This request is part of the city's ongoing efforts to make its public spaces more inclusive and accessible to all residents, regardless of their physical abilities. The \$1 million in funding would be used to make improvements to the city's existing parks and recreation center, including the installation of ADA-compliant ramps, handrails, and other accessibility features. Additionally, the funding would be used to construct a new pavilion that is accessible to those with special needs, providing a safe and comfortable space for all residents to enjoy the city's parks and recreational activities. This investment in accessibility will not only benefit residents with disabilities but also their families and caregivers,
