

**SENATE FISCAL AGENCY
 MEMORANDUM**

DATE: July 22, 2020

TO: Members of the Senate Appropriations Committee

FROM: Christopher Harkins, Director

RE: Executive Order (EO) 2020-155 Reduction and Supplementals to Balance Fiscal Year (FY) 2019-20

Based on revised consensus revenue estimates agreed to on May 15, 2020, and enacted and projected State appropriations, the Senate Fiscal Agency (SFA) revised its estimates of the year-end balances in the FY 2019-20, FY 2020-21, and FY 2021-22 General Fund/General Purpose (GF/GP) and School Aid Fund (SAF) budgets. At that time, the May 2020 consensus estimate for the current budget year, FY 2019-20, GF/GP revenue was reduced by \$2.0 billion from the January 2020 consensus revenue estimate, while the consensus SAF revenue was reduced by \$1.2 billion. When compared to projected FY 2019-20 expenditures, the SFA projected a year-end GF/GP deficit of \$1.1 billion and a year-end SAF deficit of \$1.1 billion. Combined, the FY 2019-20 GF/GP and SAF were projected at a \$2.2 billion mid-year deficit.

The Management and Budget Act (Section 391 of Public Act (PA) 431 of 1984, MCL 18.1391) requires the State Budget Director and the State Treasurer to notify the Governor when actual revenue for a fiscal period falls below the revenue estimates upon which the appropriations for that period were based. The Governor then must consider all appropriations having been made and is authorized to recommend a proposal to the Senate and House Appropriations Committees to bring spending in line with revenue projections. At certain times, governors facing reduced revenue have chosen to negotiate necessary budget actions with the Legislature before issuing an executive order reducing expenditures. As such, the State Budget Director recently initiated negotiations with the Senate and House Appropriations Committee chairs to develop solutions intended to bring FY 2019-20 spending in line with revenue.

On July 22, 2020, Governor Whitmer issued EO 2020-155 as the first action intended to bring the current year budget back into balance. The Governor also has issued a letter recommending the lapse of multiple prior-year work projects. Pursuant to the negotiations between the State Budget Director and the Senate and House Appropriations Committee chairs, a negative general supplemental bill, House Bill (HB) 5265, as well as a SAF supplemental bill, Senate Bill (SB) 373 will be considered by the Legislature. Also, the Legislature will consider several statutory bills that would transfer Restricted fund balances to the GF/GP for FY 2019-20. This memorandum will explain the various pieces of the proposed FY 2019-20 budget solution, as negotiated.

Table 1 outlines the SFA's projected current year-end GF/GP deficit and the adjustments proposed to State revenue and expenditures included in EO 2020-155, HB 5265, recommended work project lapses, and anticipated restricted revenue transferred to GF/GP. The increased revenue proposed totals \$262.7 million over previous estimates and is the result of a proposed \$96.5 million reduction of statutory revenue sharing payments (a reduction in sales tax revenue is reflected as a positive GF/GP offset on the balance sheet), Restricted fund revenue transfers to GF/GP totaling \$165.7 million, and GF-equivalent work projects recommended for lapse

totaling \$559,800. Current-year expenditures are recommended to be reduced by \$1.1 billion: \$620.0 million are recommended to be reduced by EO 2020-155, prior-year work projects are recommended to lapse \$80.8 million, negative supplemental appropriations of \$224.7 million are included in HB 5265, and the recognition of an additional anticipated Federal Medicaid match related to the coronavirus disease 2019 (COVID-19) pandemic allows for the offset of \$150.0 million GF/GP. General Fund/General Purpose appropriations are recommended to be increased with an additional one-time contribution of \$211.0 million to the SAF, and \$12.4 million of programmatic increases in HB 5265. These recommended changes are projected to result in a current-year GF/GP balance of \$62.9 million.

Table 2 illustrates the SFA's projected current year-end SAF deficit and the supplemental changes recommended to bring the SAF into balance. Senate Bill 373 reflects \$350.0 million from the Budget Stabilization Fund, \$712.0 million from the Federal Coronavirus Relief Fund (CRF), \$9.7 million in anticipated transfer of funds from the recommended lapse of prior-year work project Talent Investment Fund dollars, \$30.0 million of unspent Michigan Public School Employees Retirement System (MPSERS) Reserve Fund dollars, \$3.9 million of lapsed work project funds recommended from the Education Data Decision Support System, and a \$211.0 million additional deposit of one-time GF/GP. These additional revenue items are offset by proposed reductions to the SAF totaling \$487.4 million. The proposal in SB 373 includes a per-pupil reduction totaling \$256.0 million SAF, a university reduction of \$163.7 million SAF, a community college reduction of \$36.3 million SAF, reduced MPSERS costs of \$14.2 million, State assessments reduction of \$6.0 million, reduction in School Safety Grants of \$10.0 million, a First Robotics reduction of \$800,000, and CEPI operations reduction of \$411,400. The per-pupil increase included in SB 373 is supported by a CRF appropriation totaling \$512.0 million, and CRF distributed to universities and community colleges totaling \$163.7 million and \$36.3 million, respectively. Lastly, SB 373 includes a positive programmatic increase of \$575,000. In total, these adjustments result in a projected SAF balance of \$700,000.

An accounting of the various components of the GF/GP recommended adjustments to the current-year budget are included in Table 3. Table 4 details the \$633.4 million Gross reductions that are recommended as a part of EO 2020-155. Of note, the EO reductions to the Department of Corrections (MDOC) and to the Michigan State Police (MSP) reflect a total of \$499.2 million GF/GP. In a letter to the Legislature from the State Budget Office dated July 7, 2020, \$475.0 million CRF was authorized for MDOC and MSP operations related to department COVID-19 responses, \$368.2 million CRF and \$106.8 million CRF, respectively. The utilization of these Federal dollars was authorized under Sec. 302 of Public Act 67 of 2020. A line-by-line explanation of each EO recommended reduction is included in Appendix A.

Table 5 outlines the work projects recommended by the Governor to lapse identified funds back to GF/GP. These recommended lapses will occur unless there is an action by either the Senate or House Appropriations Committees to disapprove them within 30 days after the date of notification. Appendix B provides details of each of the recommended prior-year work project lapses.

The GF/GP adjustments recommended as part of the general supplemental bill, HB 5265, are outlined in Table 6. Line-item reductions totaling \$217.8 million are recommended, as are two fund balance reductions included as boilerplate adjustments totaling \$6.9 million. The bill also recommends a \$523.3 million reduction of GF/GP assuming a continuation of increased Federal Medicaid matching funds through the end of the fiscal year. This represents \$150.0 million of additional GF/GP offset that had not been assumed at the time of the May Consensus Revenue

Estimating Conference. The bill makes technical adjustments of \$190.1 million to Department of Health and Human Services caseloads, reflecting consensus decisions in May that were previously assumed on SFA balance sheets. Lastly, HB 5265 recommends increased supplemental spending of \$12.4 million.

Table 7 provides an explanation of the \$165.7 million of total restricted funds to be statutorily amended and transferred to GF/GP for the current fiscal year. In the case of certain Restricted funds, dollars first must be allowed to lapse from prior-year work projects to their appropriate Restricted funds and then will be transferred to the GF/GP by statute. These Restricted fund transfers outlined in Table 7 will require statutory changes and these implementation bills are assumed as part of the negotiated FY 2019-20 budget solution.

Appendix C and Appendix D are the SFA analyses for the supplemental budget bills HB 5265 and SB 373 assumed in the FY 2019-20 deficit solution.

In all, the proposed transfer of Restricted fund, reductions in current year spending, and recommended use of Federal dollars, eliminate the combined projected year-end FY 2019-20 deficit and produce a projected GF/GP balance of \$62.9 million and a SAF balance of \$700,000.

FISCAL IMPACT

The bill would make a number of changes to FY 2019-20 appropriations. The largest changes would be in the Department of Health and Human Services (DHHS). These proposed changes include a \$523.6 million GF/GP savings tied to the enhanced Federal Medicaid match rate, which increased from 64.06% to 70.26%, effective retroactive to January 1, 2020. The DHHS portion of the bill recognizes \$600.0 million in Federal funds to cover projected Food Assistance Program costs. The bill includes a net increase of \$190.1 million GF/GP to cover DHHS base and caseload costs agreed to at the May 2020 Consensus Revenue Estimating Conference. The bill reflects \$125.0 million GF/GP savings in the DHHS and the Department of Technology, Management, and Budget due to the Federal decision to waive State match requirements for Federal Emergency Management Agency (FEMA) funding. The bill also includes \$47.0 million GF/GP in savings due to fund source swaps through which available excess Restricted revenues would be used to reduce GF/GP costs. Part 1 of the bill reduces GF/GP spending by \$538.7 million, but the bill also includes two boilerplate lapses of Restricted funds (Sections 501 and 701) that would further reduce GF/GP costs by a total of

\$6.9 million, so the total GF/GP impact of the bill is a reduction in GF/GP spending of \$545.6 million. Table 2 includes a more detailed listing of Part 1 appropriations in the bill.

FY 2019-20 BOILERPLATE LANGUAGE SECTIONS-PART 2

Sec. 201. General. Records amount of total State spending and payments to local units of government.

Sec. 202. General. Subjects appropriations and expenditures in the article to the provisions of the Management and Budget Act.

Sec. 203. General. Directs that, if the State Administrative Board transfers funds appropriated in the Act, the Legislature may, by concurrent resolution requiring a majority vote in each chamber, transfer funds within a particular department, board, commission, officer, or institution.

Sec. 204. General. Directs that appropriated funds are subject to Federal audit and reporting requirements. Requires prompt action if instances of noncompliance are identified and directs the State Budget Director to rectify any noncompliance issues and to inform the Appropriations Committees and fiscal agencies in the case of noncompliance. Requires all subrecipients receiving funds to comply with Federal receipt provisions requirements in the Coronavirus Aid, Relief, and Economic Security (CARES) Act and permits State departments administering Federal funds to require documentation necessary to ensure compliance. Directs that any funding to a subrecipient that does not adhere to CARES Act provisions be returned to the State and requires the State Budget Director to withhold payment of State funds to any subrecipient that does not spend funds consistent with the CARES Act or Federal regulations.

Sec. 205. General. Requires the State Budget Director to report monthly on all coronavirus relief effort funds to the Appropriations Committees and the fiscal agencies.

Sec. 206. General. Directs that Federal Coronavirus Relief Fund (CRF) dollars in part 1 of the bill that are appropriated in this bill supersede and replace CRF dollars that were authorized under authority granted to the Governor for 90 days under Public Act 67 of 2020.

Sec. 401. Health and Human Services. Creates a two-way risk corridor for FY 2019-20 for existing contracts with Medicaid health plans. This risk corridor would be designed to help recapture reduced costs and resultant net revenues accruing to Medicaid health plans during the COVID-19 pandemic when many medical procedures were delayed. The risk corridor would allow for the first portion of any net costs or savings to accrue to the Medicaid health plans, with the next portion of any net costs or savings being split 50-50 between the Medicaid health plans and the State. The final portion of any net costs or savings would be 100% at the State's risk.

Sec. 402. Health and Human Services. Sets conditions on funding appropriated in the bill to the West Michigan Partnership for Children Consortium in Kent County. The language creates a restructured payment methodology using a global capitated payment model based on historical averages of children in foster care and their average cost. The Consortium would be required to manage the cost of the population served and the capitated payment amount would be reviewed and adjusted on a periodic basis. The language also requires that the Consortium maintain a risk reserve of at least \$1.5 million and requires the Consortium to submit a plan on how they will manage expenses.

Sec. 501. Labor and Economic Opportunity. Directs that the State Budget Director effectuate a transfer of \$1.4 million from Restricted funds within the Michigan Strategic Fund to the General Fund.

Sec. 502. Labor and Economic Opportunity. Rewrites the Small Business Restart Grant language (Sec. 503 of Public Act 123 of 2020) to change the cap of \$20,000 to allow a business that received a grant under the Michigan Small Business Relief Program to receive a grant for up to the amount between what they received and \$20,000.

Sec. 601. Legislature. States intent of the Legislature that \$9,418,300 in State GF/GP work project authorization funds will lapse from the Legislature's budget in FY 2019-20.

Sec. 701. Transportation. Directs the State Budget Director to take actions necessary to lapse remaining revenue from the Roads and Risks Reserve Fund.

Sec. 801. Treasury. Rewrites the First Responder Hazard Pay Premiums language (Sec. 601 of Public Act 123 of 2020) to expand the definition of applicant to include a local government authority, intergovernmental agency, or organization that employs local public safety or local public health personnel that was established by a municipality or group of municipalities for the primary purpose of providing public safety or public health services.

Sec. 802. Treasury. Language governing the teacher COVID-19 grants appropriated in part 1. Directs that equal payments be made to eligible K-12 classroom teachers who teach in a public school or nonprofit nonpublic school. Directs that grants be up to \$500 per full-time equated teacher. Permits the Department of Treasury to retain up to 0.5% of the funding for administrative costs.

Sec. 803. Treasury. Rewrites the Local Units of Government grants language (Sec. 604 of Public Act 123 of 2020) to extend the submission date from July 17, 2020, to one week after the effective date of the bill. Expands the entities eligible to receive funding to include local government authorities, intergovernmental agencies, or organizations that employ local public safety or local public health personnel. Directs that counties or cities that received direct Federal allocations are only eligible to the extent that they reimbursed, with non-Federal funds, contracting local units of government, local government authorities, or intergovernmental agencies for costs of contracted non-Federal payroll for the eligible period.

Sec. 804. Treasury. Directs the Department of Treasury to reduce city, village, and township revenue sharing, county revenue sharing, and the county incentive program by amounts equivalent to each local unit's August revenue sharing payment.

Sec. 805. Treasury. Directs that the Coronavirus Relief Grants in part 1 be distributed to cities, villages, townships, and counties that would have received revenue sharing payments in August, proportionate to the size of the reduction. Directs that recipient entities spend received funds in compliance with the provisions of the Federal CARES Act, and requires any funds not spent in an appropriate manner to be returned to the State.

Sec. 806. Treasury. Directs that State funds to local units of government for the remainder of the fiscal year be appropriated only if the revenue is necessary to satisfy debt service obligations through an intercept agreement between the local unit and the state treasurer before July 1, 2020, and the amount of revenue does not exceed the amount of revenue sharing revenue the local unit was scheduled to receive in August 2020, with the local unit agreeing to return the full amount of the appropriation from any legally available funds. If a local unit is unable to return the revenue, the Department of Treasury must establish a receivable and recoup the amount from revenue sharing payments in FY 2020-21.

Enacting Section 1. Repealers. Repeals provisions in Public Acts 66 and 67 of 2020 governing the Coronavirus Public Health Emergency and Coronavirus Response Fund as those two lines would be zeroed out in this bill. Enacting Section 1 also repeals boilerplate from Public Act 123 of 2020 that would be rewritten and replaced by Sections 502, 801, and 803 of the bill.

Senate Bill 373 (Substitute S-3)
Sponsor: Senator Jim Stamas
Senate Committee: Appropriations
House Committee: Appropriations

Date Completed: 7-22-20

CONTENT

The bill would amend the State School Aid Act to implement several provisions of the fiscal year (FY) 2019-20 budget agreement pertaining to K-12 schools, community colleges, and higher education. In broad terms, the bill would reduce State funding to K-12 schools by \$175 per pupil, reduce State funding to community colleges and higher education by roughly 11.2% applied to each institution's operations and performance funding, include fund shifts freeing up School Aid Fund (SAF) revenues, reduce and eliminate certain categoricals, include technical consensus cost adjustments in various line items, and appropriate Federal Coronavirus Relief Fund (CRF) money for K-12, community colleges, and higher education. The tables below identify specific dollar changes found in the bill.

In addition, the bill would include language to ensure charter schools received the same minimum foundation allowance that local districts at the minimum receive and would allow Great Start Readiness Program subrecipients to identify up to 10% of indirect costs. The bill also would include a requirement that the Department of Education continue the model value-added growth and projection analytics system, specifies conditions for funding the model in the future, would require that the Department and platform vendor provide statewide training for educators, and would require the Department and Center for Educational Performance and Information (CEPI) to provide a report on district's use of the model. Finally, the bill would extend the date by which recent high school graduates may apply for the Tuition Incentive Program.

Fund Shifts and Work Project Lapses in K-12/School Aid		
Line Item Name/Description	Initial Appropriation	Amount of Adjustment
Talent Investment Fund - lapse a portion of the remaining work project (roughly \$62 million would remain) and use as a fund source for career and technical education	\$100,000,000	(\$9,717,800)
Education Data Decision Support System - lapse remaining work project and deposit into the SAF	15,000,000	(3,900,000)
MPSERS Reserve Fund - unspent funds in this section would be used to support other ongoing MPSERS costs	1,900,000	30,000,000
Budget Stabilization Fund - a total of \$350.0 million would be deposited from the BSF into the SAF under this bill	0	350,000,000
General Fund/General Purpose - an increase of \$210,380,000 GF/GP would be deposited into the SAF to offset projected SAF shortfalls	\$62,620,000	\$210,980,000

Table 3

Technical Cost Adjustments for K-12/School Aid		
Line Item Name/Description	Initial Appropriation	Amount of Adjustment
Cash flow borrowing - because of reduced interest rates, this appropriation would be decreased significantly	\$66,000,000	(\$59,000,000)
Special education - technical cost adjustments are included in the bill	1,045,196,100	(21,200,000)
Foundation allowance payments - technical cost adjustments are included, driven by adjustments in pupil estimates and taxable values	9,499,000,000	(8,000,000)
Promise Zones - cost adjustments driven by updated taxable values	8,400,000	(1,000,000)
Detroit Community District Trust Fund - this is an additional deposit of Trust Fund revenues into SAF to support the cost of diverting 18-mill revenue for paying off DPS debt	\$75,400,000	+\$500,000 (yields \$500,000 savings to SAF)

Table 4

Coronavirus Relief Fund Spending		
Line Item Name/Description	Initial Appropriation	Amount of Adjustment
K-12: Per-pupil payments of \$350 to districts and public school academies for CARES Act-related spending	\$0	\$512,000,000
Community Colleges: Payments of roughly 11% to each institution for CARES Act-related spending	0	36,276,400
Higher Education: Payments of roughly 11% to each institution for CARES Act-related spending	0	163,723,600
Total:		\$712,000,000

Another way to view the pieces of the budget agreement illustrated above is in the following table, which illustrates the initial K-12 appropriations in total, the proposed changes in appropriations, the proposed changes in revenues, and the resulting appropriations. Please see [Table 5](#) below. For community colleges and higher education (not reflected in the table below), the State funding reduction is roughly 11.2%, applied to operations and performance funding. In addition, the CRF appropriations for community colleges and higher education are roughly 11.2%, applied to operations and performance funding. The sum total of reductions in State spending for community colleges and higher education is \$200.0 million.

Resulting Gross		\$135,963,600	\$15,313,227,200
*The bill would deposit \$350.0 million from the Budget Stabilization Fund into the School Aid Fund, thereby decreasing the amount of the overall SAF shortfall.			

FISCAL IMPACT

The bill would increase Gross appropriations to K-12 by roughly \$136.0 million and would not result in any changes in gross appropriations for community colleges or higher education. Of the gross appropriations, State spending in K-12 would decrease by \$376.0 million, while State spending for community colleges and higher education would decline by \$200.0 million. Federal spending for K-12 would increase \$512.0 million and Federal spending for community colleges and higher education would increase by \$200.0 million.
