropriations Committees that the university experienced cost increases in excess of the increase in the Detroit Consumer Price Index, for utilities, retirement, health care, or technology.
- The universities will voluntarily agree to these tuition restraint conditions and will transmit a letter confirming this agreement to the Legislature by February 28, 2002.
- Any university that does not conform to the tuition restraint conditions will have its appropriation reduced by an amount equal to the excess tuition revenue, and that revenue will be redistributed to those universities that honor the tuition restraint commitment.

The Governor's budget includes new funding of \$2,000,000 for design and architectural studies related to the Rare Isotope Accelerator (RIA) facilities that Michigan State University hopes to build if it is awarded the Federal RIA project. The Governor recommends these dollars for the development of a program statement and preliminary design documents for the RIA office building and for evaluation and prototyping of the RIA design elements. The fund source for this appropriation would be the Tobacco Settlement Trust Fund.

**C. PROGRAM REDUCTIONS**

Gross	(216,500)
GF/GP	(216,500)

The Governor's budget recommends a reduction of \$191,500 for Project GREEN, which is funded through the Agricultural Experiment Station and the Cooperative Extension Service. The reduction leaves a funding level of \$6,000,000 for Project GREEN (Generating Research and Extension to meet Economic and Environmental Needs), which is an initiative to boost the State's economy by expanding its plant-based agriculture and processing industries through research and educational programs while protecting the quality of the environment.

The Governor proposes to reduce funding for the Higher Education Institutional Data Inventory (HEIDI) database from \$275,000 to \$250,000. The HEIDI database has successfully implemented a web-based data upload and extraction process, which allows for some cost saving.

**D. PROGRAM ELIMINATIONS**

Gross	(454,700)
GF/GP	(454,700)

The Governor's budget eliminates funding for three programs: the Michigan Molecular Institute, a nonprofit research institute that specializes in the fields of polymer science and composite materials (\$236,900); the Spring Arbor University education program at Jackson State Prison (\$135,300); and Midwest Higher Education Compact dues (\$82,500).

**E. ADDITIONAL FEDERAL FUNDS**

The Governor's budget includes \$300,000 in new Federal funds for State Competitive Scholarships and \$300,000 in new Federal funds for Robert Byrd Honors Scholarships. The State Competitive Scholarship Program would have total FY 2002-03 funding of \$36,654,616, which consists of \$33,054,616 in State GF/GP dollars and \$3,600,000 in Federal revenue. The Robert Byrd Honors Scholarships are funded completely from Federal dollars, and the proposed FY 2002-03 total would be \$1,900,000.

The Governor's budget includes an additional \$11,300,000 for the Michigan Merit Award Scholarships to provide total FY 2002 -03 funding of \$114,323,850. The Department of Treasury reports that for the high school class of 2001, 48,760 students qualified for the \$2,500 scholarships, and 37,780 of those students had reported their choice of postsecondary educational institution. If all 37,780 students receive the \$2,500 maximum grant, there will be FY 2001-02 expenditures of \$94,450,000 for the scholarships.

On August 9, 2001, Governor Engler issued Executive Order 2001-3 to create the new Department of Information Technology. Article V, Section 2 of the Michigan Constitution authorizes the Governor to make changes in the organization of the executive branch, or in the assignment of functions among its units that the Governor considers necessary for efficient administration. The Legislature has 60 calendar days after the submission to disapprove an executive order. Unless disapproved by both houses within that time period, by a majority vote of members elected and serving, the executive order becomes effective on a date designated by the Governor. The disapproval time period for the Legislature regarding E.O. 2001-3 expired on October 9, 2001, and the Executive Order became effective on October 14, 2001.

Executive Order 2001-3 states that the current functions, duties, and responsibilities assigned to various State departments can be more effectively carried out by the new Department of Information Technology, which will promote a unified approach to information technology management. The director of the new Department will hold the title of State Chief Information Officer. The new Department is charged with the goal of achieving the use of common technology across the executive branch. Duties include:

- Coordinating a unified executive branch strategic information technology plan.
- Developing and implementing processes to replicate information technology best practices.
- Overseeing the expanded use of project management principles.
- Serving as a general contractor between the State's information technology users and private sector providers of information technology.
- Developing service-level agreements with executive branch departments.
- Developing standards for application development including a standard methodology and cost benefit analysis.
- Determining of data ownership assignments among executive branch departments and agencies.
- Developing systems and methodologies to review, evaluate, and prioritize existing information technology projects.
- Developing information technology budgets for the executive branch.

Executive Order 2001-3, by a Type II transfer, transferred the following to the new Department of Information Technology:

- (1) All information technology services currently within any executive branch department or agency.
- (2) All the authority, powers, duties, functions, and responsibilities of the following, which were located in the Department of Management and Budget:
  - the Michigan Administration Information Network.
  - the Computing Services Unit.
  - the Information Technology Services Division.
  - the Office of Project Management.
  - the Information Technology Budget and Finance Division.
  - the Office of Information Technology Solutions.
  - the Telecommunications Services Unit.
  - the Michigan Information Network Office.
  - the Michigan Information Center.

The Governor's recommendation for executive branch departments and agencies creates a new Information Technology appropriation unit in each department. This funding is the source for IDG user fee revenue to fund the new Department of Information Technology. Along with reductions to offset employee-related economic adjustments, the Department of Information Technology budget includes \$9,300,000 in savings from the consolidation of Information Technology functions; however, the budget provides no detail regarding where these savings will occur. The savings will be used to fund e-Michigan. Initial costs for e-Michigan were appropriated in FY 1999-2000 and FY 2000-01 supplementals.

Legislation enacted in 2001 (Public Acts 251 through 258 of 2001) results in the net cost of 6.0 new circuit court judgeships and the net reduction of 1.0 district court judgeship. The changes included in the Governor's budget recommendation reflect the following new judgeships effective January 1, 2003:

Oakland Circuit	2 new judgeships
Genesee Circuit	1 new judgeship
Macomb Circuit	2 new judgeships
Kent Circuit	2 new judgeships
35th District Court (Western Wayne Co.)	1 new judgeship

The legislation also will result in the addition of three circuit court judgeships on January 1, 2005 (Genesee, Isabella, and Ottawa Counties).

Judgeships eliminated include:

- One Hamtramck District judgeship effective immediately (current vacancy).
- One Highland Park District judgeship effective upon vacancy or January 1, 2003.
- One Wayne County Circuit judgeship effective January 1, 2003.
- One Wayne County Probate judgeship effective upon vacancy.
- One Flint District judgeship effective upon vacancy.
- Two Wayne County Circuit judgeships effective January 1, 2005.
- One Genesee County Probate judgeship effective January 1, 2005.

The Governor recommends an appropriation of 55.0 FTEs and \$300,000 GF/GP for the purpose of beginning the conversion of the Grand Rapids Veterans Home to Medicaid certification by October 1, 2002.

**B. GRAND RAPIDS VETERANS HOME**

The Governor recommends the hiring of 55.0 FTEs (45.0 registered nurses, 4.0 activity therapists, 2.0 nutritionists, 1.0 Social Services position, and 3.0 clerical positions), an increase in Federal funds (\$8.6 million in Medicaid Title XIX Funds), with a subsequent reduction in GF/GP funds to convert the State Grand Rapids Veterans Home to Medicaid certification. This would have the impact of increasing the ratio of care-givers to members and, at the same time, reducing the amount of GF/GP funds for necessary home operations.

**A. FY 2001-02 SUPPLEMENTAL APPROPRIATIONS RECOMMENDED IN GOVERNOR'S FY 2002-03 BUDGET**

The passage of a \$1,042,900 pending Forest Development Fund supplemental is assumed in the FY 2001-02 budget base, under the Governor's FY 2002-03 budget recommendation. The supplemental appropriation was recommended by the Governor in November 2001 as an offset to the Executive Order 2001-9 General Fund reduction in the Forest Management Program.

**B. BOVINE TUBERCULOSIS**

Gross	2,000,000
GF/GP	2,000,000

The Governor's proposed budget adds new General Fund dollars for bovine tuberculosis eradication and control efforts. The FY 1999-2000 \$4.5 million appropriation for the same purpose is expected to be spent by the end of FY 2001-02. From the amount proposed by the Governor, \$1.6 million would be used for wildlife tuberculosis testing, and \$400,000 would be for wildlife/deer population surveys.

**C. MICHIGAN CONSERVATION CORPS**

GF/GP	(1,724,900)

The Governor's budget eliminates all General Fund support for the Michigan Civilian Conservation Corps (MCCC). This proposal would result in the closure of Camp Vanderbilt in the northern Lower Peninsula. The remaining funding would support Camp Proud Lake, in Oakland County, for residential programs, and the nonresidential component of the MCCC program. The proposed budget also eliminates MCCC Endowment Funds totaling \$200,000 that were included in the FY 2001-02 budget for MCCC participation in the development of Tricentennial Park in Detroit.

The Natural Resources and Environmental Protection Act allows the Natural Resources Commission to issue park improvement revenue bonds, to be repaid with park fees. The budget assumes that \$15.5 million in park improvement revenue bonds are issued. (Proceeds are appropriated in the Capital Outlay budget.) Park Improvement Fund revenue sufficient to cover the FY 2002-03 debt service on the park improvement revenue bonds is included in the Natural Resources operating budget bill.

**2. Inflationary Adjustments**

Gross	1,445,800
Restricted	1,039,000
GF/GP	406,800

The budget includes a mandated inflationary adjustment in General Fund support for State Parks. Under the Natural Resources and Environmental Protection Act, if the General Fund appropriation for State Parks operations falls below the inflation-adjusted FY 1993-94 General Fund appropriation for Parks, Park fee increases authorized in 1993 will be repealed. In addition to the required inflationary adjustment, the budget includes increases in the parks and boating recreation appropriations to cover inflationary increases in utility, waste management, and motor transport costs. The latter adjustments are supported with Park Improvement Fund and Michigan State Waterways Fund monies.

**E. EARLY RETIREMENT PAYOUTS**

**FY 2002-03  
Change from  
FY 2001-02  
Year-to-Date**

The School Aid budget for FY 2002-03 was first enacted in Public Act 297 of 2000, followed by a supplemental budget enacted in Public Act 121 of 2001. The Governor has recommended several changes to the existing budgets for FY 2001-02 and FY 2002-03. The proposed changes for FY 2001-02 are primarily technical in nature. The analysis below describes the proposed FY 2002-03 budget compared with the FY 2001-02 year-to-date budget.

**A. FOUNDATION ALLOWANCE**

The basic (and minimum) foundation allowance is increased by 3.1%, or \$200, to \$6,700 per pupil. This amount is used for calculation purposes only, to determine the amount each district will receive under the Proposal A Obligation and Discretionary Payment sections.

**B. PROPOSAL A OBLIGATION PAYMENT**

This line item was created to ensure that districts receive their FY 1994-95 foundation allowances. Payments are based on a district's FY 1994-95 foundation allowance multiplied by the district's current-year general education and special education pupils, minus local revenues. The reduction in this line reflects increasing local revenues to districts.

Restricted	(76,100,000)

**C. DISCRETIONARY PAYMENT**

This payment section consists primarily of funding the increase in the basic foundation allowance. Since the basic foundation allowance is proposed to increase by \$200 per pupil, additional funding over FY 2001-02 levels is needed.

Gross	460,800,000
Restricted	460,800,000

**D. EQUITY PAYMENT**

The equity payment was a one-time payment in FY 2001-02, designed to bring all districts to a minimum operational funding level of \$6,500 per pupil. Beginning in FY 2002-03, this funding is built into the base (discretionary payment), and this separate section is eliminated.

Due to projections in increased costs, the State portion of Special Education funding is recommended to increase by \$57,280,000. Federal funding also is increasing, by a total of \$91,837,200. This total includes the Federal funding grant that was previously appropriated in the Department of Education budget.

**G. MISCELLANEOUS ADJUSTMENTS**

The Governor's budget recommends several miscellaneous funding increases. These funding adjustments include \$500,000 for Court-Placed Pupils; \$520,000 for Golden Apples; \$3,174,000 for Renaissance Zone Reimbursements; \$2,168,000 for the Center for Educational Performance and Information; \$2,338,300 for State reimbursement of School Lunch Programs; and \$4,600,000 for reimbursement to local treasurers. Prefunding of local revenue changes due to revisions in the Personal Property Tax Depreciation Tables is not included in the FY 2002-03 budget. (Net reductions total \$2,270,000.) In addition to these adjustments, the current-year allocation of \$15,000,000 for Detroit Public Schools is not continued in FY 2002-03.

**A. FY 2001-02 SUPPLEMENTAL APPROPRIATIONS RECOMMENDED IN GOVERNOR'S FY 2002-03 BUDGET**

Public Act 269 of 2001 (Senate Bill 173) required that the Secretary of State request an appropriation for the production of an election worker training video, two of which would be distributed to every precinct in the State. The Governor requests \$80,000 GF/GP for this purpose. The Department will not produce the video if the appropriation is not received.

**B. TRANSPORTATION FEE COLLECTION SERVICES**

Executive Order 2001-9 offset \$40,000,000 GF/GP with Michigan Transportation Fund (MTF) dollars for FY 2001-02. The budget for FY 2002-03 continues this at the same level of funding. **A. GRANT TO THE CITY OF DETROIT**

Gross	(721,100)
GF/GP	(721,100)

The Governor recommends that the current year grant to the City of Detroit be eliminated for FY 2002-03. The FY 2001-02 budget bill appropriates a total of \$721,100 for the City of Detroit Law Enforcement, \$431,400 to the Detroit Crime Lab, and \$289,700 to the Police Special Events Account. The City of Detroit has received grant funds for these purposes for several years, including \$894,300 in FY 1996-97, FY 1997-98, and FY 1998-99, \$921,100 in FY 1999-2000 and FY 2000-01, and \$721,100 in FY 2001-02.

GF/GP	0

The Governor recommends continuation of \$2,800,000 in criminal justice information center service fees to reflect Executive Order 2001-9, which increased criminal history look-up fees from \$5 to \$15 (total yearly increase \$1.0 million) and State Fingerprint Processing Fees from \$15 to \$30 (total yearly increase \$1.8 million). The fingerprint fee increase would require amendment of statutory law to be effective for FY 2002-03. Current Senate Bill 828 would accomplish this action and has been assigned to the Senate Appropriations Committee. This appropriation reflects the actions with the legislative transfer of November 6, 2001.

**H. AT-POST TROOPERS**

The Governor recommends a reduction of 29.0 FTEs/\$997,700 in appropriations for at-post troopers, providing for no new trooper school for FY 2002-03. The reduction is included in Item M (Staff Reductions). The list below shows at-post trooper strength for the previous five years, and includes an estimate of trooper strength at the beginning and end of FY 2002-03, based on an expected annual trooper attrition of 90.0 FTEs and no trooper school being held.

**A. ECONOMIC DEVELOPMENT JOB TRAINING GRANTS**

Gross (13,000,000)  
GF/GP (13,000,000)

**1. Timing of Grant Awards**

The proposed budget reduces funding for this program, with language specifying that the grants for job training are to be awarded in the first two quarters of the State fiscal year. Economic Development Job Training (EDJT) grants for Rapid Response, the Michigan Growth Capital Fund, and the proposed university research grant matching funds (discussed below) could be awarded at any time. Total proposed funding for EDJT is \$13,548,000 in FY 2002-03.

**2. Allocation for University Research Grant Matching Funds**

The Governor proposes adding a new eligible use of EDJT funds. The Michigan Economic Development Corporation could allocate \$1,000,000 from EDJT funds for the current year to a university for use as matching funds for university Federal research grants.

**A. FY 2001-02 SUPPLEMENTAL APPROPRIATIONS**

**1. Comprehensive Transportation Fund Unreserved Balance**

The Governor's budget proposal includes authorization to spend \$7.6 million of the estimated unreserved FY 2000-2001 Comprehensive Transportation Fund (CTF) balance in FY 2001-02. The supplemental request includes \$4.1 million to partially fund an intermodal freight facility in southeastern Michigan. The State funding will leverage an \$18 million Federal earmark for the program.

The supplemental also includes \$3.2 million in CTF support for operating assistance to local transit agencies, pursuant to Public Act 51 of 1951. This request would fully restore the funding eliminated in Executive Order 2001-9.

The supplemental also includes \$190,000 in CTF funding for specialized services. This request would fully restore the funding eliminated in Executive Order 2001-9.

**2. Federal Bridge Funding**

The supplemental also includes restoration of \$24 million in Federal bridge funding vetoed in the FY 2001-02 budget. Of this funding, \$6 million will be distributed to the State road and bridge program and \$18 million to the local bridge program.

**B. DIESEL FUEL TAX INCREASE AND SIMPLIFICATION**

The Governor's budget proposal includes revenue from an anticipated 4-cent per gallon increase in the diesel fuel tax, from 15 cents to 19 cents, along with reforms to simplify the administration of the tax. The estimated net increase from the diesel tax package is \$44 million. This funding will be distributed as follows: \$32.6 million to the Commercial Highway Fund for projects on the national highway system; \$5.8 million to the Critical Bridge Fund to support debt service on \$150 million in bonds for local bridge projects; \$1.2 million to the State Trunkline Fund; \$1.2 million to county road commissions; \$670,900 to cities and villages; \$342,000 to the Comprehensive Transportation Fund; and \$2.2 million to the Michigan Department of Treasury for implementation costs associated with a motor fuel compliance/reporting system.

The Governor's budget proposal includes a new program to address security issues at Michigan airports. The ASAP plan would involve the sale of \$60 million in bonds over a five-year period to provide funds for airport security/safety projects. Debt service on the bonds would come from a statutory change in the allocation of the airport parking tax to redirect \$6 million of the tax revenues to the State Aeronautics Fund.

**E. MICHIGAN TRANSPORTATION FUND (MTF) GRANTS**

The Governor's budget proposal continues the FY 2001-02 increase in the MTF grant to the Department of State, made in Executive Order 2001-9. This grant totals \$90.4 million in the Governor's FY 2002-03 budget. The budget recommendation also provides a separate grant to the Department of State for commemorative/speciality license plants, totaling \$6.1 million.

The recommendation also continues the \$8 million MTF grant to the Department of Treasury established in the Executive Order. The FY 2002-03 proposal increases this grant by \$2.2 million to cover the implementation costs associated with the diesel fuel tax simplification system.

**F. FEDERAL ROAD AND BRIDGE FUNDING**

The Governor's budget proposal includes additional anticipated Federal funding under the Transportation Equity Act for the 21<sup>st</sup> Century of \$33.5 million. Of the total increase, \$11 million would be used for debt service costs associated with a planned \$200 million issuance of Federal grant anticipation revenue vehicles (GARVEE) notes. The State issued \$400 million of these short-term notes in July 2001. The remaining Federal funding primarily consists of a restoration of the Governor's FY 2001-02 veto of \$24 million in bridge funding (which is contained in a proposed FY 2001-02 supplemental appropriation).

**G. TRANSPORTATION ECONOMIC DEVELOPMENT FUND**

The Governor's budget proposal makes adjustments to allocate debt service on Build Michigan III bonds proportionately from categories "A", "C", and "D", as opposed to entirely from category "A" (target industries), which is how the debt service is appropriated in FY 2001-02. (Note: Despite its treatment in the FY 2001-02 budget, the Governor, in his veto message, directed the Department to pay Build Michigan III debt service from "A", "C", and "D".) The recommendation also restores, proportionately, the \$2.3 million reduction in the Fund under Executive Order 2001-9.

**A. FEDERAL EDUCATION ASSESSMENTS GRANT**

The Federal government has made grants to the states to conduct yearly testing in math and reading of students in grades 3-8. This funding will supplement the Michigan Education and Assessment Program (MEAP), which is currently only testing in two of those years. States have until the 2004-05 school year to implement the additional tests. Use of the Federal funds may include the creation of state standards, test development, and administration.

**A. REVENUE SHARING PAYMENTS**

Gross	0
Restricted	0
GF/GP	0

The Governor recommends that restricted State revenue sharing payments in FY 2002-03 total \$1,528,800,000, an estimated increase of \$0 from the current estimated payments for FY 2001-02. The recommendation would be a limit on total revenue sharing distributions; if actual sales tax revenue exceeds the consensus estimate and produces a higher revenue sharing total than the appropriated amount, the excess revenue would not be distributed. The language specifies that if additional constitutional revenue sharing payments are distributed as a result of higher sales tax revenues, then the statutory payments to cities, villages, and townships will be reduced by the increase in the constitutional payments.

The budget recommends that if a county treasurer does not comply with Section 151 of the State School Aid Act (MCL 388.1751), then the statutory portion of revenue sharing payments to that county will not be made until the reporting requirements have been met. Section 151 requires each county treasurer to submit a statement of the taxable value for each district and fraction of each district within the county, as well as revisions for previous years.

The appropriated amount is approximately \$122,400,000 less than the revenue sharing amount suggested by the statutory formula to “fully fund” revenue sharing payments, given the January 2002 Consensus Revenue Estimating Conference estimate of FY 2002-03 sales tax revenue. Since the appropriation restricts the statutory revenue payments, if actual sales tax revenues are less than the adopted estimate, then constitutional revenue sharing payments will be lower and total statutory payments will not be reduced, although the distribution of statutory payments would be affected.

**B. GRANTS TO LOCAL GOVERNMENTAL UNITS**

GF/GP	10,000,000

While the Governor’s recommendation would keep combined constitutional and statutory revenue sharing payments at the estimated level for FY 2001-02, changes in the relative shares of the total for constitutional and statutory revenue sharing payments would require that some local units experience increases in revenue sharing distributions from the FY 2001-02 level while other units would experience decreases. To offset any estimated declines in revenue sharing distributions to local units, the budget recommends \$10,000,000 of General Fund/General Purpose-funded grants to “hold harmless” local units that otherwise would experience a decline in their revenue sharing payments.

The estimated revenue sharing payments by distribution type are summarized in Table 1. The figures in Table 1 are based on the January 2002 consensus estimates of State revenues and the Governor’s recommendation.

- 1) The revenue sharing appropriations are based on consensus sales tax estimates adopted at the January 2002 Consensus Revenue Estimating Conference. The appropriated levels represent the maximum amount that will be distributed for restricted revenue sharing. If actual sales tax collections are lower, then the revenue sharing distributions will be reduced. If actual sales tax collections are higher than estimated, then constitutional payments will be increased and statutory payments will be reduced.
- 2) General Fund/General Purpose amounts are for one-time grants to local units. The grants are to be distributed to keep the projected FY 2002-03 total for each local unit from falling below the estimated FY 2001-02 level.

# **ECONOMIC AND REVENUE FORECAST**

---

## ***ECONOMIC AND REVENUE FORECAST***

### **Economic Forecast**

The Governor's proposed budget for FY 2002-03 is based on an economic forecast that assumes the U.S. and Michigan economies pull out of the recession in the first half of 2002 and then the pace of economic growth continues to improve through the end of 2003. This economic forecast is the consensus forecast adopted by the Treasury Department, Senate Fiscal Agency, and House Fiscal Agency at the January 15, 2002, Consensus Revenue Estimating Conference.

For the U.S. economy, real Gross Domestic Product (GDP) is forecast to increase 0.4% in 2002 and then improve to a growth rate of 3.1% in 2003. This improvement in the rate of growth will be due in part to Federal government monetary and fiscal policy. In an attempt to halt the declining growth and minimize the recession, the Federal Reserve cut the Federal Funds and Discount rates over 400 basis points in 2001. It takes anywhere from nine months to one and a half years for these lower interest rates to have a full impact on economic activity, so some of the favorable stimulus from these cuts will help bolster economic growth in the latter half of 2002 and the first part of 2003. In addition, Federal fiscal policy will have a key impact on reinvigorating the economy. The phased cut in Federal taxes enacted in July 2001, together with the increases in Federal spending that have been enacted to-date, will help stimulate renewed growth. These reductions in interest rates and the Federal fiscal actions, along with low energy prices and anticipated continued improvement in consumer and business confidence, will be key factors in the increased economic growth in 2002 and 2003. Light motor vehicle sales are expected to fall to 15.3 million units in 2002, from the 2001 near record-breaking level of 17.0 million units, and then bounce back up to 16.4 million units in 2003. Even as economic growth begins to improve in 2002, businesses will be taking steps to improve their profitability, and as is typical during the initial stages of an economic recovery, the unemployment rate is expected to continue to rise in 2002, but then start to improve in 2003. The U.S. unemployment rate is expected to rise to 6.5% in 2002, from 4.8% in 2001, and then edge down slightly to 6.2% in 2003. Inflation, as measured by the U.S. Consumer Price Index, is expected to slow to 1.9% in 2002 and then pick up slightly to 3.0% in 2003.

Michigan wage and salary employment is forecast to decrease by 33,000 jobs, or 0.7%, in 2002, mostly due to weakness in the manufacturing sector, but then as economic activity continues to improve in 2003, wage and salary employment is expected to increase by 79,000 jobs, or 1.7%. As a result, the unemployment rate is projected to increase to 6.5% in 2002 from 5.0% in 2001, and then ease back to a rate of 6.1% in 2003. The decline in the number of people employed in 2002, will be offset in part by an increase in the average work week in many sectors of the economy during the last part of 2002, which will help generate a 2.4% increase in Michigan personal income in 2002. This will be down from the 2.9% increase experienced in 2001. In 2002, personal income growth is expected to rebound to a rate of 5.3%. Inflation, as measured by the Detroit Consumer Price Index, is expected to slow to 2.4% in 2002, from 2.8% in 2001, and then edge up to 3.0% in 2003.

### **Revenue Estimates**

Revenues totaling an estimated \$39.0 billion will be available in FY 2002-03 to support Governor Engler's proposed budget. This represents a 4.1% increase from the revised revenue estimate for FY 2001-02. These total State government revenues include revenue from such sources as taxes, fees, interest, licenses and permits, penalties, fines, Federal aid, and carryover balances. [Table 1](#) presents the overall State budget revenue estimates for FY 2001-02 and FY 2002-03, broken down by major fund.

Two of the major funds in the overall State budget are the General Fund/General Purpose (GF/GP) and School Aid Fund (SAF) budgets. These two funds will account for an estimated \$22.0 billion in revenue in FY 2002-03, including beginning carryover balances and excluding interfund transfers. A breakdown of the GF/GP and SAF revenue estimates for FY 2001-02 and FY 2002-03, is presented in [Table 2](#). These GF/GP and SAF revenue estimates are the consensus estimates adopted by the Engler Administration, Senate Fiscal Agency, and House Fiscal Agency at the January 15, 2002, Consensus Revenue Estimating Conference. These estimates include baseline revenue (which is the revenue that would be realized if there were no changes in the tax structure from one year to the next), the fiscal impact of enacted and proposed tax changes and nonbaseline revenue adjustments, grants and transfers, Federal aid, and beginning carryover balances.

The Governor proposes three tax changes in his FY 2002-03 budget, which include changes to the State education property tax, the taxes on diesel fuel, and the use tax.

**State Education Property Tax.** In order to generate additional revenue for the School Aid Fund, the Governor is proposing that the collection of the State education property tax be accelerated. Currently, the State education property tax is collected from taxpayers as part of their July and December property tax bills. Because the State's fiscal year runs from October through September, the State education property tax collections in any fiscal year equal the collections from the December tax bill and the following July tax bill. The Governor is proposing that all of the State education property tax be collected in the July tax bill, beginning in FY 2002-03. As a result, in FY 2002-03, the State would receive State education property tax revenue from the December 2002 and July 2003 property tax bills, as it will under the current payment schedule, but the July tax bills also would include an extra payment that, under current law, would not be collected until the December 2003 bills were issued. To help temper the impact of this one-time acceleration in the collection of the State education property tax, the Governor also is proposing that the rate of the State education property tax be reduced from 6 mills to 5 mills, only for the 2003 tax year. These two changes would generate an estimated \$494 million in additional revenue for the School Aid Fund in FY 2002-03.

**Diesel Fuel and Use Taxes.** Presently, motor carriers encounter a fairly complicated tax on the diesel fuel they consume in Michigan. The effective tax rate is about 21 cents per gallon, and consists of a combination of a direct tax on diesel fuel and a sales tax. Diesel fuel consumed and purchased in Michigan is subject to a 15-cent per gallon tax, and, at today's fuel prices, also must pay a 6-cent per gallon sales tax. Diesel fuel consumed but not purchased in Michigan is subject to a 21-cent per gallon tax, but is not subject to the sales tax. Besides being complicated, the 21-cent per gallon effective tax rate on diesel fuel is below the tax on gasoline. Gasoline purchased in Michigan is assessed a 19-cent per gallon gasoline tax and the 6% sales tax, which translates into an effective tax rate of about 25 cents per gallon. To help simplify and create a more equitable balance between the taxes on gasoline and diesel fuel, the Governor is proposing the following changes to the taxes on diesel fuel: 1) all diesel fuel would be taxed at 19 cents per gallon, just like gasoline, 2) fuel consumed but not purchased in Michigan would be subject to the 6% use tax, which would be a new tax on diesel fuel, 3) diesel fuel purchased in Michigan would continue to be subject to the 6% sales tax, and 4) the point at which the tax on diesel fuel purchased in Michigan is collected would be moved from the retail level to the wholesale/supplier level. These changes would create an effective tax rate on diesel fuel of about 25 cents per gallon (diesel fuel tax plus the sales/use tax), which would make it the same as the taxes on gasoline. It is estimated that these changes would generate an additional \$48 million in diesel fuel tax in FY 2002-03, and an additional \$4.5 million in use tax.

**General Fund/General Purpose Revenue.** As shown in [Table 2](#), GF/GP revenue is expected to total \$9.24 billion in FY 2002-03, which is up 2.0% from the FY 2001-02 estimate. This increase in available GF/GP revenue is due entirely to proposed one-time revenue adjustments, which total \$512 million. These one-time revenue adjustments include a \$207 million transfer from the Budget Stabilization Fund, a \$100 million transfer from the Merit

Award Trust Fund, \$122 million due to a reduction in revenue sharing payments, and a \$80 million transfer from the Employment Security Contingent Fund. The revenue from the ongoing tax and nontax revenue sources is expected to decline 0.4% in FY 2002-03, due to the ongoing phased reduction in the income and single business tax rates.

**School Aid Fund.** School Aid Fund revenue available for spending in FY 2002-03 will total an estimated \$12.9 billion. The SAF revenue estimate for FY 2002-03 consists of a beginning balance of \$278 million, earmarked tax and lottery revenue of \$10.6 billion, a \$198 million grant from the GF/GP budget, and \$32 million from the Budget Stabilization Fund to fund the ongoing *Durant* court case settlement payments to local school districts. The Governor also is proposing that the School Aid Fund receive \$1.34 billion in Federal aid, which is up considerably from the estimated \$203 million in Federal aid expected in FY 2001-02. This increase in Federal aid would be due to the Governor's proposal to transfer over \$1 billion in Federal aid to the School Aid Fund that is currently being appropriated through the Department of Education budget. Therefore, while this Federal aid would be new to the School Aid Fund, it would not represent new revenue available for schools.
