<p>Sec. 20 Foundation Allowance Calculation</p>	<p>Target foundation allowance for FY 2020-21 is \$8,529 and the minimum foundation is \$8,111. Unless otherwise stipulated, in years of increases in the foundation allowance, uses the "2x" equity formula, which doubles the increase in the target foundation for those at the minimum foundation and provides an increase somewhere in between for districts with foundations in between the minimum and the target.</p>	<p>Target foundation allowance for FY 2021-22 is \$8,611, and the minimum is \$8,275. The Governor proposes an \$82 increase for districts at or above the target, and up to \$164 for districts below the target (with \$164 provided to those districts at the minimum), using a "2x" formula. This costs roughly \$203,000,000, which is paid under Section 22b. Revised Rec from May 2021 included a proposal to provide increases of \$163 to \$326 per pupil and to eliminate the gap up to \$8,692.</p>	<p>Target foundation allowance is \$8,700 for FY 2021-22 and the minimum is \$8,700. The budget provides a \$171 per pupil increase for any district with a 2020-2021 foundation allowance at or greater than \$8,529, and brings all districts with 2020-2021 foundation allowances below \$8,529 up to \$8,700 per pupil. The 2x formula is not used for 2021-2022. This costs roughly \$683.0 million and is paid under Section 22b. In addition, in (4), the State share of the foundation allowance for hold harmless districts is adjusted to fix a taxpayer inequity, which costs \$40 million and is paid under Section 22a. (6) Does not concur.</p>	<p>Target foundation allowance is \$8,579 for FY 2021-22 and the minimum is \$8,453. The budget proposes a \$171 increase for districts at or above the target, and up to \$342 for districts below the target (with \$100 provided to those districts at the minimum), using a "2x" formula. This costs roughly \$421.0 million, which is paid under Section 22b. In addition, in (4), the State share of the foundation allowance for hold harmless districts is adjusted to fix a taxpayer inequity, which costs \$40 million and is paid under Section 22a.
